BEJO & SEEDWAY - LEADING THE WAY WITH IMPROVED VARIETIES

As the very first breeding company to introduce mildew resistant onion varieties to the market, Bejo invests heavily in onion breeding. Our extensive range of varieties contain brown, white, red and pink onions. Bejo onions are specifically tailored to different day lengths and climate zones to meet the demands placed by growers, processors and consumers.

GREEN POD FRESH MARKET BUSH BEANS *Listed By Maturity - See Pricing On Page 5*

Code	Variety	Days	Pod/Size	Pod Color	Seed Color	Disease Reaction	Comments
5242C	LEWIS	53	5" - 5½" round	Med-dark green	White	R: BCMV, BCTV, Psp, Ua IR: Pss	Glossy pods and dark color fit well with fresh market use. Plants are very upright and easily hold pods off the ground. Comprehensive disease package.
7802C	PV857	53	5½" round	Dark green	White	HR: BCMV, CI IR: Ua:90	The best heat set bean we have seen! Plant for midsummer flowering. Erect bush with concentrated sets of 3 - 4 sieve pods.
5392C	LASALLE	54	5½" - 6" round	Dark green	White	HR: BCMV IR: Psp, Pss, Xap	This erect and open bush provides more airflow over the long, straight pods. A 4 sieve bean that harvests cleanly.
6804C	VALENTINO	55	5½" round	Very dark green	White	R: BCMV	Produces straight, very dark green, medium diameter pods (3 - 4 sieve). Concentrated set, picks clean and grades well.
6540C	GREENBACK	55	5½" - 6" round	Dark green	White	HR: BCMV	Widely adapted, high yielding, clean harvest (less broken pods). Uniform pod color and size.

BARTRAM^

LUNAR^

SYBARIS^

CAPRICE^

LASALLE^

PV857^

SANFORD^

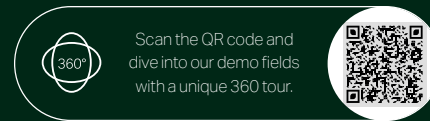

3836C	NEW BARTRAM	56	5½" round	Med-dark green	White	HR: Ua, BCMV, BCTV	Widely adapted variety with an upright plant. Sets well in warmer planting slots. Good stem attachment for better shelf life. Smooth, straight pods.
9349C	CAPRICE	56	5½" - 6" round	Med-dark green	White	R: BCMV, CI, Psp, Xap IR: Pss	Glossy pods give a great appearance and quality for direct sales or shipping. Upright plants provide concentrated set in upper 2/3 of the bush.
6471C	JAGUAR	56	5½" - 6" round	Dark green	White	HR: BCMV, CI IR: Ua:90	A tall bush which is very erect. It produces long straight pods (3 - 4 sieve) that set high in the plant.
3874C	NEW LUNAR	56	5½" round	Dark green	White	HR: BCMV, CI IR: Ua	This SEEDWAY EXCLUSIVE has strong seed quality. Excellent plant habit for easier harvest. Does well in hot growing conditions. Uniform, dark green pods (3-4 sieve).
3891C	NEW SANFORD	56	5½" round	Dark green	White	HR: BCMV, CI IR: Ua	A larger bush for cooler planting windows. It produces dark green 4 sieve pods. Start your season with Sanford!
8785C	SYBARIS	56	5½" round	Dark green	White	HR: BCMV IR: Ua:90	Pod straightness and placement are excellent. Plants show good standability and pod placement is high on plants, promoting high quality pods.

PART OF THE
KWS FAMILY

The Magma Collection[®]

A suitable variety for
each growing slot.

The Magma Collection offers a complete range of varieties that yield in highly variable climates. The varieties PV857, Sanford and Lunar give you consistent, uniform dark green pods.

In the spotlight.

Homerun

- Excellent long quality pods
- Good performance in warm conditions
- Upright plant to harvest efficiently by hand

Jaguar

- High heat tolerance
- Erect plant
- High harvest flexibility

Goldstrike

- Straight pods
- Monocaliber
- True yellow

Navajo

- Fleshy and uniform pods
- Strong plant
- High heat tolerance

William Liggitt

wiggitt@popvriendseeds.com
@william_popvriendseeds

Lunar

Exclusively available via Seedway

Known for its strong rust resistance and great heat tolerance, so very suitable for main season growing.

PV857

Market leader in heat tolerance for years now and adaptable for all regions. No matter how much swing in temperature, PV857 can handle it all.

Sanford

Especially suitable for the early and colder parts of the season, as it produces vigorous strong and dark pods that grow high on the plant to increase its cold tolerance.

BEANS

YELLOW BUSH BEANS *Listed By Maturity - See Pricing On Page 5*

Code	Variety	Days	Pod/Size	Pod Color	Seed Color	Disease Reaction	Comments
9384C	CARSON	53	5 ½", round	Yellow	White	HR: BCMV, CI IR: BCTV, Pss	Early, easy setting; dependable producer. Sets and yields when others fail. Nice, straight pods with excellent uniformity. Plants are upright and open, allowing for easy, clean harvest.
7974C	SV1003GF	55	5 ½", round	Yellow	White	HR: BCMV IR: Pss	Produces straight, high quality pods for easy picking and packing. Concentrated set. Mature pods grade in 3 - 4 sieve ranges.
6581C	GOLDEN ROD	58	6", round	Yellow	White	HR: BCMV	Popular and standard variety for fresh market wax beans. Widely adapted, grows well in short day conditions. Large bush.

Cruiser seed treatment is used on bean seed to control a variety of soil insect pests: Wire worm, seed corn maggot, & white grubs. Cruiser insecticide is our standard seed treatment for bush beans. Shell, pole, limas, southern peas and runners will not have Cruiser treatment.

BEANS **HORTICULTURAL BEAN** *See Pricing On Page 6*

Code	Variety	Days	Pod Length & Shape	Pod Color	Seed Color	Comments
4335	TOPAZIO	67	6", oval	Red speckled	Red buff	Five days earlier than Supremo Plus. Vigorous plant with an erect bush. Bush and pods are slightly shorter vs. Supremo Plus. HR: BCMV
6237	SUPREMO PLUS	72	7", oval	Red speckled	Red buff, speckled	Beans are buff colored with bright red speckling. Supremo Plus is an improvement over Supremo. It has longer pods with better color and higher tolerance to bacterial blight. HR: BCMV

SUPREMO PLUS^

SOUTHERN PEAS **COWPEAS** *Listed By Maturity - See Pricing On Page 6*

6423NT	TOP PICK PINKEYE	60	Green/ Light Purple/ Red	White w/ Pinkeye	Fresh market, can, freeze	Very early, concentrated pods on top of plant.
9513NT	MISSISSIPPI PURPLE CROWDER	70	Purple	Brown Crowder	Fresh market, can, freeze	Extremely high yields. Resists Fusarium, Nematodes and many viruses.
9087	QUICKPICK	70	Purple	Pinkeye	Fresh market, canning	Compact bush produces 8" purple pods. Easy harvest by hand or machine. Excellent for drying or canning. Small to medium size peas.
6450NT	TOP PICK CREAM	70	Green-tan	Creamy white	Fresh market, can, freeze	Upright bush. Pods are produced in the top part of the plant; set is concentrated. Pods are pale silver-green in color when ready to pick at the green pea stage. Good virus & disease tolerance.
8414	CALIFORNIA BLACKEYE #5	75	Green-tan	Blackeye	Fresh market	Tall, bushy plants bear pods level with foliage. <i>A favorite with Southern growers!</i>

TOPAZIO^

BEANS **BUSH-LIMA** *See Pricing On Page 6*

Code	Variety	Days	Pod Size	Pod Color	Seed Color	Comments
6797	JACKSON WONDER	65	3", broad	Dark green	Speckled	Buff speckled baby lima with small purplish-black beans. Heat and drought tolerant.
6626	THOROGREEN	72	3½", flat	Light green	Green	Baby lima for processing or fresh sales. Has a larger seed and smaller plant than Bridgeton.
9264	BRIDGETON	74	3½", flat	Light green	Green	Baby lima for processing or fresh sales. Works well for mechanical harvest. Resists A & B strains of Downy Mildew.
8059	FORDHOOK 242	75	Broad, thick	Med-dark green	Greenish white	Dependable, productive, uniform, well-filled pods. Best large seeded bush lima for market. Requires warm soils.

THOROGREEN^

BEANS **RUNNER-SNAP** *See Pricing On Page 6*

Code	Variety	Days	Pod Size	Pod Color	Seed Color	Comments
9412	VOLUNTEER HALF RUNNER	60	4" - 4½"	Light green	White	Medium length runner, continuous set for 3 to 4 hand harvests. Intermediate resistance to BCMV & Ua.

BRIDGETON^

DAYS TO MATURITY: Information on relative maturity (expressed as "days") is based on our experience with the products listed and are given only as a general guide. Actual maturities may vary depending on geographic location, soil type, climate conditions or culture.

VARIETAL DESCRIPTIONS: Descriptions on varieties are prepared from information gathered from a number of sources and are provided only for comparison purposes. Actual performance may vary depending upon location, soil, climate conditions or culture.

For varieties sold by seed count, M = 1,000 seeds. To calculate price, multiply the number preceding the "@" sign by the price.

EXAMPLES: 10 M @ \$2.00 To find the price of 10,000 seeds multiply
 $10 \times \$2 = \20.00

20 lb. @ \$3.00 To find the price of 20 lb. of seeds multiply
 $20 \times \$3 = \60.00

Please note that our prices may change without notice to reflect changes in supplier pricing. RETURN POLICY - All seed is sold on a NO RETURN basis.

BEANS PEA & BEAN INOCULANT *Treats Up To 50 lbs*

Product Code	Variety	Price
878100	Using an inoculant results in better plant and root system growth for legumes. Legume plants produce their own nitrogen through a relationship with bacteria called Rhizobia which is in the inoculant as well as in the soil. But, the Rhizobia in the soil are not as active in cool, wet soils. Adding the inoculant gives your legumes a jump start. This is an all-natural product (but it is not organically certified).	9.75

BEETS

Listed By Maturity - See Pricing On Page 8

Code	Variety	Days	Interior Color	Top Height	Use	Comments
5039	BORO F1	51 <i>full size</i>	Dark red	12"	Fresh market, processing	Our favorite for baby beets since Boro is quick to size up with smooth, fancy skin and a small refined leaf attachment. Vigorous tops are clean and tender. Can be used whole for pickling beets. Great flavor. <i>IR: Cercospora Leaf Spot</i>
3974	MANOLO F1	51	Deep red	10"	Fresh market, processing	Manolo may be the perfect bunching variety for baby beets (up to 3"). It stays perfectly round with smooth skin and the tops are relatively short, and healthy for an excellent presentation.
4607	BRESKO F1	51	Deep red, no zoning	16"	Fresh market, processing	Smooth, round roots grow medium-fast and have vigorous, medium-large, clean leaves. Use for baby or medium size. Very healthy tops with strong Cercospora Leaf Spot resistance.
6790	BOHAN F1	52	Dark red	18"	Fresh market, processing	Bohan was selected to be easy to grow, even in very wet conditions. It is productive, with excellent internal quality and very vigorous tops.
8076	RED ACE F1	53	Deep red, no zoning	10"	Fresh market, processing	Early maturing; extremely smooth skin; high sugar content; heat resistant. <i>IR: Cercospora Leaf Spot</i>
6301	RED CLOUD F1	53	Deep red, no zoning	14"	Fresh market, processing	Red Cloud is not only productive, but is also the sweetest beet that we know. Roots are smooth with a perfect, round shape that doesn't taper at base.
4169	GRENADE F1	60	Red	12"	Fresh market, processing	Grenade is used where Rhizomania is a problem. It has the nicest shape and quality of Rhizomania resistant varieties. This is a new disease in north America, and quite common in Europe.
8073	PABLO F1	60	Dark red	10"	Processing	Pablo is favored by customers, including processors, who want a baby beet that is perfectly round, deep red, and holds its shape without oversizing.
6972	MONETA F1	60	Deep red, no zoning	14"	Fresh market	Mono-germ beet for precision seeding. Good bolting tolerance.
7927	FALCON F1	60	Deep red	16 - 18"	Fresh market	Falcon is a high quality beet with better than usual ability to handle heat. It has medium-tall tops.
8314	AVALANCHE	45	White	12"	Fresh market, specialty	Bulbs are round and show off snow white flesh with excellent sweet flavor. Tops are healthy with good disease resistance. <i>IR: Cercospora Leaf Spot</i>
4201	ANELLO Chioggia	53	Light red outside, cranberry and white bullseye striping inside	14"	Fresh market	Earlier and more uniform than other Chioggia style, candy-stripe beets, Anello is also quite sweet and flashy.
8896	GUARDSMARK Chioggia	60	Purple & white zones	10"	Fresh market, specialty	Appealing to fresh market and specialty growers! Novel interior color is zoned white with vivid purple. Sweet flavor! Short tops.
7455	TOUCHSTONE GOLD	60	Bright gold	12"	Fresh market, specialty	Touchstone is the most refined golden beet, with smooth skin and a solid, non-fibrous interior. Light green, semi-savoy leaves contrast well with golden roots.
3733	NEW GOLDEN BOY	60	Deep gold	12"	Fresh market, bunching	With very clean tops, refined shape, and uniform size, Golden Boy is an excellent specialty beet.

ASTEROID^

JET DOME^

EASTERN CROWN^

ABRAMS^

EMERALD CROWN^

EASTERN MAGIC^

Code	Variety	Days	Head Traits	Color	Market Season	Comments
3901	JET DOME	54	Semi-dome	Dark green	Spring, summer, fall	Extra early maturing. Upright plant with dark green, fine-dome shaped, smooth head. Tolerant strongly to heat. Suitable for spring, summer and autumn production, especially for summer harvesting. Holds well for extra-early maturity class.
7892	ASTEROID	59	Medium dome, small beads	Deep green	Spring, fall	With excellent uniformity, and good heat tolerance, Asteroid is widely adapted for both spring and summer seeding. It is an excellent choice for bunching.
7681	EASTERN CROWN	59	Medium-high, smooth dome	Blue green	Widely adapted	This heat tolerant, early maturing variety holds in the field extremely well and will keep its nice dark green color in hot weather. Eastern Crown is the best choice for those wanting to combine heat tolerance with wide adaptability.
4532	ABRAMS	60	Medium dome, smooth	Green	Cool to warm	While most new broccoli varieties have their heads deep in the plant, Abrams' head sits above a tall and vigorous plant. Couple that with excellent uniformity and your harvest crew will cut Abrams faster and easier than most other varieties. It is a very good choice for bunching and can also be used for crown cut. It has moderate heat tolerance and is one of the best varieties to plant early in a cool to warm slot.
5232	EMERALD CROWN	61	High smooth dome, med-small beads	Blue green	Widely adapted	Produces a uniform, solid and heavy head for crown cut. Heads resist purpling in cooler weather. Emerald Crown handles warmer weather well, allowing for later spring harvest and summer seeding for late summer harvest. Handles weather extremes.
6330	GREEN MAGIC	62	Domed, mostly smooth, med-fine beads	Green	Spring, fall	Widely adapted and dependable, fancy quality heads. Sturdy and heavy. Good uniformity and holding ability.
7772	EASTERN MAGIC	68	High dome, medium-small beads	Blue green		Featuring very good heat tolerance and excellent field holding, Eastern Magic makes dark green, very high and dense dome heads.
8237	IMPERIAL	71	Medium dome, small beads	Dark green	Spring, summer, fall	Imperial produces large fancy quality in warm weather and is good for spring, summer and early fall crops (and winter in the South). If you think your conditions are too warm to grow broccoli, give Imperial a try. Best for crown cut. Imperial maturity may be affected by heat/day-length.

MILLENNIUM^

EMERALD STAR^

FORTRESS^

BURGUNDY^

JACARANDA^

BR-752^

Code	Variety	Days	Head Traits	Color	Market Season	Comments
7923	MILLENNIUM	74	High dome, small tight beads	Deep green	Spring, fall	Millennium resembles Emerald Crown but is later maturing with a heavier head. It holds longer in the field than other varieties. Anyone who grows broccoli should give Millennium a try both spring and fall harvest slots.
7809	EMERALD STAR	75	Tight dome, fine beads	Blue green	Warm, Hot to cool	Maturing a few days after Imperial, Emerald Star brings a new level of heat to a later maturing slot. Field holding is excellent. The plant is vigorous and tall. It is used mostly for crown cut. Heads are dense and heavy.
5114	AVENGER	80	Smooth dome, fine beads	Blue green	Fall, late fall	Avenger is for mid to late fall harvest in cool to cold weather. Heads are large with a dense, high, smooth dome. Avenger matures mid-season in early fall plantings, and very late in mid to late fall plantings.
3799	NEW FORTRESS	83	Medium head. smooth dome	Green	Fall, late fall	Fortress is a new variety noted for its plant health and vigor. Head is held high in the plant and has resistance to Alternaria.
4424NT	JACARANDA	57	Smooth, shallow dome	Deep purple/blue green	Late Spring, Fall	Perfect for the specialty market, Jacaranda makes a unique, purple head with early maturity. Easy to grow, although we recommend avoiding the first crops in early spring.
4471NT	BURGUNDY	58	Florets with fine beads	Burgundy/purple	Widely adapted	This striking purple shoot-type broccoli is easy to grow, and can be planted in most slots. Snap out, and sell, the first shoots from the center of the plant and it will quickly send up side shoots. The shoot stems and florettes are sweet and tender. Color is best when raw or quickly steamed.
4470	MONTEBELLO	62	Separate florets	Green	Widely adapted	For those wanting to grow separate shoots of broccoli, Montebello is the most reliable variety we have seen. Break out the initial head (which is salable) and you will get many shoots growing right back. Long, green stems have tight cluster of beads to make a small floret. Very sweet.
4049	BR-752	70	Separate thin stems tight buds	Green	Widely adapted	BR-752 is a new "sweet stem" or stick broccoli. It is grown like regular broccoli, but separate stems are harvested to be packaged as a bunch. BR-752 is slightly earlier, and sometimes with a tighter head than the standard sweet stem varieties. It is good in spring but better going from warm to cool. Each plant will have around 10-15 side shoots and should be harvested when the head is about 1 inch (2-3 cm) diameter. If it is bigger than 1 inch, the buds will start flowering (so harvest promptly). Growers should experiment with pinching out the center shoot.

BROCCOLI

RAAB / RAPINI *See Pricing Below*

Code	Variety	Comments
5366NT	SPRING RAPINI	52 days. Nice balance between vigor and slow bolting, this classic is an all around nice broccoli raab.
4087NT	RAPINI GRANDE	From the Puglia region of Italy comes a special strain of rapini known as Lecce (from the town Lecce) that has extra large heads in addition to voluminous glossy green leaves. We offer this seed from Italy and call it "Rapini Grande" for fall crops, when the maturity will be around 90 days from seed. (Early Rapini is better for spring.) For those unfamiliar with Rapini, or broccoli raab, it is really grown for the leaf, not the head, and is sold bunched before the flower buds open on the heads, cut with as many leaves as possible.

BRUSSELS SPROUTS

Listed By Maturity - See Pricing Below

Code	Variety	Days	Plant	Comments
7799	MARTE	103	Tall	If you want to grow Brussels sprouts without coddling them, give Marte a try. Marte is widely adapted and the plant is extra vigorous. Both Dagan and Marte can work in areas that are warmer (and further south) than traditional Sprout production areas. HR: Foc
4052 NEW	SILVIA	103	Tall	Silvia has a tall, vigorous plant with nice round, tight sprouts. HR: For / IR: Xcc
7603	GUSTUS	105	Medium-tall	Dark green, round sprouts have an even size. Vigorous plant with straight stem.
9194	DIVINO	105	Tall	Tall, upright plants yield lots of excellent quality, solid, dark green sprouts. The stem is perfectly straight for selling whole or to cut the sprouts from the stalk. Excellent field holding ability and good storage ability. The leaves shed at maturity leaving a nice, clean stalk. In most areas, Divino will mature for Thanksgiving.
4178	ATTIS	107	Tall	Fancy, early, main season variety features very good yields of solid, even sized, dark green, round sprouts. Easy to pick sprouts from the stalk. IR: Xcc
4118	SCORPIUS	112	Medium-tall	Scorpius is a high-yielding Brussels sprout that is very round, even-sized, firm and very clean. Sprouts are easy to snap off the stalk, and the leaves shed well. The leaf petiole stems are short with medium-small round leaves.

CABBAGE

GREEN FRESH MARKET HYBRIDS

Listed By Days From Transplant - See Pricing On Page 19

Code	Variety	Days	Head Type	Head Size/Weight	Plant Size/Color	Disease/Abiotic Reaction	Comments
8399	FARAO	63	Round	2 - 3 lbs.	Dark green	AB: TB	This very early variety makes dense, sturdy heads that hold up well in the field. Very good uniformity of head size and maturity. Can be crowded.
5602	CARAFLEX pointed head	68	Pointed head	1½ - 3 lbs., 10" - 13"	Medium frame, dark green		Caraflex, if crowded to an 8" row spacing, will make a smaller, slender head that resembles romaine lettuce. It increases in girth with wider spacing. This type has excellent flavor and is a traditional first green of spring in many parts of Europe. It stores for up to 10 weeks.
9386	ARTOST	68	Round, short core	3 - 6 lbs., 14 - 20 count, 7"	Medium frame, medium green	HR: Foc AB: TB	Uniform with excellent density and holding ability. Good yields; cut early for a boxed cabbage or later for slaw. Adapted to most growing regions of the US and Canada.
4473	CONQUEROR	70	Round, short core	4 - 8 lbs., 7" - 10"	Medium-large, deep green	HR: Foc	If your customers want a large, early, round cabbage with very good flavor, look no further than Conqueror. It has a beautiful dark green appearance. Size will vary with spacing. It is slow to burst, especially for an early cabbage. For a smaller head, it can be crowded down to 8" spacing with no loss of uniformity.
8989	BRONCO	80	Round, short core	3 - 6 lbs., 12 - 20 count, 6" - 7"	Medium frame, blue-green	HR: Foc AB: TB, TT	Very fancy heads are protected by waxy leaves. Bronco sets the standard for excellent yields and shipping quality. Bronco is your best choice if you need heads to stay small enough for boxing. The heads can get very dense without oversizing.
4210	BELLILOSE	81	Round	5 - 8 lbs., 7" - 9"	Large, dark green	HR: Foc IR: Xcc	Main season variety with dual purpose for fresh market boxing and slaw. A very upright variety with a vigorous growth habit and dense interior structure. High yields, excellent uniformity, and a strong root system. Try Bellicose in the Carolinas and north where its strong root system will help it stand up to the worst weather.
5336	BOTRAN	81	Round	3 - 8 lbs., 12 - 20 count, 6" - 8"	Medium-large, dark green	HR: Foc IR: Xcc	This fancy, dense cabbage has a unique appearance with a serrated edge to the leaves, but you will like it for its black rot resistance. Size can be controlled with spacing although it should not be crowded. It will continue to gain size after it is mature (rather than splitting). From Northern Florida north, Botran has looked good in most slots where black rot resistance is needed.
8920	BRUNO	81	Round	2½ - 4½ lbs., 16 - 22 count, 5" - 6"	Medium-large frame, dark green	HR: Foc	Bruno features a tight wrap and good head density. It is the best bet if you want a smaller head for boxing and need good Black Rot resistance.
9681	GUNMA	83	Flat	4 - 8 lbs., 6" x 12"	Large frame, green	AB: TT	Large diameter. Exaggerated, flat heads produce thin, crisp leaves with a mild flavor. Great for stuffing and salads! This type of cabbage is preferred by some Asian markets and is fabulous for making whole sour-head fermented cabbage. It is crisp-tender.
6866	RAMADA	83	Round, short core	4 - 6 lbs., 12 - 18 count, 7"	Medium-large frame, blue-green	HR: Foc AB: TB	Ramada is well-wrapped, dark, classy, and uniform. The dense heads stand upright on strong stems. It is widely adapted, used for fresh market boxing, and will store short term. Does very well in heat, including the Southeast.
4155	PALAMUT	84	Flat	6 - 10 lbs., 8" x 12"	Very large, medium green		Compared to Gunma, Palamut, as a flat cabbage, is not quite as big but is denser. The leaves are thicker than Gunma, but of nice uniform thickness. Outer leaves are a little waxier, so stays cleaner and holds well. Palamut will be an excellent choice for sour, whole-head, cabbage.
5206	CAPTURE	85	Round to slightly flat	3 - 8 lbs., 14 - 20 count, 6" - 8"	Medium-large, green	HR: Foc IR: Xcc	An excellent choice if you need flavorful, fancy heads and very good Black Rot resistance. When grown at high density, Capture makes attractive, dense heads for fresh market boxing. Widely adapted.

GREEN STORAGE HYBRIDS

Listed By Days From Transplant - See Pricing On Page 19

Code	Variety	Days	Storage Rating	Head Type/Size	Plant Size/Wrap	Plant Color	Disease/Abiotic Reaction	Comments
6971	REACTION	100	Long term	Round to oval, small to medium	Medium frame, good wrap	Gray-green	HR: Foc	Developed for high density planting to produce uniform, small, dense heads. Medium head size at traditional spacing.
4602	ZACAPA	106	Very long term	Round, medium-large	Medium, erect	Dark green	HR: Foc AB: TT	Storage cabbage with very good resistance to Head Rot. Very clean. Strong resistance to thrips. Very long storage. Comes out of storage in late spring looking fresh and green.
5458	EXPECT <i>also used for fresh market</i>	108	Very long term	Round, large	Medium, good wrap	Gray-green	HR: Foc AB: TT	Beautiful, fresh green color out of storage coupled with dense, perfectly round heads and heat tolerance have quickly made Expect a favorite variety. Very uniform, productive and easy to trim.
5288	SIRCON	110	Long term	Round, medium-large	Medium-tall, leafy	Gray-green	HR: Foc AB: TT	Medium-large heads have good recovery after storage and are easy to trim. Clean and nicely wrapped with a good frame.
4154	AXEL	114	Short term	Round	Medium-tall	Medium green	HR: Foc AB: TT	This short term storage variety is nice and round and stays quite clean in the field, due, in part, to moderate Xcc resistance. It is a good fresh color coming out of storage but care should be taken not to bruise it during harvest. Axel is easy to cut and has a short core.
8245	AMTRAK	115	Very long term	Round, large	Medium-tall, leafy	Medium to dark green	HR: Foc IR: BLS AB: TB, TT	Large, very clean out of storage. High recovery, short core, easy trim. A favorite in areas where storage cabbage is traditionally produced.

PROCESSING KRAUT/SLAW *Listed By Days From Transplant - See Pricing On Page 19*

Code	Variety	Days	Holding Ability	Dry Matter	Head Size/Density	Disease/Abiotic Reaction	Comments
7129	PADOC	70	Good	Low-medium	Large, very dense	HR: Foc	Padoc is vigorous and uniform, producing large round heads with short cores and a white interior. Widely adapted for early kraut and slaw. Padoc is a very good choice if your cabbage needs to grow through some hot days. It has strong seed vigor for direct seeding.
9933	EXCALIBUR	78	Good	Medium	Large	HR: Foc IR: Xcc	Early processing cabbage with good uniformity, a large frame and good Black Rot resistance. Excalibur holds well in the field without splitting or purpling. Mild and sweet flavor.
8169	CECILE	80	Excellent	High	Large, extremely dense	HR: Foc AB: TB	Round, high dry matter, very short core. Attractive blue/green, vigorous, widely adapted. Reliable, high yields for kraut or slaw.
7726	NIXON	83	Excellent	Medium	Very large, very dense	HR: YR IR: TB	Nixon quickly became one of our top-selling kraut cabbage varieties due to great vigor, extra-large heads and clean plant. Does well in warm (or cool) weather. Strong seed vigor makes Nixon suited for direct seeding.
9931	PASSAT	85	Very good	High	Medium-large, dense, short core	HR: Foc AB: TB, TT	A healthy, clean and upright plant produces dense heads that are suitable for processing or fresh market. The flavor and internal quality are very good. Passat handles heat well and is widely adaptable. Good for mechanical harvest since it has a longer strong stem. It has the highest amount of vitamin C content of our processing cabbage. This helps keep the kraut white.
8218	MEGATON	85	Excellent	Medium	Very large, very dense	HR: Foc AB: TB	Short cored, vigorous growing, capable of holding over extended periods. Widely adapted and aptly named because of the large heavy heads.

RED FRESH MARKET

Listed By Days From Transplant - See Pricing On Page 20

Code	Variety	Days	Head Type	Head Size/Count	Plant Type	Disease/Abiotic Reaction	Comments
8100	OMERO	71	Round, compact	2 - 3 lbs., 18 - 24 count	Small-medium frame	IR: BLS AB: TB	Omero is a nice variety in what is becoming a preferred smaller size. For an early variety, Omero holds incredibly well in the field.
5373	ALFARO	74	Round	3½ - 6 lbs., 16 - 22 count	Medium frame	HR: Foc AB: TB	This mid-early red cabbage has a medium to large sized, deep red, dense head. Wrap leaves are easy to trim off.
8097	AZURRO	78	Round, slightly flat	3 - 4 lbs., 14 - 22 count	Medium frame	IR: BLS AB: TB, TT	Uniform, reliable and vigorous grower with good wrap. Ideal for boxing.
9320	CAIRO	85	Round, dense	3 - 6 lbs., 12 - 20 count	Medium frame good wrap	HR: Foc IR: BLS AB: TB	Uniform, dense red for summer and fall production. This is the darkest and roundest fresh market red cabbage available. Great yields and good for short term storage. Very uniform in head size and maturity.

CABBAGE **SAVOY HYBRIDS** *Listed By Days From Transplant - See Pricing On Page 20*

Code	Variety	Days	Color/Savoy	Head Shape	Head Size	Disease Reaction	Comments
9183	ALCOSA	62	Dark green, medium savoy	Round	Small to medium	HR: Foc AB: TB	Earliest and widely adapted with compact, dense heads. For spring and early summer production.
6524	CLARISSA	78	Deep green, medium fine savoy	Round	Medium	AB: TB	Early, compact, and dense internal structure. Short core, finely savoyed leaf, ideal for close spacing. Outstanding uniformity contributes to excellent yield.
8084	MELISSA	80	Dark green, medium fine savoy	Round	Medium	HR: Foc	Melissa is an easy-to-grow, widely adapted, reliable, and uniform variety with a medium-fine savoy. It tolerates crowding for a 3-4 lb. head. Melissa and Clarissa can both be grown spring and fall.
8096	WIROSA	110	Dark grey/ green, fine full savoy	Round	Medium	AB: TB	Frost tolerant, solid heads are popular for late fall harvest. Ideal for fresh market and storage.

CLARISSA^

WIROSA^

CABBAGE **CHINESE CABBAGE HYBRIDS** *Listed By Days From Transplant - See Pricing On Page 20*

Code	Variety	Days	Head Size	Disease Reaction	Comments
5154	EMIKO	55	13" x 6"	HR: BLS, Pb, Foc AB: TB	Dark green wrappers showcase high quality, tall oval heads, 3 - 6 lbs. Good for spring and fall production. Resists headrot caused by soft rot bacteria. Uniform size and maturity, and relatively slow bolting. Resistant to Club Root, Pepper Spot and tipburn.
6046	PACIFIKO	56	13" x 7"	HR: BLS, Pb, Foc AB: TB	Pacifiko shares Emiko's uniformity, disease and rot resistance while adding an appetizing buttery yellow center.
4190	HAKU	56	13" x 6"	IR: Pp AB: TT	Haku is a widely grown and reliable early napa cabbage. It is well adapted to heat and humidity and resistant to bolting, tip burn, and Downy Mildew. Planted close at 8" it will make nice mini-heads.
4288NT	ALLRED	60	11" x 4"		This stunning and tasty magenta colored Napa cabbage is easy to grow and cold tolerant but for late summer and fall crops only. It should not be timed to head in heat. With basically no green leaves, it is slow growing. While it stays purplish when cooked, the best use is raw in salads or as a wrap. Storage is excellent even if chopped.
5301	CHUN YEON GOLD	64	12" x 7-8"		This napa cabbage has a brilliant gold interior favored by Korean consumers. It is slow bolting so can be used in spring and has resistance to Downy Mildew and Soft Rot. It is extra good for kimchi.

OTHER Days to maturity from transplant and add 28 days for direct seed. See pricing below.

Code	Variety	Comments
5938NT	MIZUNA	45 days. Vigorous growth of green serrated leaves. Flavor is mild when young; mustard flavor develops as leaves mature. This Japanese mustard looks like a rosette of dandelion and is primarily used in salad mixes.
7898	MIZ AMERICA PURPLE MIZUNA	47 days. Beautiful, nearly solid purple-wine color with frilly leaves. Slow bolting. This is a hybrid but priced so that it can be used as baby leaf. It has a delicious zingy mustard flavor and is excellent to spice up a salad.
7673	LI REN CHOI Pak Choi	41 days. This green stem Pak Choi is smaller, earlier and even more uniform than Mei Qing Choi. Bolt resistance is good.
6390	MEI QING CHOI Baby Pak Choi	43 days. Popular miniature, green stem Pak Choi. Vigorous growth with uniform maturity. Good tolerance to both heat and cold, and very bolt resistant.
4192	RAICHU PAK CHOI Baby Pak Choi	This baby green stem pak choi has a beautiful, erect, vase-like shape. It is slow bolting and can be grown in spring.
4187NT	RAIFIKI KAILAAN Baby Pak Choi	This hybrid Kailaan is grown like broccoli, spaced 6-8" in the row. The plant is tall. Cut off shoots with the leaves right before the white flowers are open. Stems are very sweet when raw. It will continue to send up shoots as long as it isn't allowed to set seed.
4189NT	MIAO 714 Baby Shanghai Pak Choi	38 days. The tiniest pak choi also has beautiful, glossy, dark green, crinkled leaves. Slow bolting and widely adapted with light green stems.
3792	NEW COMPAK Pak Choi	50 days to full-size head. This large white-stem pak choi is very erect for easy packing into boxes. It is very attractive and uniform.
8291	JOI CHOI Pak Choi	50 days to full-size head. Classic white stem Pak Choi. Upright plant habit with wide white petioles and dark green leaves. Uniform, slow bolting and cold tolerant.

NOVELTY TYPES Listed By Maturity - See Pricing On Page 27

Code	Variety	Days	Root Length	Shape	Interior	Harvest Period	Use	Comments
7424	MELLO YELLO F1	65	8"	Cylindrical	Bright yellow	Early/Main	Specialty, fresh market	Cylindrical, blunt-tipped roots are very smooth and easy to grow. Bright yellow color throughout.
3919	REDSUN F1	70	7"	Cylindrical	Red	Main	Specialty, fresh market	Red nantes carrot; 7-8 inch root, 70-75 day maturity; best planted in summer to avoid bolting. Very uniform red nantes. IR: Ps, Pv
6776	RAINBOW F1	70	8"	Slight taper	Mix: White, Yellow, Orange, Coral	Main	Bunching, fresh market	Rainbow is a single variety hybrid that will mature more uniformly unlike other colored "mixes". You can use this as a stand alone mix or add in some Deep Purple for extra color.
8139	YELLOWSTONE OP	70	8"	Tapered	Light yellow	Main/Late	Specialty, juicing, slicing	Smooth, creamy yellow roots for retail specialty market or dicing for frozen product.
6892	WHITE SATIN F1	70	10"	Slight taper	White	Main/Late	Specialty, fresh market	Large, pure white carrot with crisp, pleasing flavor that is quite sweet. Strong tops and great storability. Can also be used for juicing.
7423	DEEP PURPLE F1	73	7" - 8"	Tapered	Dark purple	Main/Late	Specialty, juicing	Great for specialty fresh market or early bunching. Strong tops. Deep purple throughout. Great for juicing.
6401	PURPLE HAZE F1	75	8"	Tapered	Bright orange	Main	Specialty, fresh market	Deep purple exterior, bright orange interior. Attractive and flavorful. Plant late to avoid bolting. AAS winner.
6125	PURPLE SUN F1	80	8" - 9"	Tapered	Deep purple	Main/Late	Specialty, fresh market, juicing	Deep purple color throughout. Easy growing with uniform, smooth roots. Outstanding purple color. High in anthocyanin. Good bolting tolerance but is one of the latest maturing colored carrots we offer.

*ROOT LENGTH AND DIAMETER CAN VARY DEPENDING ON DENSITY. LENGTH DESCRIBED ARE BASED ON AVERAGE POPULATIONS.

CARROTS **FRESH MARKET** *Listed By Maturity - See Pricing On Page 27*

Code	Variety	Days	Root Length	Shape	Interior	Harvest Period	Use	Comments
8136	MOKUM F1	40-55	6"	Slender, slight taper	Orange	Early/Main	Finger carrot	Very highly colored. Almost coreless. Sweet, early, and color develops rapidly. <i>Among the best for sweet flavor!</i>
4307	ARANKA F1	55	6 - 7"	Slender, slight taper	Dark orange	Early/Main	Bunching, finger carrot	Similar to Mokum, with improved uniformity and slightly longer roots. Tops have good cold tolerance. Good field holding ability. Excellent choice for late season production.
7628	ADANA F1	55-60	6"	Slender, slight taper	Dark orange	Early/Main	Bunching, finger carrot	Finger bunching nantes, 6 inch root; Mokum style carrot with taller tops making it more adapted for bunching. Slightly later than Aranka and Mokum. Maintains shape after mature. 40-45 day baby.
8138	NAPOLI F1	55-70	7 - 8"	Slightly tapered	Bright orange	Early/Main/Late	Bunching, fresh market	Full-sized Nantes with strong, dark green tops. Best yield for early bunching! Very flexible variety, plant in tight spacing or light planting, great fall carrot, and can also be used for storage.
4140 NEW	NARVIK F1	55-70	8"	Slightly tapered	Orange	Main/Late	Bunching, fresh market	Can be compared to Nelson or Napoli. Strong top, smooth long root, excellent flavor/texture, and medium storage capability. Works well in spring, summer, and fall.

CARROTS **FRESH MARKET/SLICING/CELLO/JUMBO** *Listed By Maturity - See Pricing On Page 27*

Code	Variety	Days	Root Length	Shape	Interior	Harvest Period	Use	Comments
7539 NEW	NAVEDO F1	65-115	8" - 10"	Cylindrical	Orange	Early/Main	Fresh market, cello/jumbo, slicer	New variety showing good results as a slicer. Also good for fresh market bunching, 8-10 inch length root. Harvest early for fresh market or late for processing.
7536 NEW	JUNCTION F1	65-120	9" - 11"	Slight taper	Orange	Main/Late	Cello, slicer	Very smooth imperator style root, great length, great flavor, and uniformity. Great for fresh cello packs or for slicing.
5256	NAVAL F1	65-120	8" - 10"	Cylindrical, blunt	Dark orange	Main/Late	Cello, slicing, fresh market	Continental nantes/wide adaptability. Main season good fall harvest and long-term storage, very smooth, and strong tops. For fresh market it has a very good flavor out of field and out of storage. For processing it provides excellent recovery.
4464 NEW	JEFFERSON F1	65-120	9" - 11"	Cylindrical, blunt tip	Orange	Main/Late	Cello, jumbo, slicer	Great for cello-jumbo that shows great uniformity and bulk up down to the tip. Works in muck and mineral soils.
7865	ISTANBUL F1	75-120	10"	Slight taper	Dark orange	Main/Late	Cello, slicer	Very uniform. Long and slightly tapered roots. Strong and erect tops. Very good early yields. Very high quality interior. Deep orange with indistinguishable core. Good field holding, no green shoulder.

Exploring nature never stops

BEJO & SEEDWAY - LEADING THE WAY WITH IMPROVED VARIETIES

Offering a wide range of varieties in all carrot types, suitable for both the fresh market and the processing industry. Resistance to disease, foliage quality, production, uniformity, shape, color, smoothness and shelf life are all examples of properties used by our breeders during the stringent selection process.

Specialty hybrids, Nantes, Fresh Market and Processing! All available through our partner

CARROTS

PROCESSING DICER/SLICER *Listed By Maturity - See Pricing On Page 27*

Code	Variety	Days	Root Length	Shape	Interior	Harvest Period	Use	Comments
4466 NEW	BALDIO F1	80-100	8" - 10"	Cylindrical, rounded tip	Orange	Main	Dicer	Very clean shoulders, improved bolting tolerance, recommended at lower population.
5600	BERLIN F1	85-110	10"	Cylindrical, rounded tip	Dark orange	Main	Jumbo, cello	Clean bulky roots. Tops are among the healthiest we offer in this category
8918	CARSON F1	110	7 ½"	Broad, rounded tip	Orange	Main	Dicer	Early Chantenay. Long, conical roots. Broad shoulder, blunt tip, and strong/tall tops.
9304	CUPAR F1	120	7" - 8"	Wedge shape, rounded tip	Deep orange	Main/Late	Dicer	Chantenay. Broad shoulder, blunt tip, and excellent color. Good storage. Highly adaptable to different planting conditions.
8787	CANBERRA F1	125	8"	Wedge shape, blunt tip	Deep orange	Main/Late	Dicer	Chantenay. Excellent color and root length. High tonnage potential. Very vigorous tops.

For varieties sold by seed count, M = 1,000 seeds. To calculate price, multiply the number preceding the "@" sign by the price.

EXAMPLES:

To find the price of 10,000 seeds multiply
 To find the price of 20 lb. of seeds multiply

10 x \$2 = \$20.00
 20 x \$3 = \$60.00

CAULIFLOWER

HYBRIDS *Listed By Maturity - See Pricing On Page 32*

Code	Variety	Days	Head Description	Plant	Self Wrapping	Comments
8534	MINUTEMAN	53	6" - 7", Domed	Medium, vigorous	No	An early variety with good head density and weight. Good early performance and widely adapted for all but the hottest seasons.
3724 NT	NEW TRI-C5063	62	5" - 6", Small, Uniform, Round	Small	Partial	This variety is unique in many ways. First is its reliability and uniformity throughout the growing year, due, in part, to very good heat resistance. The other unique feature is a small head size- perfect for roasting whole, small families and farmer market sales. It is very early maturing, and, while the plant is somewhat small, the head stays nice and white. Head size is 5 to 6 " across, and nearly round, although it may get larger in fall crops. The more compact plant allows for a higher plant population.
7643	FUJIYAMA	64	6" - 8", Domed	Med-large	Partial	Get a jump on summer cauliflower with this tropical type. Fujiyama needs heat to make a big plant, but in heat it will make a medium-sized, sweet tasting head. Maturity is outstandingly uniform. When slotted right, the plant gets nice and big, but should be tied for a truly white head. In South Central PA, we do not seed earlier than the 1st week in June for crops beginning mid-August.
5381	CLARIFY	66	7" - 8", Medium dome	Very large	Very Good	Early main-season variety that is heat tolerant and has the biggest plant in its maturity. It is one of the few varieties with Club Root resistance, but, even if that isn't a problem, Clarify is well worth trying.
5077	FREEDOM	67	6" - 7", Domed, dense	Medium	Partial	Spring-fall, vigorous, self blanching, high quality. Heat tolerant.
7599	AQUARIUS	69	6" - 8", Domed, dense	Large, vigorous	Good, excellent inner wrap	Aquarius offers a large leafy erect plant and very good uniformity. It is widely adapted, does well in warm weather, and can get large heads.

HYBRIDS *Listed By Maturity - See Pricing On Page 32*

Code	Variety	Days	Head Description	Plant	Self Wrapping	Comments
5335	ALCALA	69	5" - 7", High domed	Large	Excellent	Alcala has a tight and complete wrap when harvested at a smaller (12 count) size. Heads can get larger but will need to be tied. Heads are high, round, and dense. Good heat tolerance and widely adapted.
6690	FLAMENCO	71	7" - 9", Domed, dense	Med-large, erect, vigorous	Very Good	Dependable variety for fall production with an excellent wrap and fancy dense heads. Widely adapted, including the Southeast in winter. The outer frame leaves are long and erect for added shading from the sun.
4262	TWISTER	73	Medium-large, heavy headed	Large, leafy	Excellent	Twister is widely adapted both regionally and in planting date, working from spring through late fall and in winter in the South. Twister has a good heat tolerance coupled with a big vigorous plant and distinctive twisted leaves. The wrap is so good and large that you will likely not have to band it.
5391	TOLEDO	75	7", High dome	Extra large	Excellent	Toledo is a fantastic variety for maturing in cool weather. With a very large plant and complete inner wrap, Toledo has a pure white, heavy head and excellent uniformity in its maturity.
6367	ABSOLUTE	75	6" - 8", Domed, dense	Med-large, erect, vigorous	Very Good	Absolute features excellent uniformity and bright white color, even if the wrap pulls away from the head. In cooler areas, Absolute can be used in spring.
8340	AMAZING	75	7" - 8", Deep domed, dense	Large	Very Good	Vigorous plant. Wide wrappers provide good protection. Amazing is good if you don't want everything to mature at one time. It is best for harvesting during cool weather and not for spring.

CAULIFLOWER

ROMANESCO *See Pricing On Page 32*

Code	Variety	Days	Comments
4110	ORBIT	75	Early Romanesco type is attractive lime green and medium-domed. Produces uniform 1 lb. heads on average with dense curds, no leaves in the head, and an exceptional wrap from a large erect plant.
9244	VERONICA	77	7" - 8". Spiraled heads are uniform in size and maturity. Veronica has good heat tolerance and can be planted to mature in late summer through late fall. Romanesco has a very dense head with a mild and nutty flavor. It is grown like cauliflower.

VERONICA^

CAULIFLOWER

COLORED

Listed By Maturity - See Pricing On Page 32

Code	Variety	Days	Head Description	Plant	Comments
4348	CLEMENTINE	66	Medium, intense glowing orange	Medium	Clementine brings a whole new level of eye - popping color to your cauliflower mix. We do not yet know spring seeding performance, but for fall crops, Clementine will be about 4-5 days earlier than Flamestar. Compared to Flamestar, uniformity and field holding ability are similar (and excellent) but Clementine will weigh slightly less. We think both belong in your mix!
6368	CHEDDAR	67	6" - 7", Domed, orange	Small-medium	Appealing orange curd. Tastes great raw or cooked! Recommended for fall or early spring. Not heat tolerant but otherwise very easy to grow.
7899	DePURPLE	67	6" - 7", Medium dome, violet purple	Large	This stunning replacement for Graffiti produces larger, heavier heads at an earlier maturity. The floret stems are white and attractive when cut. It tastes good raw and holds its color when cooked. It shows sufficient heat tolerance to be used in a spring seeding. The plant is large and strong.
7642	FLAMESTAR	70	7" - 9", High dome, creamy orange	Med-large	This easy to grow, golden orange cauliflower makes a large, heavy head that is nearly problem free with great uniformity. Compared to Cheddar, the color may be lighter, but the weight and size is better.
4179	VITAVERDE	72	Big, heavy green heads	Large	This high quality green cauliflower is not only early but adapted to most seasons including spring. The plant habit is upright and vigorous. In addition, the curd is heavy with excellent color.

CELERY & CELERIAC

Listed By Maturity - See Pricing At Right

Code	Variety	Days	Comments
6122ZNT	MERENGO CELERY	80	Extra early hybrid that produces dark green stalks, tolerant to wet conditions, and has a very large plant. Good Fusarium Yellows tolerance and is a great choice for organic and conventional growers.
8013ZNT	TANGO CELERY	90	Very heavy yield with extremely smooth stalks. Some field tolerance to Fusarium. Excellent eating quality, tender and sweet. Widely adapted OP variety with great flavor.
7724ZNT	BALADA CELERY	100	Dark green celery stalks with intermediate resistance to Fusarium. Tall, heavy, and upright plants with good field holding. Can be used for processing and fresh market.
8334ZNT	TZ 6200 CELERY	100	A medium-green celery stalk variety, ideal for mid-season to late season planting and has good Fusarium tolerance. TZ6200 has shown to have less stringiness than other varieties and great crunchy texture.
6272Z	ROWENA CELERIAC	106	Hybrid celeriac with great flavor and texture. Very productive. Stores well. Great for winter!
8346Z	BRILLIANT CELERIAC	110	Early, high yielding variety with smooth roots and a beautiful interior. Stores well. Rich flavor.

Definitions Describing The Reaction Of Plants To Pests, Pathogens, And Abiotic Stresses (as defined by the International Seed Foundation)

The following definitions are meant to clarify the level or degree to which plants are able to respond to or protect themselves against insect, bacterial, fungal, viral, or other pests in the environment:

Immunity: Not subject to attack or infection by a specified pest or pathogen. *No claims of true immunity are made on any variety sold in this catalog.*

Resistance: The ability of a plant variety to restrict the growth and development of a specified pest or pathogen and/or the damage they cause when compared to susceptible plant varieties under similar environmental conditions and pest or pathogen pressure. Resistant varieties may exhibit some disease symptoms or damage under heavy pest or pathogen pressure.

Two levels of resistance are used in this catalog:

High resistance (HR) or Resistance (R) (specified as per vendor preference): Plant varieties that highly restrict the growth and development of the specified pest or pathogen under normal pest or pathogen pressure when compared to susceptible varieties. These plant varieties may, however, exhibit some symptoms or damage under heavy pest or pathogen pressure.

Intermediate resistance (IR): Plant varieties that restrict the growth and development of the specified pest or pathogen, but may exhibit a greater range of symptoms or damage compared to highly resistant varieties. Moderately resistant plant varieties will still show less severe symptoms or damage than susceptible plant varieties when grown under similar environmental conditions and/or pest or pathogen pressure.

Tolerance: The ability of a plant variety to endure *abiotic stress* without serious consequences for growth, appearance, and yield.

Susceptibility: The inability of a plant variety to restrict the growth and development of a specified pest or pathogen.

Supersweet or SH₂ Hybrids contain the shrunken gene (sh2) and have higher sugar content than Su and Se genotypes. The SH₂ gene greatly blocks the conversion of sugar to starch; thereby allowing supersweet hybrids to hold their sweetness much longer than Su or Se types. As a result, supersweets are ideally suited to 3 to 5 day long distance shipping. Supersweet hybrids have greatly improved in the last couple of years. You will notice increased tenderness, higher sugars and better eating quality. Several names are being used in the industry to denote high quality supersweets, i.e. Augmented, Xtra Tender, Gourmet Sweet, Multi-Sweet.

Growing Tips: Supersweet hybrids generally require warm soil (60 degrees or higher) for optimum germination. Supersweets should be isolated from Su, Se, and field corn varieties to ensure sweetness, tenderness, and flavor. Distances of about 50', plus the use of border rows, and varieties with at least an 8 day difference in maturity keep contamination to a minimum.

WHITE SH2 *Listed By Maturity - See Pricing On Page 39*

What is the sh2i gene? The sh2i gene is a naturally occurring gene discovered by the University of Florida. It is not genetically modified. The sh2i gene gives you the same eating quality as a normal sh2/supersweet. The sh2i gene when put in the proper genetic background does not affect the eating quality or shelf life.

What is the benefit? The sh2i gene promotes a larger, denser kernel. A harder kernel translates to harder seed that provides better seedling vigor and uniformity.

SEEDWAY carries 4 SH2i hybrids: Xanadu (bicolor sh2); Solstice (bicolor sh2); Eden RMN (white sh2); and Equinox (yellow sh2)

Code	Variety	Days	Ear Length	Row Count	Husk	Plant Habit	Disease Reaction	Comments
4133C NEW	LEADOFF MXR	69	8"	16 - 18	Medium green, great cover	6'	HR: Ps (Rp1GDJ), MDMV	A first early white with tall plants and large ears. Sister to Kickoff XR.

SWEET CORN

BICOLOR Se *Listed By Maturity - See Pricing On Page 42*

Sugary Enhanced Hybrids contain the sugary enhancer (se) gene, significantly raising the sugar content above standard su's while retaining the tenderness and creamy texture of standard varieties. High initial sugar allows them to hold sweetness longer and are best suited for local or one day shipments. Se hybrids have been greatly improved in the last couple of years to increase sweetness, corn flavor, and offer improved eating quality. Several names are being used in the industry to designate these improved se hybrids, ie Synergistic, TripleSweet, TripleSweet Plus, Quad Sweets. **Growing tips:** No isolation from standard su's is necessary. **Synergistic hybrids** are homozygous for either the su or sh2 gene and heterozygous for the other. Synergistics are utilized primarily to increase sugar levels in the su/se types while maintaining the tender pericarp and creamy texture that make se's desirable. Seed quality is not generally affected and will be similar to hybrids within the class they are compatible with. **Growing tips:** All synergistic hybrids that we presently carry are su/se compatible and can be planted with su/se hybrids, but need to be isolated from sh2 types.

SWEET CORN PERFORMANCE SERIES™

Performance Series™ corn varieties aid in weed and insect control. Insect protection covers both above-ground and below-ground pests. Plus, Performance Series™ varieties are tolerant to RoundUp WeatherMAX® and Roundup PowerMAX®. Although Performance Series™ sweet corn varieties reduce the need for chemical insect control, they do not entirely replace IPM controls. Performance Series™ does not control cutworm, aphids, flea beetles or western bean cutworm. Fields need to be scouted for these pests to prevent economic loss. Performance corns are an IPM tool. Not a cure all.

Aids In Control Against The Following Pests

Fall Armyworm	Corn Earworm
European Corn Borer	Southwestern Corn Borer
Sugarcane Borer	Southern Cornstalk Borer
Common Stalk Borer	Western Corn Rootworm Larvae
Northern Corn Rootworm Larvae

/// **Vegetables**
by Bayer

Family Traditions Have Never Been Sweeter.

Performance Series® sweet corn contains the same great Roundup Ready® technology and protection from select above- and below-ground insect pests that row crop farmers are already familiar with. Most importantly, come harvest, you can expect full, quality ears that deliver great taste that you and your family will love.

Key Management Practices to Maximize Quality and Yield

- Scouting for Corn Earworm should begin prior to first silk and continue through harvest
- Use traps to monitor and count adult moths in the area
- Spray programs will be needed to maximize marketable yield

Bayer is a member of Excellence Through Stewardship® (ETS). Bayer products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Bayer's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Commercialized products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Performance may vary, from location to location and from year to year, as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on the grower's fields.

Roundup Ready® Technology contains genes that confer tolerance to glyphosate. Glyphosate will kill crops that are not tolerant to glyphosate. Bayer, Performance Series®, Roundup Ready® and Seminis® are registered trademarks of Bayer Group. ©2022 Bayer Group. All rights reserved.

CORN

ORNAMENTAL *Listed By Maturity - See Pricing Below*

Code	Variety	Days	Comments
5350NT	EARTH TONES (hybrid)	90	This early dent flour corn variety has an ear 8 - 10" in length. The remarkable trait of this dent corn lies in the beautiful muted colors in the ear. The kernels of the corn are NOT the shiny, deep intense colors found in Indian Corn. The ears contain many of the soft colors found in nature near harvest time. The beautiful ears can be used for fall decorations, ground into flour, or used as feed for birds and other animals. (1,500 seeds per pound)
8465	FIESTA (hybrid)	95	Early maturity hybrid; shorter, stouter plants are less susceptible to wind damage. Ears are 7 - 10" in length with 20% - 30% purple husks. Colors of yellow, red, white, blue, purple and variegated kernels. (1,700 seeds per pound)
5349NT	RAINBOW MINI INDIAN CORN	100	Ears are 3 - 6" long. Nice percentage of red husks in this blend. Wide variety of kernel colors on the ear, including many pastels. Stalks are 6-8' tall and stand well. Harvest when husks are dried. (5,000 seeds per pound)
9215	AUTUMN EXPLOSION (hybrid)	102	Hybrid flint with improved lodging resistance. 8 - 9" ears have varied combinations of red, white, pink, yellow, purple and variegated kernels. Approximately 25% red husks. (1,500 seeds per pound)
9574NT	BROOM CORN MIXED COLORS	105	Heads/plants look much like sorghum; heads traditionally used for brooms. Colors include gold, deep brown, rusted wheat and white. Attractive for dry arrangements, crafts and brooms. (16,000 - 20,000 seeds per pound)
5347NT	SHADES OF BLUE INDIAN CORN	105	Ears are 3 ½ - 5 ½" long. Several blends of blue shades including sky blue and violet blue. Harvest when husks are dried. (5,000 seeds per pound)

*Different seed lots and different growing seasons will affect seed size and seeds per pound. The numbers listed here are estimates based on our history with these varieties.

CORN **POPCORN** *Listed By Maturity - See Pricing Below*

Code	Variety	Days	Comments
8474	ROBUST YELLOW	98	Produces large yellow kernels with 145 kernels per ounce. High yielding variety with very large popped flakes. Makes excellent candied popcorn ears.
5351NT	CHERRY BERRY	98	Larger, longer ears than standard strawberry making for a good pack out. Husk colors are a mixture of beige, burgundy, reds, and streaked. 5 - 6' stalk height with good standability. Fantastic yields. Harvest when husks are dried. (5,000 seeds per pound)
6446	ROBUST WHITE	100	Large ears with large, white kernels. Popped flakes are large and tender.
5352NT	CALICO	100	Calico popcorn ears are larger than our miniature popcorn varieties, but smaller than Indian corn. The ears range in size from 5 - 8". The kernels of seed are multi-colored with reds, yellows, and calicos most common. There are also ears with shades of brown, black, green, blue, pink, and orange kernels. The seed can be popped or used for decorations. (3,000 seeds per pound)
6938NT	MINIATURE COLORED	105	Red, yellow, black, gray, brown, purple, pink, blue, white, orange and many different calicos. Most ears are combinations of many colors. (7,500 seeds per pound)
9787	R400MR	110	Yellow popcorn with tolerance to Goss's wilt. Large single ears promote high yield potential. This is a mushroom type flake with good expansion and popping percentage.

CUCUMBER

PICKLING HYBRIDS *Listed By Maturity - Pricing On Page 50*

Code	Variety	Days	Fruit Size	Disease/Abiotic Reaction	Comments
3976FI400	AVENGER 	45-48	3" - 4"	HR: Ccu, WMV, PRSV, ZYMV IR: CMV, Pcu, Psl, Px	Predominantly female. Avenger pickle yields the blocky fruit shape and the dark color preferred for fresh markets. Growers can expect consistent productivity and quality from one harvest to the next. Plants are multi-virus resistant for main and late season plantings.
9141DI400	DELI-KING 	55	3" - 4"	IR: A, ALS, Ccu, CMV, Pcu, PRSV, Sf, WMV, ZYMV	Monoecious. Productive with strong ability to hold quality and color throughout multiple picks. Produces high percentage of marketable fruit with strong plants that work in later season slots.
9144DI400	DELI-STAR 	55	3" - 4"	IR: A, ALS, Ccu, CMV, Pcu, PRSV, Sf, WMV, ZYMV	Monoecious. A top producer in our trials; yields an early and heavy crop of fruit. Excellent consistency in ability to maintain quality and color.
5184DI400	SUPREMO 	55	3" - 4 1/2"	IR: A, Ccu, CMV, Ec, Pcu, Psl, PRSV, WMV, ZYMV	Monoecious. Excellent, consistent, dark green color. Fruit is uniform and maintains quality and firmness throughout extended picks. Vines are vigorous and readily support fruit load. Multi-virus resistant.
4315FI400	SUPER MAX 	55	4"	IR: A, Ccu, CMV, Ec, Pcu, Psl, PRSV, WMV, ZYMV	Monoecious. Compares to Supremo in type; fruit shows a darker skin color and stronger color uniformity. Fruit quality is among the best as the smooth appearance and blocky shape are maintained from pick to pick for consistent high quality that packs and displays well.

AVENGER[^]DELI-KING[^]SUPER MAX[^]SUPREMO[^]LAGOS[^]LISBOA[^]

CUCUMBER

PARTHENO-CARPIC *Parthenocarpic: Ability to produce fruit without pollination. Listed By Maturity - Pricing On Page 50*

Code	Variety	Days	Fruit Size	Disease/Abiotic Reaction	Comments
6081	LISBOA Slicer	45	8"	IR: Ccu, CMV, CVYV, Pcu, Sf	Parthenocarpic slicer. Does well in tunnel/low tunnel production producing smooth, dark green fruit. Does not need insect pollination to set fruit. Productive, potential to set up to two fruit per node.
6977	LAGOS Slicer	45	8" - 9"	HR: CMV, CVYV, Ccu, Cca Sf	American slicer-type cucumber recommended for tunnel, greenhouse or isolated early field production. Fruit is dark-skinned and smooth. Parthenocarpic habit does not require bees for pollination and can offer the advantage of a consistent harvest on days when honeybees are not prone to work the fields.
5464	EXCELSIOR Pickle	52	4 1/2" - 5"	HR: Cca, Ccu IR: CMV, CVYV, Sf	Produces for a long season, does not need insect pollination for fruit set if grown as a protected crop. Great flavor and a true American-style pickle.

CUCUMBER BURPLESS SLICING HYBRIDS *Listed By Maturity - See Pricing Below*

Code	Variety	Days	Fruit Size	Disease/Abiotic Reaction	Comments
6593 DI400	TASTY GREEN <small>FarMore F1400</small>	62	9" x 2 1/4"	R: Ccu, CMV, Co, Psl, Sf IR: Pcu	Monoecious, good taste, smooth and "burpless". Similar in style to a greenhouse or English type cucumber. Tasty Green is productive in high tunnels if you ensure proper pollination.

Monoecious: Male and female flower grow on the same plant.
Gynocious: Plants produce female flowers only; typically 15% of the seed as packaged will be a variety, with similar appearance, that provides the male flowers that are needed to produce fruit.
Parthenocarpic: Ability to produce fruit without pollination.

CUCUMBER

SLICING HYBRIDS *Listed By Maturity - See Pricing On Page 52*

Code	Variety	Days	Fruit Size	Disease/Abiotic Reaction	Comments
8273 DI400	SPEEDWAY 	54	10" x 2"	HR: A-2, Ccu, Psl IR: CMV, Sf	Quality, good length, uniform dark green color. High early season yields. Gynoecious.
8433 DI400	BRISTOL 	54	8" x 2"	HR: Ccu, Co:1, CMV, Psl ,ZYMV IR: Pcu, Px, PRSV	Improved Downy Mildew resistance. Produces high quality, smooth, dark green fruit on strong plants with MVR resistance. Strong yield potential. Gynoecious.
9445 DI400	DIAMONDBACK 	54	8 ½" x 2"	R: Ccu IR: A2, Cca ,Co, CMV, Ec, Psl, Sf, PRSV, WMV, ZYMV	Strong yields and quality; strong vine vigor. Target Leaf Spot resistance allows for placement in later season slots. Fruit will hold length throughout extended picks. Gynoecious.
9444 DI400	MAMBA 	54	8" x 2"	R: Ccu IR: A2, Cca, Co ,CMV, Ec, Psl, Sf, PRSV, WMV, ZYMV	Good setting ability and quality in early picks. Carries virus and Target Leaf Spot resistance and can be used for quick yields in later planting slots. Gynoecious.
4372 DI400	RACEWAY 	54 - 56	8 ½" - 10"	HR: WMV, ZYMV, Psl, Ccu IR: CMV, PRSV, Cca, Co:1, Pcu, Px	Raceway is a longer slicer that can be considered for plantings where heat stress may shorten fruit length. Raceway shows a strong dark green color with uniform color and reduced yellowing on the "belly" side. Downy Mildew resistance is good for later season plantings and also for extended harvest. Gynoecious.
5186 DI400	PYTHON 	55	8 ½" - 9 ½" x 2"	R: Ccu IR: A2, Cca, Co, CMV, Ec, Psl, Sf	Early maturity and consistent performance. Maintains dark green color and holds length well throughout multiple picks for high pack-out potential. Less yellow belly, can also be trellised. Gynoecious.
4369 DI400	BRICKYARD 	55	8 ½" x 2"	HR: WMV, ZYMV, Ccu IR: CMV, PRSV, Psl, Co:1, Pcu, Px	Strong vines are vigorous. Brickyard has shown adaptability, uniformity and productivity. Growers will appreciate the consistency in quality. Fruit is dark colored and smooth throughout multiple and extended harvests.
4540 DI400	SV4142CL 	59	8 ½"	HR: ZYMV, Psl, Cca, Ccu, Co:1 IR: PRSV, Pcu, Px	A strong grower recommended for field trellis/pole production; vigorous vines and strong plant promote adaptability and strong yields. Plants are monoecious and lend themselves to extended production.
6396 DI400	COBRA 	60	9" x 2 ½"	HR: Ccu, Psl, PRSV, WMV, ZYMV IR: A-2, CMV, Sf, Pcu	Holds length under stress. Dark green and glossy, with big yields. Multi-virus resistant. Gynoecious.
5467 DI400	SENER 	60	8 ½" x 2 ½"	IR: A, ALS, CMV, Pcu, PRSV, Sc, Sf, WMV, ZYMV	Preferred variety for trellis production. Monoecious.

CUCUMBER BEIT ALPHA *Listed By Maturity - See Pricing Below*

Code	Variety	Days	Fruit Size	Disease/Abiotic Reaction	Comments
9770	MERCURY	55	6"	IR: CMV, ZYMV, WMV, PRSV and Powdery Mildew	Beit alpha type for field production; Mercury is not parthenocarpic and does require bees for pollination. This is a consistent performing "salad cucumber" to consider that does not require protected or greenhouse culture.
5230	PICOLINO Parthenocarpic	52	4 ½"	HR: Cca, Ccu IR: CMV, CVYV, Sf	Early, a mini or salad cucumber with dark green, smooth, glossy skin. A nice fit where high quality, smaller sized fruit is needed. Fruit is uniform and maintains its consistency and quality. Parthenocarpic so no insects needed in protected culture.

EGGPLANT

Listed By Type and Maturity From Transplant - See Pricing On Page 54

Code	Variety	Days	Fruit Shape/Type	Fruit Color	Comments
7933NT	A1014 Estelal SEEDWAY EXCLUSIVE 	55	Medium-sized, smooth teardrop	Purple/black	A1014 brings an entirely new level of quality, earliness and yield to the "American" style of eggplant. It is up to 10 days earlier than any other variety and will provide a lot of fruit early. The fruit has a refined look, is firm and glossy, and a "just right" size for most grocery stores. The calyx are totally spineless and won't scratch the fruit, your customers or harvest crew. Fruit separates easily from the plant with a gentle tug. The plant is compact but stays healthy and productive for a full season. Most growers will not need to stake A1014 and plants can be crowded.
9581	MEGAL	60	Long, tapered	Purple/black	Green calyx, long Italian type, 7" - 9" long, 3" diameter. Moderate resistance to TMV.
8764NT	DAIRYU Japanese	60	Med-long, slender, Japanese	Purple/black & glossy	Not only is this traditional Japanese eggplant early, but it will produce for a long season. Very reliable! Harvest 7" - 10" long.
6817NT	SLIM PURPLE Asian	61	Long, slender, Chinese	Light purple	Long, slim fruit grows from 8" - 12" long and stays perfectly cylindrical. The calyx is a matching light purple with green shading. Tender.
6373NT	NADIA	62	Teardrop	Black	Heavy early set, large fruits held high. Sets when cool.
7686NT	LITTLE PRINCE Indian	63	Petite, egg-shaped Indian	Violet	The sturdy plant loads up with small oval/egg shaped fruit, usually in clusters of two or three. It is one of many Indian eggplant types and also can work for Middle Eastern and Bosnian markets looking for small fruited eggplant to stuff and/or pickle. The small cap is spineless and fruit is easy to pick.
6531NT	LUCILLA Zebra Stripe 	63	Smooth teardrop	Purple/ black & glossy	Our favorite feature of Lucilla is a small, spineless cap, along with the super glossy skin that is darker than Nubia with bright white stripes. Yields are excellent. Fruit can get quite large and still hold quality.
3731NT	NEW  GHOST STORY 	63	Round, oval	White	This new white eggplant is a real game-changer. Smooth, firm, and heavy. It has a refined small cap that is usually spineless. Flesh is dense, bright white, and slow to develop seeds. Excellent early and continuous yields.
4004NT	NEW  SUPER VIOLET Asian	64	Extra long, cylindrical	Violet	This violet colored Asian-type eggplant is extra long and cylindrical, up to 16" long. Flesh is firm and white with few seeds. Tasty and eye-catching!
8118	SANTANA SEEDWAY EXCLUSIVE	65	Extra large, teardrop	Purple/ black	Versatile in size, Santana can get quite large and hold quality. A healthy plant supports high yields over a long season. The fruit stem and calyx are nearly spineless. Sets freely in adverse conditions.
5496NT	BARBARELLA	65	Round, pleated Sicilian	Violet w/ large white shading	Vigorous, healthy plant bears heavy fruit with dense, delicious white flesh. Barbarella is from Italy and has an authentic Sicilian look with a white halo and shading. Nearly spineless calyx.

See Price List On Page 59

MINELLY[^]RHODOS[^]CARINA[^]PUNTO[^]BENEFINE[^]ARTICA[^]

Code	Variety	Comments
6658XZ	RHODOS Endive	60 days. Also called Tres Fine Maraichere and used in salad mix, this type has finely curled, narrow leaves. Unlike baby lettuce, it is grown as separate heads and pulled apart. Space closely so the center will naturally blanch to a pale lemony color. Mildly bitter and crunchy. The best variety in its class with excellent bolting and tip burn tolerance.
4151Z	MINELLY Endive	Flexible, medium-fine type for year-round cultivation (especially for the first and last sets). Very fast and upright growth habit. High yield potential for processing.
3785XZOR	NEW BENEFINE Endive	Easy to grow finely cut frisee type endive that is slow bolting, good against tip burn and bottom rots. It will form a blanched head that is creamy colored, crunchy-tender, and somewhat mild tasting.
3940XZ	ARTICA Escarole	60 days. Artica is an escarole from Italy bred for cool weather production in spring and fall. The erect habit causes the center to blanch beautifully without additional effort while keeping the head cleaner.
9587XZ	FULL HEART NR 65 Escarole	60 days from transplant. Healthy, vigorous, dark green plants. Great uniformity and color.
7861XZ	OLMOS Escarole	60 days. Olmos is a real step up in escarole, with broad, green, wavy leaves that are more upright than usual. Heads are uniform, fast growing but very slow bolting, tipburn tolerant and readily make a blanched heart. Very uniform.
8502XZ	SALAD KING Endive	63 days from transplant. Fast growing, uniform and attractive. Outside leaves are very dark green.
6639XZ	TASOS Endive	65 days from transplant. This is the classic Italian style endive with heavy, widely serrated, dark green leaves and a self-blanching center.
5590Z	PUNTO F1 Catalogna Dandelion	55 days. Tall, dark green, erect leaves grow vigorously. Unlike wild dandelion, it will not go directly to flower and can be grown later in the season, including as a fall crop. Can be transplanted and good for multiple cuttings. <i>IR: Powdery Mildew.</i>
6605NT	ITALIKO RED STEM Dandelion	60 days from transplant. This dandelion shaped chicory has appealing magenta colored stems and veins.
4199NT	CARINA Catalogna Dandelion "Gigante di Chioggia type"	65 days from transplant. This vigorous hybrid dandelion is a real eye-catcher! Leaves are thick, glossy, dark green and slightly wavy making for better volume. Carina is slow bolting. The ribs are pliable so it packs well for shipping. Tolerant to hot and cool conditions and can grow over winter with protection or in the south. Plant in-row 12" apart in rows that are 18" apart.

HERBS

See Price List On Page 58

Code	Variety	Comments
3737NT	NEW Basil EVI	This is the Downy Mildew resistant basil we have been waiting for! It is a Genovese type with medium-sized-smooth, green leaves (slightly backrolled). The fragrance is perfect and clean. Use is versatile including cut, pots, and hydroponic. The habit is semi-compact and the Downy Mildew resistance is strong.
4517NT	Basil RUTGERS DEVOTION DMR Genovese type	This is a fast growing Genovese-type basil for potted, greenhouse, and field production. With strong Downy Mildew resistance, the medium-sized and medium-green leaves are flat to slightly cupped with ridges. The bushy plants have somewhat short internodes.
4056NT	Basil RUTGERS OBSESSION DMR	High Downy Mildew and Fusarium resistance make this basil a top choice for fresh market and processing growers. Authentic flavor and appearance. Relatively slow to bolt with dark-green leaves about 2.5" long. A high leaf to stem ratio makes this variety a top choice for many open-field producers catering to the fresh market and processing industries.
4768OR	Basil PROSPERA® CG1	Prospera® CG1 has a vigorous, upright habit with medium sized leaves. It has a high resistance to Downy Mildew and some resistance to Fusarium
3905OR	Basil PROSPERA® PS5	A medium-compact plant that performs well both as potted as well as fresh-cut production. Leaves are medium sized, slightly spoon shaped, with a very dark green color and a classic Genovese aroma.
3829NT	NEW Basil SUPERBO	Our Superbo is a special selection by an Italian producer's "Genovese Classico". With improved uniformity, Superbo has a medium compact plant and very large, glossy green leaves. The leaves are wide and spoon shaped with an intense flavor. Superbo is the classic basil used for traditional "Genovese" bunching and for "pesto" by the processing market.
6829	Cilantro CRUISER	Cruiser is a bolt-resistant variety that has a more uniform and fancier appearance as compared to Calypso. Even length stems make it very nice to bunch.
7228	Cilantro LEISURE	Leisure is a Santo type at a better price point. We offer a strain that is carefully tended by the producer in the desert southwest.
8335	Cilantro SANTO	Santo is slow-bolting, vigorous, high quality. Cilantro is used in salsa and spicy foods, and has become a staple among fresh herbs.
4450NT	Chervil MASSA ORIGINAL	Massa is a uniform selection of a smooth leaf chervil. It is used for soups and salads. It is good for summer and also very cold tolerant.
5045	Chives STARO	Fast growing with thick, blue-green leaves. Staro's early vigor makes it excellent for live-plant sales. Staro can be grown over winter in greenhouses and for typical open field production and hydroponic. PERENNIAL.

Code	Variety	Comments
3800NT	NEW → Dill DIANA	Diana is robust but very slow-bolting, erect dill grown for bunching the ferny blue-green leaves. About 18" tall.
3899NT	Dill DELIGHT	Very late bolting dill, upright growth habit with dark blue-green color, leafy with high yield potential. Suitable for fresh market or processing.
8519	Dill DUKAT	Early with heavy foliage and large umbels. Anthocyanin free (non-purple).
7938	Dill ELLA Plant sale type	Ella is the perfect dill for selling live plants. It is slow bolting and makes lots of ferny, dark green stems. It is also good for anyone choosing to sell greens only and not needing flowers.
5022	Dill GREEN SLEEVES	Your best choice for greens (bunches) since it is very vigorous and also very slow to make a seed head. It does, however, make a nice large seed head to sell bunched for during pickle season.
3801NT	NEW → Dill HERA	Hera is a favorite variety to use to bunch the ferny greens. Compact, uniform plants grow about 16" tall. It is slow to form a seedhead. Beautiful green and erect.
6414NT	Fennel ORION Bulbing type	80 days from seed, but can be transplanted. Orion forms uniform round bottoms that hold well after bulbing. This is a semi-long day Florence type. In Pennsylvania, we reliably grow good bulbs in spring and fall. Further North it should be seeded mid-June or later. Fennel is very cold tolerant and has little need to be grown in a tunnel, but if it is, it will stay perfectly clean.
4469NT	Fennel DRAGON Bulbing type	75 days from seed. Dragon features medium fast growth, makes a round bulb and is very slow to bolt. Like Orion, it can be grown in a wide range of conditions and seasons, including spring. It will get large without splitting.
3902OR	Oregano ZAATAR	Soft, oval, gray-green leaves. Intense oregano aroma and flavor, well known for centuries in the Middle-east as a culinary and a medicinal herb.
7235NT or 723582XB	Parsley ARAT Root type	Arat has smooth, parsnip shaped roots that are strongly flavored when roasted or used in soups. This is a nice item to take to Farmer's Markets, especially around Northern European populations. Flat leaves are dark green. In addition to being sold by weight and pelleted, Arat is available primed with B-mox. The priming improves germination in both warm and cold soils and B-mox enhances vigor and root growth.
9438	Parsley DARK GREEN ITALIAN	Medium-large, wide, flat leaf. Leaf type is dark green and moderately cut. Smooth and shiny. Upright with more vigorous growth than Italian Flat Leaf.
5737NT	Parsley ITALIAN GIANT SW STRAIN	SEEDWAY's strain of Gigante d' Italia has very good uniformity; a nice dark color and even stems. It has good bolting tolerance and rapid regrowth after cutting. We offer it both primed and primed with mini pellet.
4904	Parsley JADE	Jade is a loosely curled parsley that does well in hot weather. It has parsley late Blight resistance (<i>Septoria petroselini</i>). It may show several plants with flat leaves if crowded, but the good germination and appearance should compensate for these off-types.
8518	Parsley FORREST GREEN	The standard for curled parsley and has an attractive mixed curl.
4359NT	Parsley KATINKA	Uniform, fast growing, medium-green double curled parsley. Long and strong stems make this variety appropriate for bunching or for mechanical harvest. We offer Katinka untreated and also primed.

DARKIBOR^

SUNBOR^

STARBOR^

OLDENBOR^

SCARLET PREMIUM^

Code	Variety	Leaf Color	Height	Comments
8535	DARKIBOR	Medium green	18" - 24"	The preferred variety for chopping - thinner ribs make for a fancier product. Somewhat looser curl. Despite the name, it is not as dark green as Winterbor and Starbor.
8361	WINTERBOR	Dark green	18" - 24"	With a tall plant and stout, straight leaf (petiole) stems, Winterbor is the preferred hybrid kale for bunching.
8435	STARBOR	Dark blue green	12" - 18"	Uniform stems of even length facilitate a 1-cut bunch, no need to strip and bunch. Classy, very dark green, curly leaves resist yellowing. Good for spring planting since the bolt resistance is excellent and shows good vigor as the weather gets colder. Our most cold tolerant variety.
5345	OLDENBOR	Bright green	18" - 24"	Oldenbor has a very broad frilly leaf. It shows excellent vigor and productivity when growing from cool to warm weather. The extra vigor helps in sandy soils with improved regrowth. It shows resistance to Black Rot and Fusarium.
4176	SUNBOR	Dark purple red	24" - 26"	Very productive with a very attractive and different purple color. It stands out for its superior uniformity. Virtually identical to Redbor but with improved uniformity.
4270NT	SCARLET PREMIUM <small>Pricing On Page 61</small>	Purple red	18" - 20"	Scarlet Premium was selected for use in growing full-sized, beautiful scarlet colored kale. It has good vigor and excellent uniformity.

SPECIALTY and OPEN POLLINATED *See Pricing Below*

Code	Variety	Comments
8531S	BLUE SCOTCH aka VATES	This is the original curly leaf kale with stems radiating from a central stalk. If you are cutting smaller leaves or not stripping, this is a nice standard kale. It will not regrow well like hybrid kale.
7151	LACINATO KALE <i>Dinosaur/ Tuscan Kale, Cavolo Nero</i>	Also known as dinosaur kale for its dark and primitive look, Lacinato is an Italian kale with a rich, mild flavor and tender texture. It is feather shaped and usually picked at 10" or smaller. We offer four types and this is the "generic" version, priced for salad mix. Lacinato is one of the best varieties to grow in cold weather in a high tunnel.
6027	BLACK MAGIC <i>Lacinato selection</i>	Black Magic is a lacinato selection that is very uniform and erect and good for bunching. Available in treated or not-treated seed options. It has narrow stem attachments and strips quickly and cleanly.
8394NT	BLACK JACK <i>Lacinato hybrid</i>	With increased interest in Lacinato, this hybrid offers the fanciest appearance for bunching, with slender erect, and very savoyed nearly black leaves.
4181NT	AMARA	Kale salad is often just lacinato mixed with Amara or Premier kale. Both are mustards but called kale. Amara has small leaves with serrate margins and a delicious mustardy flavor.
7058NT and 7058S	SIBERIAN DWARF	12 - 14" tall plants with light blue-green leaves and ruffled margins. Cold tolerant and more tender than other kales. It has a good mustardy flavor and very vigorous.

ROMAINE

See Pricing On Page 67

Code	Variety	Days	Comments
9612XZ	STRYKER	73	A dark green romaine that produces large, heavy heads with excellent internal quality and leaf texture; it grows tall and upright with straight ribs. Good for general boxing, processing and hearts. Slot for spring and fall. Nice sweet flavor. Highly tipburn tolerant and bolt-resistant. Resistant to BL 1-16, 19, 21, 23 and Corky Root.
8875XZ	INFERNO	75	If you need an extra vigorous and leafy romaine that can handle heat, Inferno is an excellent choice. It has outstanding dark color and has tipburn and bolt resistance. It grows very erect and is excellent for hearts. Your customers will like the fancy appearance and extra-heavy weight. Good for spring and moderate summers, and over-winter in the Southeast. HR: Bl 1-16, 18-20, 22-24, 27-28, 30-31, TBSV.
4228XZ	SOLID KING	75	Solid King is a very versatile romaine variety with a high tolerance to tipburn and fringe-burn even under extreme heat. It has excellent bolting tolerance to Corky Root resistance. Solid King has a medium-glossy green plant and excellent interior texture. It has a smooth solid midrib. This variety has impressive weight and, as such, is often used for processing. It is used for fresh, whole leaf, hearts, and/or processor market.
3852XZ	NEW BLUEROCK	58	This new romaine is proving to be widely adapted and used for cartons or processing. Bluerock features beautiful, medium green, glossy blistered leaves and a short core. It has good heat tolerance, tip burn tolerance and an erect habit. HR: Downy mildew (Bl):Bl: 7-9US, Lettuce leaf aphid (Nr:0), Tomato bushy stunt virus (TBSV)
5193XZOR	 DOV Summer Romaine	76	Dov is a darker green and more "normal" looking romaine than other super-heat tolerant varieties. It is leafy, and sweet tasting because it is very bolt resistant. If left in the field, it will get very heavy.
3847XZNT	NEW TENDITA RZ	45	This mini-romaine is a "Crunchy" type with sweet very firm leaves, all the same size. It can be used to hold dips and fits in a clam shell. It can be sold as a tiny head or separated into even-sized leaves. HR: Bl:16-20,22-25,29,30,33-37EU/Fol:1/Nr:0
3795NT	NEW PS1102B	-	PS1102B has a unique set of characteristics, including Bushy Stunt Disease, that enables growers to plant it in diverse conditions. The frame is narrow with tall, heavy heads. With its color, texture, lack of fringe burn (from salts) and slow maturity, it holds in the field to give the grower flexibility in harvest date.
6065XZ	 MONTE CARLO Mini Green Romaine	53	This outstanding mini romaine weighs a lot for its small frame. Great shelf life, mild flavor with a romaine and butterleaf texture. Fast and easy to grow, holds well, becomes heavier without bolting. Heads are 8" - 10" tall. Grows well even in short days in high tunnels. Recommended for hydroponic growers. IR: BL 1-16, 19, 21, 23
4562XZNT	NEW THURINUS Red Romaine	56	This deep red glossy romaine has a good combination of weight and brilliant color. It is red on the outer leaves and tips with a light green center. HR: Bl:16-27,30-32,37EU/Nr:0/Pb IR: LMV:1
6064OR	 POMEGRANATE CRUNCH Mini Red Romaine	54	The wine red color extends into the compact head through most of the leaves and is accented by lime green ribs. The red color is maintained even in high tunnels and other low light situations. HR: Bl (EU) 16-27, 29, 32, 34, 36, BL (US) 1-8 TBSV

Code	Variety	Days	Comments
5197XZ	RHAPSODY	73	Rhapsody handles heat well, making a large, heavy, dark green head. The glossy leaves have a nice thick texture suitable for everything from farm markets to prepared salads. It has excellent tipburn tolerance. Resistance to DMR 1-6, LMV.

LETTUCE **LOOSE LEAF GREEN & RED LETTUCE** *See Pricing On Page 68*

Code	Variety	Days	Comments
8411XZ	NEW RED FIRE	48	Loose leaf with full center. Slow bolting, uniform and holds color well. The key to New Red Fire's long standing success is that it has a good combination of color, vigor and weight.
4402XZNT	CHEROKEE RZ	48	This beautiful deep red leaf lettuce has thick glossy leaves. It is moderately slow growing and heat tolerant. It is slow bolting and has good shelf life. HR: Bl:16,21,23,32EU
3884XZ NEW	KREMLIN	65	Kremlin is an improved Red Tide, being more erect with deeper red color. If you are looking for a fast growing red lettuce, Kremlin is the answer. In part because the color is a light red, it grows as fast as green lettuce, so can be harvested at the same time. It is slow bolting and very good against tip burn.
3906XZNT	CONVERSION		Conversion is in between romaine and loose leaf. Each leaf is about the same size but has a romaine like texture and erect habit. It has solid ribs and a lot of leaves. HR: Bl:16-27,30-32EU/Nr:0
4490XZOR <i>Eazy leaf</i>	BUCKLEY Eazyleaf	50-55	Buckley is a beautiful one-cut red oakleaf. Lobed, deep red leaves grow in an upright rosette, forming a highly presentable variety that can be harvested for whole heads or for a salad mix. Buckley is faster growing than most red varieties, and is suitable for full season production. Pair with Hampton green Eazyleaf for a vibrant display. HR: Bl:16-35EU/1-9US/Nr:0/TBSV IR: LMV:1
4491XZOR <i>Eazy leaf</i>	BRENTWOOD Eazyleaf	57	This Eazyleaf deep red lettuce has a glossy, soft texture; wavy leaves add a lot of dimension. The color contrast of the dark cherry and bright light green gradation on the leaf is striking. It has excellent bolt tolerance and produces leaves with a fine ripple. Good for whole head or one-cut harvest. HR: BL (US) 1-9, R:0 IR: Fol;1
4233XZOR <i>Eazy leaf</i>	EZTRON Eazyleaf		The newest tango-type Eazyleaf is jagged like Frisee but sweet tasting with a somewhat broader leaf. Good weight. Slow to bolt. HR: BL (US) 1-8, NR:0, TBSV IR: LMV1
8066XZOR <i>Eazy leaf</i>	HAMPTON Eazyleaf		Hampton is a small, sturdy, waxy, dark green, glossy, and curled oak leaf. It has a high leaf count and a narrow attachment. HR: BL (US) 1-8, NR:0, TBSV IR: LMV1
8711XZ	BERGAM'S GREEN	56	Bergam's has proven to be very reliable, making uniform, heavy heads with sturdy, supple, dark green leaves. Performs well in heat and is excellent against tipburn and bolting. Holds well in the field. Has Corky Root resistance. HR: Ss, TBSV.
3834XZNT NEW	GRAZION RZ	52	Grazion is a large, sturdy, medium-green, fresh leaf. It has intermediate Fusarium resistance. IR: Fol:1-resistant HR: Fusarium Fol:2-resistant

Code	Variety	Days	Comments
3868XZ	NEW AC ESTIVAL	80	AC Estival has the ability to stand up to heat, especially going from hot to cold. It is slow to bolt, holds well in the field, and is reliably uniform to head. The leaves are thick. It shows good tolerance to fusarium.
3964XZ	GLENDANA	87	Medium sized iceberg. Very uniform and adaptable variety with good heat tolerance, also performs well in cooler climates. Excellent internal characteristics with a dense heart and a very low core. Medium to late maturing, very strong against tipburn and bolting. Large frame, round head shape, good leaf cover. HR: BL 16-36 (EU), 1-9 (US)
4063XZ	MERIDIAN	73	Meridian is a pioneer! This variety is first to market to show strong field tolerance to Fusarium Race 1 in the iceberg category. It has a high level of heading and works well in Desert Southwest fall and spring as well from the Southeast through Quebec. HR: BL 16-24, 27-28, 30-33 (EU), BL 7, 8 (US)

BABY LEAF *See Pricing On Page 67*

Code	Variety	Comments
<i>Use these green lettuce varieties as the foundation of your mix.</i>		
5037NT	BEIJING GREEN Green Oak	Broad lobed, jagged and swirled leaves are a very dark green. Thick leaves have a unique supple texture and a waxy look. Slow growing which enhances shelf life.
5038	GREEN MILES Tango Type	Leaves are an even shape and size. Very erect with excellent body. Fan shaped leaves have a dark, minty green color and a jagged edge. Tango type.
3804NT	NEW AFRODITE Green Leaf	Afrodite is a medium bright green baby-leaf with a fan-shaped leaf with a frilled, jagged margin. It has medium vigor and a thick leaf with excellent shelf life. It can hold in the field, even in warm weather. HR: Bl: 16-37/1-9US
3803NT	NEW TWIST Green Iceberg x Tango	Twist is a crunchy twisted, deeply incised, baby leaf that can also be grown as a small head. It has an iceberg taste. Great bag filler and stores well. HR: Bl 16-37/1-9US
<i>Use these red lettuce varieties sparingly for brilliant contrast.</i>		
7983NT	RED HOT Tango Type	Red Hot provides cherry red, fan shaped, frilly leaves for your mix.
3802NT	NEW 19158 RED OAK	This glossy, deep cherry red oak leaf is striking in a baby leaf mix. It is slow growing so handles heat very well. HR: BL 16-37/1-9US
5748NT	DARK LOLLO ROSSA MTO	Dark Lollo Rossa is a special selection of Lollo Rossa and the seed is screened for LMV (Lettuce Mosaic Virus). Lollo Rossa is slower growing than most other lettuce and is used in baby leaf mixes and as small heads.
5036NT	SHANGHAI RED Red Oak	This deep cherry red baby leaf oak leaf is slow growing with a thick leaf to help it handle heat well.

LETTUCE **BABY LEAF BLENDS** *See Pricing On Page 67*

Code	Variety	Comments
8950	SPICY MIX BLEND	These baby brassicas include Red Russian Kale, Red Komatsuna, Mizuna, Osaka Purple and Tatsoi. We have not included Arugula, Beets or Chard in this mix. If needed, please purchase separately.
8967NT	HIGH TEST BLEND	Includes Dark Lolla Rossa, Beijing Green, Shanghai Red, Red Hot, and Green Miles. Selected for intense color, uniform leaves and sturdy texture.
8962NT	BUDGET BLEND	This blend uses mostly home garden varieties with a bit of true, dark red baby leaf for visual interest. We offer this for "lettuce bowl" plant sales or for local markets where shelf life isn't important. "Budget Blend" is not as intensely colored, and plants will grow faster than our "High Test Blend".

ARUGULA, MISC. BABY LEAF, AMARANTH *See Pricing Below*

Code	Variety	Comments
8332	ASTRO "cultivated"	Astro is the preferred variety of "cultivated" arugula, which is fast growing and has larger seed, around 140,000 seeds per pound. This type is often sold bunched. Astro leaves are a mix of lobed, round larger lobed, and oval leaves.
4371NT	SPARKLE RZ "cultivated"	Sparkle RZ is a unique, round leaved, cultivated arugula with unique visual appeal and thick leaves for good shelf life. Usable as babyleaf or as a whole baby plant. Strong against 2 strains of Peronospora.
7937	BELLEZIA "wild"	Bellezia adds field tolerance to Downy Mildew to the preferred wild arugula type (below) Grazia. Wild arugula is slower growing than Astro but has improved shelf life. If you are unfamiliar with wild arugula, be prepared for dust-fine seed, around 2 million seeds per pound.
8369	GRAZIA "wild"	Grazia has become the "go to" variety for wild arugula due to good stands and good color. It is slow bolting for wild arugula.
4217NT	RED GARNET	Leaves are a great addition to salads or grown as microgreens.

Seeds of Rijk Zwaan

At Rijk Zwaan, our top priority is to provide a full assortment of vegetable varieties to meet growing demand for convenient, healthy vegetables. We look forward to discussing your variety choices with you!

Baboon RZ

Baboon RZ

Smooth Green Spinach

- Strong against Stemphylium leaf spot, Anthracnose and downy mildew
- Good for processing markets
- Suitable for spring, autumn and winter crops

Conversion RZ

Conversion RZ

Batavia Lettuce

- Dark green leaves with solid ribs and uniform size
- Upright growing habit, healthy plant and good field standability
- Good for convenience and whole leaf markets

MELONS

CANTALOUPE HYBRIDS *Listed By Maturity From Transplant - See Pricing On Page 72*

Code	Variety	Days	Shape/Size	Netting/Sutures	Cavity/Flesh	Disease Reaction	Comments
6982	GODDESS	69	4 - 6 lbs., 7" x 5"	Fine net, shallow sutures	Medium cavity, med-orange flesh	HR: Fom (0,1,2), Sf (1,2)	<i>Early!</i> Fragrant and juicy flesh tastes like it's right out of the garden! Large size for an early melon. Best if harvested at 1/2 slip.
9172	APHRODITE	72	Round/oval, 6 - 8 lbs., 8" x 7"	Refined net, slight sutures	Medium cavity, firm, med-orange flesh	HR: Fom (0,1,2), Sf (1)	Earlier, larger Athena type. More refined net. Use where large melons are preferred.
5460	AVATAR	72	Oval, 8 - 10 lbs., 8½" x 7"	Coarse net, shallow sutures	Medium cavity, dark orange flesh	HR: Fom (0,1,2), Sf (1) IR: Sf (2)	This is the largest melon we list; sizes large consistently. Netting is complete and attractive; interior color is dark. Flavor balances sweet and musky tastes.
5317	SUGAR RUSH	72	Round, 4 lbs.	Medium net, no sutures	Small cavity, orange flesh	IR: Fom (0,1,2), Sf (1,2)	The "big sister" to Sugar Cube, Sugar Rush has the same top notch eating quality that Sugar Cube is known for. Sugar Rush is ready for roadside market with its homegrown melon flavor and sweetness.
9627	ATLANTIS	73	Round/oval, 6 - 8 lbs., 7" x 6½"	Medium net, shallow sutures	Medium cavity, med-dark orange flesh	IR: Fom (0,1,2), Sf (1,2)	Excellent interior quality for fresh market appeal and firm flesh for shipping. Produces consistently high sugar; holds sweetness well. Strong vines lend adaptability. Shows uniformity in size and shape.
7680	ACCOLADE	74	Oval, 5 - 6 lbs., 7½" x 6½"	Fine net, shallow sutures	Small cavity, med-orange flesh	HR: Px;1, Px2US, Fom (0,1,2) IR: Ag, Px3,5, T:S	Improved holdability and storage - also has firmer flesh and a smaller cavity. Netting is consistent and refined. Suited for early to main season plantings in the Southeast, Midwest and Northeast. Resistant to cotton aphid.
7679	ASTOUND	75	Oval, 5 - 6 lbs., 7½" x 6½"	Fine net, shallow sutures	Small cavity	HR: Px:1,Px2US, Fom (0,1,2) IR: Ag, Px3 ,5, T:S	Eastern shipper that promotes improved holdability and storage - has firmer flesh and a smaller cavity. Netting is consistent and refined. Suited to main-late season plantings in the SE and main season plantings in the Midwest and Northeast. Cotton aphid resistant.
4231FI400	MAMUT Western	75-80	Oval	Heavy net, no sutures	Small cavity , dark orange flesh	HR: Fom (0,2) IR: Px2U	An excellent option for the international market that is demanding high quality fruit. Excellent vigorous and healthy plant. Uniform and firm fruit.
8922	ATHENA	75	Oval, 5 - 7 lbs., 7" x 6½"	Refined net, shallow sutures	Small cavity, firm, med-orange flesh	HR: Fom (0,1,2), Sf (1,2)	Firm flesh, good sweetness, excellent for shipping. The industry standard.
4961	OLYMPIC GOLD	75	Round/oval	Heavy net, no sutures	Small cavity, dark orange flesh	HR: Fom (0,1,2), Sf (1,2)	Main season Western shipper producing consistently larger size fruit. Interior is crisp, firm and sweet. Fruit appearance is appealing and rind is well netted.
8867	SUGAR CUBE Personal size	77	Round, 2 - 4 lbs.	Medium net, no sutures	Small cavity, med-orange flesh	IR: Fom (0,1,2), Sf (1,2), PRSV, WMV, ZYMV	A sweet treat with plenty of homegrown melon flavor and high sugars. We see 13 - 14% brix. Uniform round shape and plenty of fruit to harvest!
3862 NEW	THUNDERSTRUCK	80	Oval, 5 - 7 lbs.	Medium-heavy net, no sutures	Small cavity, dark orange flesh	IR: Fom (0,1,2), Sf (1,2)	Eastern shipper cantaloupe with full melon flavor and high sugars. Harvest at full slip when rind fully matures to tan color. Fruit has a narrow cavity, complete net and shows uniformity in size.
7669	AFTERGLOW	80	Oval, 5 - 7 lbs., 6½" x 8"	Fine net, true sutures	Small cavity, med-orange flesh	HR: PM 1,2 Fom (0,1,2)	Afterglow has a thicker flesh than traditional sutured melons and will hold better in the field. Enjoy the blend of sweetness and melon flavors as well as a uniform harvest of refined looking fruit.

LONG SHELF LIFE/EXTENDED SHELF LIFE/HARPER *Listed By Maturity - See Pricing On Page 72*

Code	Variety	Days	Shape/Size	Netting/Sutures	Cavity/Flesh	Disease Reaction	Comments
4646	CAYUCOS BEACH RZ	73	Square/round	Fine net	Small cavity, dark-dark orange flesh	IR: Fom(0,1,2), Px Sf(2,3)	Extended shelf life melon that blends harper traits with western shipper traits. Fruit rind will turn tan when mature and will slip from vine like an eastern shipper. Performs best in early segments. Shelf life improved over standard western shippers.
4434	HERMOSA BEACH RZ	75	Oval/round, 4.5 - 6 lbs.	Fine net	Small cavity, dark orange flesh	HR: Fom(0,1,2) IR: Px (ex Sf):2,3	Extended shelf melon with adaptability to the southeast and hot and cool conditions. Growers will appreciate the harvest indicators: rind turns tan and fruit will slip when mature. Flavor is good; sugars generally range 13-15%. Shelf life improved over standard western shippers.
4184FI400	DAMARIS	78 - 80	Oval, 4 - 6 lbs.	Fine, shallow suture	Small cavity, dark orange flesh	HR: Fom(0,1,2), Px2, MNSV IR: Ag, Px 3.5 T: S	Extended shelf life melon with excellent firmness that helps promote increased field holding ability and shelf life. Damaris has a refined net and dark interior color. Harvest like eastern shippers. Damaris will pick 3 to 4 times.
4196	SUNPAC	78 - 80	Oval, 5 - 6.5 lbs.	Fine net, shallow sutures	Small cavity, dark orange flesh	IR: Fusarium 0,1,2	Sunpac is an extended shelf life melon that has shown strong ability to size in our trials. Fruit sizes uniformly from crown to the end of the vine. A bit later maturing than other ESL's Net is refined and makes a clean appearance and pack.
7745	CARIBBEAN KING RZ	80 - 110	Oval/round, 5 lbs.	Heavy net, no sutures	Small - medium cavity, dark orange flesh	IR: Fom(0,1,2), Px Sf(2,3,5)	Popular long shelf life harper for shipping; slightly aromatic with consistently high brix 12% or more. Does not slip when mature.
7790	CARIBBEAN GOLD RZ	80 - 110	Oval/round, 5 lbs.	Heavy net, no sutures	Small cavity, medium-dark orange flesh	HR: Fom(0,1,2) IR: Px2, Ag	LSL Harper and standard of the shipping industry. Offers a concentrated set, good setting ability, and consistent quality in appearance, firmness and sugars. Brix ranges 12 to 17%. Does not slip when mature.

HONEYDEW *Listed By Maturity From Transplant - See Pricing On Page 72*

Code	Variety	Days	Shape/Size	Netting/Sutures	Cavity/Flesh	Disease Reaction	Comments
7559	SUMMER DEW	88	Round/oval, 5 - 6 lbs.	Smooth	Medium, light green flesh	HR: Fom (0,2) IR: Px:1,Px2US	A nice choice for both shipping and roadside use. Vines are strong and lend adaptability and added protection from sunburn. Fruit is both firm for shipping and tasty and sweet for roadside sales. Sizing is consistent, making for an easy harvest.
8151	NEW MOON	85 - 90	Round/oval, 5 - 6½ lbs., 6½" x 7"	Smooth	Small cavity, light green flesh	IR: Fom (0,2), Sf (1)	Yields a strong set of uniformly sized fruit, 5 and 6 counts. Sweet tasting and firm, we see an average brix of 15%. A good choice for Eastern growers.
4046	CHARLOTTE	85-90	Round, 5 - 6 lbs.	Smooth	Small cavity, light green flesh	HR: Fom (0,2) IR: Sf	A simply delicious honeydew with an average of 13 brix. Fruit is both firm and tasty and can be used for both shipping and roadside applications. Charlotte has a consistent, round shape for easy packing. Plants are vigorous with a canopy that offers protection from sunburn.
5426	DEWLIGHTFUL	90 - 95	Round, 7½ lbs., 6½" x 6½"	Smooth	Small cavity, light green flesh	IR: Sf	A simply delicious honeydew. Sugars range from 13 - 16% brix. Good shipping ability.

SPECIALTY *Listed By Maturity - See Pricing On Page 72*

Code	Variety	Days	Shape/Size	Netting/Sutures	Cavity/Flesh	Disease Reaction	Comments
6459	VISA (Galia)	69	Round, 4 - 5 lbs., 6" x 6"	Full net, no sutures	Small cavity, green flesh	HR: Sf (1,2)	High sugar and sweet green, softer flesh makes Visa a good choice for fresh market/roadside use where consumers are looking for high quality, flavorful items.
7474	PIXIE (Palm)	76	Round, 2 - 3 lbs.,	Sparse net, no sutures	Small cavity, deep orange flesh	HR: Sf	<i>Exceptional flavor!</i> Dense, deep orange flesh boasts the highest sugars you'll ever taste. Mini melon develops yellow blush at maturity; does not slip. Shelf life is good when harvested at the ideal stage.
8744NTSAP	CAMPOSOL (Canary)	80	Oval, 5 - 6 lbs., 8" x 6"	Wrinkled	Medium cavity, bright white flesh	IR: Sf	Firm flesh is complemented by exceptionally sweet, juicy flavor. Holds well in the field. Harvest when rind is a dark golden yellow; you will also notice "sugar cracks" or "checking". <i>2023 Crop Failure</i>
5191	CAMINO EUROPA (Canary)	84	Oval, 5 lbs., 8½" - 5½"	Wrinkled	Medium-large cavity, bright white flesh	HR: Fom (0,1,2), Sf	An excellent canary for field-holding ability. Fruit tends to resist cracking. Sweet flavor and firm texture, approximately 13-15% brix.

SUGAR RUSH

MUSTARD

Listed By Maturity From Direct Seed - See Pricing Below

Code	Variety	Days	Comments
8933	SAVANNA Hybrid	30	Spinach mustard type with large glossy oval leaves. A hybrid variety, Savannah works well for multiple cuts with its strong uniformity and fast growth. Savannah has tolerance to heat and cold and is slow to bolt.
3903	GREEN RIVER Hybrid		Green River is a Japanese smooth leaf mustard with a dark green color and delicious taste. Green River is successfully used for baby leaf due to being both fast growing and having a thick, attractive glossy leaf. It also makes a lot of leaves right from the start and is excellent in hydroponic culture.
4512NT	PIZZO Hybrid	40	With a zippy flavor and a fresh, light green, curly leaf, Pizzo is excellent for salads. The hot flavor intensifies as it grows, tasting like condiment mustard. It grows in warm weather but is outstanding in the cold weather. Use for baby leaf and up to 10". Pizzo is not bolt resistant, but is quite vigorous and will yield well.
8442	SOUTHERN CURLED OP	50	Dark green and distinctly curled leaves on an upright plant. Plant structure lends itself to easy harvest for bunching, or can also be used for processing or other fresh market applications. Shows high bolt tolerance.
6392S	FLORIDA BROADLEAF OP	55	Commonly used for bunching, baby leaf, or processing. Susceptible to bolting.

GUARDSMAN OP^

APACHE^

PARADE^

FEAST^

PERFORMER^

Code	Variety	Days	Comments
6636	GUARDSMAN OP	50	A top choice for a very early bunching onion, that will produce a slight bulb due to being a Allium Fistulosum x Ceba type.
4064	APACHE	65	This is a very flexible red-skinned bunching onion that will be able to handle your spring, summer, and fall productions. Mild flavor peels easy, and has slight bulbing. This is a Allium Fistulosum x Ceba that can be grown as bunching onion or overwintered and produce a nice red spring onion.
8654	PARADE	65	Waxy, dark green stalks; vigorous upright grower with no branching. Excellent green to white ratio, perfect for bunching. Fistulosum type with no bulbing.
9263	FEAST	67	Single stalk type. Good for summer harvest. High tolerance to heat. Strong against Downy Mildew and Alternaria Leaf Blight.
6153	PERFORMER	70	Highly productive bunching onion with good heat tolerance. Dark green, healthy tops.

OKRA

Listed By Maturity - See Pricing On Page 80

Code	Variety	Days	Comments
4062NT	BUFFALO BILL 91	43	Buffalo Bill 91 is a new, early, hybrid okra with a vigorous, open, somewhat short, plant. Pods are dark green and stay tender to a larger size than Clemson Spineless. The leaf petioles (leaf stems) are nearly spineless, so, like a spineless zucchini, Buffalo Bill 91 is more comfortable to harvest. Growers from the mid-Atlantic north and through the mid-west will be able to harvest weeks before Clemson Spineless. Well branched plants contribute to an overall excellent yield. Although okra isn't known to be a transplant crop, it can work, and this would be very good for home garden plant sales.
8641	CLEMSON SPINELESS 80	55	Dark green, straight, slightly grooved, pointed pods are 7" - 8" long and spineless. Plants are heavy yielding and grow approximately 4' - 4½' high.
5736NT	BURGUNDY		The O.P. purple-red Okra.

PARSNIP

Listed By Maturity - See Pricing On Page 80

Code	Variety	Days	Comments
9721X	PACIFIC	100	Very early maturing, producing bulky, well-filled roots. Well suited to the earliest plantings.
9733X	PALACE	110	High yield potential producing a high percentage of marketable roots. Shows even weight distribution. Adapted for early to main season use.
9728X	PANORAMA	120	Slender, wedge-shaped roots are smooth and show good white color. Vigorous growth habit. Good weight distribution throughout roots.
8802X	PEARL	120	Showcases a bright white color while producing roots that are uniform and carry good weight distribution. Holds well in the field. Mid to late maturity.

SHALLOTS

Listed By Maturity - See Pricing On Page 80

Code	Variety	Days	Comments
4357	DAVIDOR	95	Better adapted to intermediate areas than Conservor, and is earlier maturing than Conservor, but not adapted for storage. Davidor is red/brown in color, elongated and tear drop shaped.
6123	CREME BRULEE (BGS-270)	98	Creme Brulee (BGS-270) is the first ever shallot to be awarded AAS certificate. Called an Eshalion shallot; also known as a banana shallot. What makes this unique compared to other shallots is that it is elongated, easy to peel, and has a great sugar content ideal for caramelizing. Geared to professional chefs and, when eaten raw, can have a slight citrus-like flavor.
8231	AMBITION F1	100	Red to brown color, suited to long and semi-long day areas. Very high yield due to extreme uniformity. Bulb shape is round to high round; taller shape is ideal for peeling. 2" bulb size.
4170	 INNOVATOR	110	Is one of the first downy mildew resistant shallots, is adapted for long day areas and is a long tear drop shaped shallot that has a nice pink/brown color.
6314	PICADOR F1	110	Slight elongated/teardrop shape. Picador shows a pink color when peeled. Peels easily with no skin between doubles.
6275	CONSERVOR F1	120	Elongated shape, easy pulling at harvest time.

PEAS INOCULANT

Code	Variety	Comments	Price
878100	PEA & BEAN INOCULANT (Treats Up To 50 lbs.)	Using an inoculant results in better plant and root system growth for legumes. Legume plants produce their own nitrogen through a relationship with bacteria called Rhizobia which is in the inoculant as well as in the soil. But, the Rhizobia in the soil are not as active in cool, wet soils. Adding the inoculant gives your legumes a jump start. (This is an all-natural product, but it is not organically certified).	9.75

SWEET BELL HYBRIDS - GREEN TO RED Listed By Maturity - See Pricing On Page 91

Code	Variety	Days	Fruit Class	Plant Type	Disease Reaction	Comments
6711	RED KNIGHT (X3R)	64	Large, 3¾" x 4"	Compact, sturdy	R: Xcv 1,2,3; PVY	Intended for an early red, Red Knight will turn red 10 days earlier than many green to red varieties. GR:SE
4131	SAILFISH	65	Large, 3¾" x 4"	Compact, medium vigor	HR: Tm:0 IR: Pc, Xcv 1-10	An early red bell pepper for fresh market, with high quality, blocky smooth fruit, and excellent red color.
9154	GALILEO <i>SEEDWAY EXCLUSIVE!</i>	70	Jumbo/XL, 4½" x 4¾"	Compact, good vigor	R: Xcv 1,2,3 IR: Pc	This SEEDWAY exclusive sets freely for excellent early yields. Galileo's fruit won't jam in the crown since the fruit radiates out from the center, like a fountain. Fruit is dark green, firm, and generally blocky with 4 lobes.
9138	ARISTOTLE (X3R)	71	XL, 4" x 3½"	Compact, medium vigor	R: Xcv 1,2,3; Tobamo, PVY	This early heavy yielding variety consistently yields smooth, high quality uniform fruits. Fruit matures into a nice red color. GR:SE
9962	KARISMA	71	XL, 4½" x 4"	Medium-size, strong	HR: Xcv 1,2,3; TMV PepMoV; PVY-0,1,2 IR: CMV	Karisma provides very good yields of attractive, blocky, dark green fruit. It also makes a classy red. It has a more continuous set compared to other early varieties. Widely adapted.
5157	ISLAMORADA <i>SEEDWAY EXCLUSIVE!</i>	72	XL, 4½" x 4"	Large, vigorous	HR: Xcv 1-5	Dark green glossy fruit are smooth, extra large, uniform in size, and protected with good canopy. This continuous setting variety has a distinctively large plant, so it will produce high numbers of fruit throughout the growing season. Very high yielding in the Southeast.
6157	REVOLUTION	72	Jumbo/XL, 4½" x 4¾"	Large, good canopy	R: Xcv 1,2,3,5; IR: CMV, Pc	Growers like Revolution for its disease package (including Phytophthora) and proven yield with extra large fruit. Widely adapted.
7623	PLAYMAKER X10R®	72	Large	Large, bushy, medium size	HR: Tm:0 IR: Pc, Xcv 0-10	This variety was bred for the Northeast region of the US. Growers like this variety for its large fruit and high yield potential. GR:SE
5273	VANGUARD	72	XL, 4½" x 4¾"	Medium tall, vigorous	R: Xcv 1-5 IR: CMV, Pc	Vanguard is an adaptable and heavy setting variety that produces extra-large to jumbo fruit.
7903	TURNPIKE	72	Large/XL, 4" x 3¾"	Sturdy, bushy, medium size	HR: Xcv 0-5, 7-9 IR: Pc	Turnpike combines very strong Phytophthora resistance with high yields of dark green, firm fruit. Uniform size and nice blocky shape make Turnpike ideal for place pack. Compared to "1819", the fruit are fancier and the plant is sturdier with an improved canopy. GR:SE
8223	SV3964PB	72	Jumbo/XL, 4½" x 4¾"	Very large, erect and strong	HR: Xcv 1-3, CMV IR: Pc	With an unstoppable, robust plant, "3964" will yield loads of fruit over a full season. Expect mostly jumbo, dark green, heavy, smooth fruit.

7858	BOCA	73	Jumbo/XL, 4½" x 4"	Sturdy, good cover	IR: TSWV:0, Xcv 1-10	This SEEDWAY exclusive is impressing growers where Xcv 1-10 races are needed. The fruit are very dark green with very thick and firm walls. Boca is unique in that it has TSWV in addition to Bacterial Leaf Spot resistance.
7621	LABELLE <i>SEEDWAY EXCLUSIVE!</i>	73	Jumbo/XL, 4½" x 4¾"	Large, good canopy	R: Xcv 1-10	This SEEDWAY exclusive has Xcv 1-10 resistance with very smooth, dark green and blocky fruits. LaBelle is proven to have high yield potential.
4243	REGULATOR	73	Jumbo/XL, blocky	Sturdy, good cover	HR: Xcv 1-10, TM:0 IR: TSWV	Regulator is an attractive, widely adaptable variety. This variety will produce a high number of four-lobed fruit and will maintain its size throughout the growing season. Features a strong plant with good cover, and great fruit uniformity.
3873	NEW CAPTAIN	73	Jumbo/XL	Vigorous, good cover	IR: BLS (1-10) , PC	A beautiful sweet bell pepper with an open plant architecture and slightly extended crown set. The blocky dark-green fruit reach extra-large and jumbo sizes (while keeping consistent shape). Captain is well suited for open field conditions.
5018	PS 0994-1819	73	XL, 4½" x 4"	Sturdy, medium large	HR: Xcv 1-5, IR: Pc	"1819" has dark green fruit with a strong plant for extended production and good performance against Phytophthora. It consistently produces smooth attractive fruit. GR:SE
8525	SDY 48 <i>SEEDWAY EXCLUSIVE!</i>	73	Jumbo, Large/XL	Medium	HR: Xcv 1-10	Its beautiful blocky fruit makes an attractive place pack presentation. Fruit are firm, glossy, and uniform. Good foliage coverage and excellent yields.
4125	TARPON	75	Medium, blocky	Compact	HR: Tm:0 IR: Xcv 0-10, Pc	Tarpon is a main season hybrid with X10R® technology and Intermediate resistance to Phytophthora in the Northeast and Midwest United States and Eastern Canada. Tarpon has a compact plant and produces dark green, smooth blocky fruit.
4633	NITRO S10™	75	Large/XL	Sturdy, good cover	HR: TMV:0, Xcv 0-10 IR: Pc, TSWV	High quality, mid maturing hybrid suited for place pack. It is adapted to fall and spring in the southeast and summer production in the northeast and suited for production where bacterial leaf spot is a concern. The fruit have good size uniformity and are smooth, firm, glossy dark green and mature to red color.
5378	MERCER	75	XL	Sturdy, good cover	HR: TMV, Xcv 0-3, 7, 8 IR: TSWV	Mercer is a widely adapted green to red bell pepper, well suited for the Northeastern and Mid-Western US growing regions. The maturity is mid-early, with high yields of extra-large fruit with good quality. Mercer matures to a very attractive deep red color.

SWEET BELL HYBRIDS - MIXED COLORS Listed By Maturity - See Pricing On Page 91

Code	Variety	Color	Days	Fruit Size Class	Plant Type	Disease Reaction	Comments
7477NT	FLAVORBURST	Green Yellow	65	4 ½" x 3¼"	Medium/strong		This slightly tapered bell is unique in both earliness and sweetness. The immature color is bright apple green which rapidly turns sunny, waxy yellow. Not only is this the earliest variety to color up, but will continue to produce all season with fewer culls. If you grow only one colored pepper, we recommend Flavorburst.
9200	TEQUILA	Cream Purple	69	3½" x 3½"	Medium/open		Tapered, somewhat wavy fruit display a tropical twilight mix of colors, as the fruit matures from pale lemon, to lavender, to light, bright orange.
9449	SANDPIPER	White Red	69	3½" x 3½"	Medium/strong		Sandpiper is blockier and smoother than other white to red bells. This variety starts out creamy ivory, turning to an apricot to bright red as it matures.
3754	NEW OIDA	Light Cream to Red	70	3½" x 3½"	Medium/strong	HR: XCV 1-3	Blocky, light cream to red sweet pepper. Suitable for Spring-Summer cycle. Very adaptable for different growing conditions.
5492	MILENA 	Green Orange	70	3½" x 3½"	Medium/large	HR: TMV 0,1,2,3 IR: TSWV; PVY-0	Reliable, classy fruit, turns a true orange quickly. Works in tunnels and open field. Milena is the place-pack size you see in grocery stores. Excellent yield and nearly all fruit is marketable.
3961X	NEW VERO	Green to Yellow	70	3½" x 3½"	Medium/Large	IR: XCV 1-10	Consistent performing green to yellow bell pepper, especially where XCV 1-10 resistance is needed. The medium to large fruit colors up early and evenly.
8914	ABAY 	Green Yellow	72	4¼" x 4¼"	Strong/bushy	HR: XCV 1-5	Blocky yellow fruit, mostly extra large. Reliable and widely adapted. The fruit is large, heavy, and fancy with a good early yield and a second set.
5549	DELIRIO	Green Orange	74	4¼" x 4¼"	Medium/large	IR: TSWV	While Milena is our first choice for early orange color and classy, blocky fruit, Delirio offers a reasonably priced orange bell for farmstands and garden plant growers.

6468	ARUBA Cubanelle	64	7½" x 2¼", Light green/red	Tall, upright, good canopy		Early maturing Cubanelle with smooth 3-4 lobed fruit that matures from a pale green to bright red.
5456	GRENADA Cubanelle	65	7½" x 2¼", Light green/red	Tall, upright, good canopy	HR: Xcv 0-3, 7, 8	Compared to Aruba, Grenada has slightly thicker flesh and Bacterial Leaf Spot resistance. It is equally productive and attractive. Red to orange when mature.
6603	WHITNEY Hungarian Stuffing	65	5" x 3", Creamy ivory, strong red	Medium and open		Very thick smooth walls, tapered to a blunt end. While some Slavic/Hungarian customers prefer Whitney when it's immature and vanilla white, this variety is also one of the earliest of its kind to turn red.
9030NT	NATASHA Sweet Banana	68	7¾" x 1¾", Light yellow, red	Large, tall	HR: Xcv 1 - 3	Natasha is early with long, straight fruit on a big strong plant. If you need Bacterial Leaf Spot resistance, we think Natasha is your best choice. Fruit has thick walls.
4529	BIMINI Cubanelle	68-70	7½" x 2¼", Light green/red	Tall, upright, good canopy	BLS 1-10 Tolerant	Thick walled, dense fruit with excellent flavor and incredible setting ability. Well adapted to all Eastern US growing regions. Traditional Cubanelle shape.
7798	BEACON Sweet Banana	70	8" x 1¾", Light yellow, red	Strong, upright	HR: Xcv 1 - 3, TSWV	This sweet banana pepper combines excellent disease resistance with great early yield of straight, heavy, thick walled fruit. It is great for processing.
9960	SWEET DELILAH Italian Shepherd/ Marconi type	70	8" - 10" x 2½", Green/red	Large, very upright	IR: TSWV	This large, thick-fleshed, flashy pepper usually has a small "sheep's nose" rather than a blunt tip. As the season progresses, it may lose the "nose". It has a nice, dark, apple green color when immature, but is usually sold when deep, glossy red. It's tasty fried or roasted.

6821	YUMMY-Orange Snack pepper	73	2½" x 1¼" Light green, orange	Medium-large, strong dense cover	Apricot-orange fruit are tender-crisp, sugary sweet, and nearly seedless. Keeps well. Market in clamshells or berry boxes. Great for vegetable trays. Continuous setting, excellent for tunnels.
7917NT	RED SWEETIE TZ	73	2½" - 3¼" x 1½"	Tall, narrow	High yielding, early maturing variety with a strong sturdy plant. The fruit size is bigger than other red snack peppers, but still a little smaller than the yellow and orange.
7915NT	ORANGE SWEETIE TZ	73	2¾" - 3½" x 1½"	Medium, erect-bushy	High quality snacking pepper with excellent early yields. Matches up very well with Yellow and Red Sweetie
7638	SWEETIE MIX	73			Orange, Red, and Yellow Sweeties in equal parts.
7911	TAKARA Shishito	73	3" - 4" x 1½"	Small, spreading	Chefs are loving this tasty, thin-fleshed Japanese pepper. They sauté it quickly in olive oil and serve it as an appetizer. For added excitement, 1/10th of the fruit may be slightly hot... it's a tradition.

PEPPERS

POBLANO *Listed By Maturity - See Pricing On Page 92*

Code	Variety	Days	Fruit Size/Color	Plant Type	Comments
7755	BARON	80	7½" x 3"	Tall, strong	Baron is similar to Masivo with big, thick-walled, flat, two-lobed fruit, and a nice shallow neck. Performs best in Mid-Atlantic and the North.
5338	HITMAN	80	4½" x 2"	Wide, bushy	Hitman is an open field Poblano pepper that has an attractive, dark green, glossy color. The well-covered plant offers protection for the fruit from the sun and produces high yields of uniformly large, dark-green fruit. Its medium-early maturity and high percentage of 2 lobe peppers make this an excellent choice for growers throughout the Eastern U.S.
8438	SEQUOIA	84	6½" x 2½"	Tall, strong	Sequoia is the only poblano that holds up to Phytophthora. It makes nice large fruit, mostly two-lobed with some three-lobed. Performs very well in slightly cooler climates such as the mountains and the Northwest.
7482	MASIVO	84	7" x 3", Dark green/red	Tall, strong, excellent cover	"Knock-your-socks off" size plus the ideal, flat, two-lobed shape will satisfy your fussiest customers. Shallow indent at stem. Prefers somewhat cooler nights but otherwise easy to grow.

Code	Variety	Days	Fruit Size/Color	Plant Type	Disease Reaction	Comments
4429	MIXTECO	68	Extra large	Vigorous	HR: Tm:0 IR: Xcv 1-3	Early maturing, uniform and high quality fruit with dark green color. Strong plant with good regrowth that brings high yield potential. Heavy fruit with thick walls for good internal filling.
8884	LEXUS	70	4¼" x 1", Very dark green and glossy	Strong, medium size	HR: Xcv 1-3	Lexus features a mostly concentrated set of very large fruit relatively early in the season, but it will continue to produce fruit for an entire season. The plant is unstoppable, but strong enough to not usually need staking. Yields and fruit quality are exceptional. It is uniform, cylindrical, and glossy dark green. 1700-2500 scovilles.
4631	EVERMAN	70	Extra large	Vigorous	HR: Xcv 1-3	Shiny and uniform fruit with no cracking. Excellent weight and shelf life. Thick walls. Open plant, with good regrowth, enabling this variety to continuously set throughout the growing season.
6712	ORIZABA	70	Extra large	Vigorous	HR: Xcv 1-3	Large, strong fruit with excellent leaf cover. Consistent size and quality through peak. Very thick-walled fruits. Large, strong plant with excellent leaf cover.
7609	BALUARTE	71	4½" x 1¼", Dark green and glossy	Strong, vigorous	HR: Xcv 1-3	This hybrid offers a great combination of large size, quality, and yield. Fruits are smooth, uniform, and very thick walled. Consistently produces large fruit throughout the plant with minimal cracking.
6389	TORMENTA	72	3¾" x 1½", Dark green	Large, upright	HR: Xcv 1-3 IR: TEV	Glossy, dark green fruit that won't purple and will not check unless overmature. Good traditional heat level. Your harvest crew will appreciate the large, sturdy, easy-to-pick plant. Tormenta is easy to grow in stressful conditions.
5468	CICLON	73	4¼" x 1¾", Medium dark green	Very large, strong	HR: Xcv 1-3	Giant fruit from a giant plant... the first harvest can be as early as 73 days, but this is mostly a main-season variety with top-notch yield expectations over a long season. Classy, slender, cylindrical fruit destems very easily. 3500-4000 scovilles.
8883	UNIQUE "nacho" type	73	4¾" x 1¼", Medium dark green	Tall, strong	IR: Pc, CMV, TMV	Low heat, cylindrical, slender, hot-dog shaped jalapeño intended for processing into "nacho" rings. The plant is stronger and yield potential is better than similar varieties. The plant shape allows for fast harvest. Approximately 1200 scovilles.
3772	NEW SV5816HJ	74	Medium - Large, Dark green	Large	HR: PVY:0 IR: Xcv 0-10	SVHJ5816 is the first jalapeno pepper with Xcv 0-10 resistance. Selected for Eastern U.S. open field production, SVHJ5816 is a fresh market jalapeno that has performed well across multiple planting seasons and regions.
6865	MAMMOTH	77	4¾" x 1¾", Medium dark green	Large, very upright	HR: TMV, PVY	Enormous fruit that are smooth with a soft sheen that set continuously throughout plant. With very thick flesh and a pleasing milder heat level, this is the jalapeño you will want to take home for dinner. Excellent stuffed with cheese, baked, or grilled.

HOT PEPPER HYBRIDS *See Pricing On Page 92*

Code	Variety	Days	Fruit Size/Color	Plant Type	Comments
8924	INFERNO Hot Banana	63	7½" x 1½", Light yellow/red	Medium-large	Very good yield and great flavor in addition to the heat. GR:SE
4442	CANARIO REAL Hot Banana	72-74	7¾" x 1¾", Light yellow/red	Medium-large	Main season, hot banana pepper. Vigorous plant habit. Large and heavy fruits.
4091	GOLDEN MAX Hot Banana	74-76	7½" x 1½", Light yellow/red	Medium-large	Attractive fruit with thick walls. Adequate pungency with great flavor and texture. Produces large number of uniform fruits.
6839	ASTRY semi-hot SEEDWAY EXCLUSIVE! Hungarian Stuffing	70	4" x 3", Conical Ivory with green cast/red	Medium- branched	With a pleasantly mild, delicious heat level and smooth, thick, dark red flesh, Astry is perfect for stuffing. It can also be roasted and peeled.
5175	IBERIA Cayenne Long Hot 	71	11" x 2", Dull green/red	Medium-tall strong	So early you will be able to harvest a few 11" Iberia fruit when Mesilla is only 4" long. It is extra long with outstanding total yield. Iberia is slightly hotter than Mesilla with thicker flesh. In the photo to the right, the Iberia pepper is as long as a pepper box.
7750	EL DORADO Santa Fe	60	4" x 1¾", Creamy ivory to red	Short, spreading	El Dorado has thick crisp skin, making it perfect for pickling. It is also good for stuffing and salsa. Depending on how well it is cleaned of membrane, heat can vary between mild and 3000 Scovilles.
3857	NEW YELLOWSTONE Caribe	71	4" x 5", Creamy, yellow to red	Vigorous	Yellowstone is a hybrid, jumbo, high yielding Caribe-type pepper that exhibits a large plant which produces excellent quality fruit. The fruit are bright yellow in color and large sized averaging 4"-5" in length.
6958	FRESNO 3429	74	3" x 1", Green to red	Medium-tall	Produces extra large fruit. High yielder with medium-tall plant. Very nice deep red color at maturity. Very firm and thick walled. Great shipper. Very adaptable.
4090	ARMAGEDDON Super Hot Chili	90	1½"-2" x 1-2", Green to red	Vigorous	14 days earlier than Carolina Reaper and just as hot. Improved plant vigor and fruit uniformity, with reduced days to maturity.
7737	HIGH FLY Thai Chile	95	2 ½" x 5"	Tall, upright branches	This improved Thai Chile is both ornamental and flavorful. Clusters of 2" long bright red fruit grow from the top of medium-long stalks like a palm tree. Compared to OP Thai pepper, High Fly is earlier to red and more compact. Market it tied into a bunch, fresh or dried. It can also be sold as an ornamental for plant sales or as a cut-flower.
7884	CHERRY HOT 102 Hot Cherry Flat	70	2" x 1¾", Green/red	Medium size, open	Cherry Hot 102 is a perfect shape for stuffing with most fruit round to semi-flat. Nice heat level without being blazing hot. Good size uniformity.
3947	PATHFINDER Serrano	73-75	2" x 1¾", Dark green	Medium	A new high yielding serrano with excellent plant and foliar cover. The dark green fruit are thick walled and have a long shelf life.
5574	CHARGER Anaheim	75	7 ½" x 1 ½", Dull green	Medium-large, erect	Smooth, flat, and thick-walled fruit is mildly hot. Charger is larger, heavier, and a darker green than most Anaheims. It roasts and peels well. IR: TSWV
4593	CRACKLE Finger Hot	60-70	L-XL, long, tapered	Medium, good cover	Excellent yields on a sturdy mid-compact plant. Fruit are dark green and over time are red at final maturity. The maturity is very early and it is suited for multiple harvests where is has the ability to maintain good size. Long, cylindrical shape and good pungency for this type.

Harris Moran pumpkins are a sure stand out with our iconic strong handles, consistent yields, brilliant colors, whimsical looks, and reliable disease protection. Take a look at some of our preferred picks for the season.

Learn more!

ADONIS

A strong vine that produces tall attractive barrel shaped fruit with nice ribbing and a long, thick firmly attached Harris Moran handle.

ORANGE SUNRISE

An excellent choice for first to market sales. With its precocious yellow gene, you'll have nice orange fruit when mums hit the stands.

FIREBALL

Vibrant yellow striped fruit with green stripes that mature to orange over time. Produces excellent yields of consistent fruit with good post harvest holding.

PIXIE

A concentrated setting hardshell mini with precocious yellow gene for first to market sales and protection against green flecking.

KRATOS

Known for producing a high percentage of uniform marketable fruit. A perfect carver with a strong firmly attached Harris Moran handle.

OLYMPUS

A legendary orange carver that delivers consistent yields. Strong vine for a well adapted product. Thick strong Harris Moran handle.

Technical data and disease resistance ratings shown are averages of results from observations at various locations, under different conditions, and laboratory tests. It is not a prediction of future performance but a summary of past results. Seed performance, yield, and crop results will vary depending on geographic areas, environment conditions and pressure, field growing and management practices, and the presence of pests or pathogens. New, unknown, and/or atypical pathogen strains may overcome the resistance of the seed. Acceptance of the HM.CLAUSE Limitation of Warranty and Liability and Use Restriction, included with our seed packages or available at www.hmclause.com, is a condition of use of all our products.

GOURDS

SMALL TYPE *Maturity Approximately 95 to 110 Days - See Pricing On Page 91*

Code	Variety	Comments
9236DI400	AUTUMN WINGS SMALL 	Mixture of small gourds, mostly winged. Most have 2 1/2" bulbs with 4" - 5" necks.
9237DI400	AUTUMN WINGS MEDIUM 	Medium sized mixture, mostly winged gourds. 2 1/2" - 3" bulbs with 6" necks.
4209DI400	AUTUMN WINGS SWAN 	Mixture of colorful, winged gourds. 2 1/2" - 3" bulbs with a neck up to 12" long.
5585	NEW RUPP FANCY WARTED	A traditional warted gourd blend of rounds, pear and spoon-shaped gourds. This is a fully warted mix of solids and bicolors; greens, golds, white, yellow, and orange are all represented in this colorful mix. 90-100 days.
3890	SMALL MIX GOURD	A traditional gourd blend of warted and non-warted small type gourds in green, gold, orange, yellow, solids, and bicolors.
5065DI400	DAISY GOURD 	A colorful collection of "daisy-like" gourds! All in all, there are 14 variations of "Daisy" that account for different sizes, colors, and warted or nonwarted fruit. Average fruit weight 0.25 - 0.5 lb. Full vine, 110 days. Recommended spacing = 3000 - 3500 seeds/acre for best yield.
5586DI400	GALAXY OF STARS 	A colorful blend of star-shaped fruit! You will find both smooth and warted fruit in bright bicolor patterns of green, gold, orange, and cream.
8321	TURK'S TURBAN 	Ornamental, hard and fairly durable if not bruised at harvest. 7" - 8" fruit streaked with orange, white, red and green.
7634	CARLE'S KALEIDOSCOPE	A medley of color, Carle's Kaleidoscope produces smooth and warted fruit in an array of green, gold, orange, and white. Fruit measures 3" - 4".

AUTUMN WINGS come in many colors and shapes, most with wings. The shapes are novel and like nothing else. To avoid bruising at harvest and during handling, *AUTUMN WINGS* should be planted early and allowed to cure before harvest. When immature wings become damaged, they will rot.

GOURDS

LARGE TYPE *Maturity Approximately 120 Days - See Pricing On Page 91*

Code	Variety	Comments
9497	APPLE SPECKLED	Shaped like an apple, but the size of a softball or larger. Dark green with white specks.
8319	BIRDHOUSE / BOTTLE	12" to 14" tall, 5" in diameter. Size/shape will vary somewhat on the same plant.
9395QI	SPECKLED SNAKE	4' to 5' long with a 4" diameter, dark green with white speckles. 79% germ, 10% discount.
9592	SWAN SPECKLED	Necked fruit looks like a swan's head. 14" - 18" long, 6" - 8" base. Also called Goose Gourd. Dark green with white specks.
9591	LARGE ELITE MIXTURE	Mix of large types including: Birdhouse, Snake, Bottle, Caveman's Club, Swan, Dipper and many more.
4207DI400	HOARGARTH 	Dark green and orange colors catch your eye with this heavily warted gourd. Produced on an intermediate bush-type plant. Fruit stands 5" high and is approximately 7" wide. A fun companion to display alongside pie pumpkins.
4206DI400	GIZMO 	A fun gourd mix that displays all the fall colors we love in a fancy, winged gourd. Produces dark green, light green, orange, yellow, and white fruit. Fruit stands 3" - 5" tall and is 6" - 8" wide. Uniquely grown on a bush-type plant.
7529	LUNCH LADY 	You haven't seen anything like this! A mix of large warted gourds in an array of shapes and sizes! Allow plenty of time for warts to develop, approximately 120 days. 5 - 15 lbs.

8402 DI400	JILL BE LITTLE 	100	2" x 3", mini	Medium-orange, ribs	Restricted vine	IR: Sf	An improved version of Jack-Be-Little with a stronger vine and Powdery Mildew resistance. Fruit size is comparable to Jack-Be-Little.
3821 FI400	PIXIE 	100	2" x 3.5", ½ lb.	Medium-orange, speckled	Restricted, vigorous vine		Pixie may have a sweet name but it is a hardy and durable pumpkin! Pixie matures early with a concentrated set and carries the precocious yellow trait, allowing it to help mask the green flecking on the fruit.
6039 DI400	CRUNCHKIN 	100	¾ - 1 lb.	Medium-orange, ribs	Bush		Hardshell mini Munchkin type. Uniform size with unique yellow speckling. Makes an appealing trio when paired with traditional orange and white mini types.
7689	SPARK	90	2" x 3 ½", ½ lb.	Bicolor yellow and orange stripes	Restricted	IR: Sf	A unique companion to orange and white minis, Spark's bicolor pattern dresses up displays. Size is well suited to be mixed with small gourds and other mini pumpkins. Productive, with uniform fruit.
3741	SUNRISE	95	4" x 3", 1 lb.	Gold-orange stripe, cream to light yellow background	Restricted	IR: Sf	A daisy or scalloped shaped colorful mini with the gold-orange striping that we all love. Uniform and productive on a restricted vine. Hard shell fruit. Longer stem adds a hint of character to the colorful fruit.
4215	MIDNIGHT	80	1 - 1 ½ lbs.	Dark green	Semi-bush	IR: Sf	The companion to Casperita and Orangita, Midnight is a personal size acorn squash that is both edible and decorative. Uniform fruit borne on a semi-bush plant.
5362	ORANGITA	90	2" x 4", 1 - 1 ½ lbs.	Medium orange, deep ribs	Restricted	IR: Sf	A larger mini type; pairs well with Casperita. Fruit is deeply ribbed and uniform with a concentrated set on a semi-bush type plant. Also edible, quality compares to an acorn.
7690	FLAME	90	3" x 4 ½", 1 lb.	Bicolor yellow and orange stripes	Restricted	IR: Sf	A mini pumpkin with an acorn-like shape, Flame shows great coloring and is both ornamental and edible.
6672 DI400	KANDY KORN PLUS 	90	3 ½" x 3 ½", 1 lb.	Bright orange, smooth	Very restricted	IR: Sf	So much like the original Kandy Korn, it will be hard for you to tell the difference! Has the added benefit of Powdery Mildew resistance with the same early maturity. True pumpkin look in a miniature.
4252 FI400	AUTUMN PEARL 	95	3 - 6 lbs.	Dark orange, distinct ribs	Restricted	IR: Sf	Pie pumpkins are a favorite everywhere! Autumn Pearl makes its introduction into the pie pumpkin class with an all around eye catching appearance: sturdy handle, distinct ribbing and dark orange color. One to try for 100-110 count bins. Recommended spacing is 15 to 18 square feet per plant.

9015	HALF PINT	85	4" x 4", 2 lbs.	Bright orange	Bush, single stem	IR: Sf	Smooth fruit is lightly ribbed and ready to paint. Matures quickly and offers a concentrated set of uniform fruit. A sturdy handle tops it all off!
7879	BLAZE	100	3 ½" x 7", 3 lbs.	Bicolor yellow and orange stripes	Vigorous semi-bush	IR: Sf	Decorative and fun, Blaze is larger than a true mini and has a bright, colorful pattern. Plant is a vigorous semi-bush that holds up late in the season. Productive.
6574DI400	TOUCH OF AUTUMN 	90	5" x 5", 2 - 4 lbs.	Medium orange, ribbed	Restricted	IR: Sf	Touch of Autumn has a slightly tall shape and will produce some smaller fruit in the 2 lb. range.
6088DI400	JACK SPRAT 	95	6" x 6", 3 - 4 lbs.	Medium-dark orange	Restricted	IR: Sf	Uniform with classic round shape. Slight ribs, perfectly rounded shoulder and long handle.
3871FI400	NEW BISBEE GOLD 	90	6 ½" x 6 ½", 6 - 7 lbs.	Dark orange, medium ribs	Semi-bush	HR: Sf	A lovely pie pumpkin that offers quality, productivity and a clean harvest. Dark handle is eye-catching to consumers. Fruit are easy to harvest from semi-bush plant.
9929DI400	LITTLE GIANT 	105	Round, 5" - 6", 2 - 4 lbs.	Dark orange	Semi-vine	IR: Sf	Small pie pumpkin with distinctive shape and a long, sturdy handle; lends itself easily to school groups. Fruit is very uniform in size and shape.

MEDIUM-LARGE *Listed By Size From Smaller To Larger - See Pricing On Page 107*

All medium and large pumpkins listed below are treated with Farmore® 400 seed treatment.

Code	Variety	Days	Fruit Size/HxW	Skin Color/Texture	Vine Type	Disease Reaction	Comments
4539	HERMES	90	10 - 12 lbs.	Dark orange, medium ribbing	Full	IR: Sf	This pumpkin is eye-catching and easy to love. 60 ct. size is easy to handle; growers will appreciate cookie-cutter uniformity, strong productivity and sturdy handle.
7629	ORANGE SUNRISE (Thiram Treated Only)	90	10" x 12", 12 - 18 lbs.	Medium orange, medium ribs	Restricted	IR: Sf	An early maturing pumpkin with a precocious background. Color develops darker than what is typically seen for precocious types; allow fruit to be fully mature for best color development. Uniform with nice, consistent, round shape. Fast maturity promotes use for gap fill and late plantings.
4769	EROS	95	15 lbs.	Dark orange, medium ribbing	Full	IR: Sf	Fast maturing pumpkin for late and catch-up plantings, Eros will help make up time for you! Eros fits into the 50-55 ct. class, has a sturdy handle and distinct ribbing.
6434	SECRETARIAT	105	15 - 20 lbs.	Medium orange, deep ribs	Medium	IR: Sf	Offers a truly unique and distinctive appearance with deep ribs and a slightly flat to round-flat shape. Handle quality is excellent; handles are thick and extra-sturdy. A fun complement for roadside markets.
8187	ZEUS	110	11" x 12", 16 - 20 lbs.	Dark orange, medium ribbing	Semi	IR: Sf, ZYMV	Fruit size lends itself to bin applications. Classic round shape and strong handle characteristics appeal to consumers everywhere.
4337	SPARTACUS	100	12" x 12", 18 - 22 lbs.	Dark orange	Restricted	IR: Sf	Spartacus produces dark orange 40 count class fruit. Growers like the eye-catching extra-large dark handle & blocky fruit.
3942F1400	JUSTIFY	95-100	20 - 25 lbs.	Dark orange, distinct ribbing	Full	IR: Sf	A companion to Secretariat, showing a rounder/more upright fruit shape and a bit larger size. Remarkably distinct ribbing and dark color are reminiscent of Secretariat. Heavy handle grabs attention!
6673	SPARTAN	100	20 - 25 lbs.	Dark orange, deep ribs	Restricted	IR: Sf	Combines dark orange color, flared handle, and distinct ribbing for a look that has plenty of "character." Notable for earliness in its size class. Our most commonly used "gap filler" pumpkin.
7833	BELLATRIX	105	14" x 12", 20 - 25 lbs.	Medium-dark orange, medium ribs	Restricted	IR: Sf	Bellatrix produces a consistent round shape with smooth shoulders. Trials have shown Bellatrix to be consistent in size and one to try for bin applications. Handle quality is good, with sturdy marketable handles.

Code	Variety	Days	Fruit Size/HxW	Skin Color/Texture	Vine Type	Disease Reaction	Comments
4336	SWEET BABY JANE	105 - 110	15 - 30 lbs.	Dark orange, medium ribbing	Full	IR: Sf	One of our favorites for size and reliability, Sweet Baby Jane has shown adaptability to set in warmer conditions. Fruit is distinctive with a long and sturdy handle and a blocky round to round-flat shape. Recommended spacing is no less than 18 square feet apart.
8755	RHEA	110	20 - 30 lbs.	Dark orange, deep ribs	Full	IR: Sf	With its round-flat shape and distinctly long handle, Rhea is a complement to Cronus in a smaller size. Showcases the dark orange color and well defined ribs.
8188	ARES	120	16" x 12", 22 - 28 lbs.	Dark orange, medium ribbing	Medium	IR: Sf	Tall shape is unique and satisfies those customers searching for a different look. Fruit is consistent in its appearance and sizing and sports a sturdy, long handle for easy carrying. Adds diversity to traditional orange pumpkin displays.
8190	KRATOS	115	14" x 13", 20 - 30 lbs.	Medium-dark orange, medium ribbing	Medium	IR: Sf	Good looking fruit is round to round-flat in shape and sports deep ribbing. Sizes well on a strong vine that promotes good yield. The thick handle will not disappoint!
3820 NEW	OLYMPUS	110	12" x 14", 25 - 35 lbs.	Dark orange, medium ribbing	Restricted	IR: Sf	One to try for reliable set and consistent yields in the 25 to 30 count class. Fruit is round to round-flat with a classic appearance and appeal; sturdy handle will not disappoint!
3819 NEW	ADONIS	110	14" x 13", 25 - 40 lbs.	Dark orange, distinctly ribbed	Restricted	IR: Sf	Adonis delivers on reliably producing tall/barrel shaped fruit that mimic the standards of dark color, distinct ribbing and sturdy handle popular in traditional round varieties. Distinctive long handle is sturdy and firmly attached.
7562	HULK	100	30 lbs.	Dark orange, medium ribbing	Full		Extra large pumpkin with unique tall fruit; lends variety and appeal to farm market displays. Handle well-suited to size of fruit; sturdy, dark green and embedded.
5477	CAPTAIN JACK	100	30 lbs. +	Dark orange, medium-deep ribs	Full vine		A specialty pumpkin for those wanting an extra-large pumpkin with an extra-large flared and embedded handle. Handle is about 4" in length. Will get your attention! Vines need extra space to maximize size. To maintain best handle integrity, cut the vine around the stem, leaving a nub where vine meets the stem.
9904	BIG DORIS	105	30 - 35 lbs.	Dark orange, deep ribs	Full vine		Plenty of deep ribs make Big Doris a standout in its size class. Round to tall fruit with a thick and embedded handle.
4583	LARGE MARGE	105	13" x 13", 30 - 40 lbs.	Dark orange, medium ribs	Full		One to try for larger fruit in the 18-20 ct. range. A nice package of dark color, dark green handle, and blocky round shape.
7878	BIG LORETTA	100	25 - 50 lbs.	Medium-dark orange, medium ribbing	Medium vine		A pumpkin to grow for that extra-large size, fruit can reach up to 50 lbs. in size. Matures early for its size class. Tall fruit is uniform in shape; handle is well-proportioned to size of fruit.
9484	CRONUS	115	25 - 60 lbs.	Dark orange, deep ribs	Full vine, needs 48 sq. ft./plant	IR: Sf	Looking for an extra-large pumpkin and lower bin count? Cronus makes round to round-flat fruit with an exceptionally long handle and distinctly flared attachment.

SPECIALTY *Great For Mixed Bins and Stacking! - See Pricing On Page 108*

Growing in popularity are stacking type pumpkins and mixed bins!
 Use our symbol to identify varieties suited to this type of market. Roadside or wholesale, color is getting attention in fall markets.

Code	Variety	Days	Fruit Size/HxW	Skin Color/Texture	Vine Type	Comments
9344	AUTUMN BUCKSKIN	110	10" x 16", 12 - 18 lbs.	Buff, slight ribs	Vigorous	An ornamental and versatile butternut; produces round and tall fruit for displays and also boasts high quality butternut-like flesh.
4023	NEW ENGLAND CHEDDAR	112	15 lbs.	Tan, round to flat	Full vine	Ornamental and edible, New England Cheddar produces tan fruit with light ribbing. Interior is dark colored, like a butternut, and can be used in the same way that butternuts are used in cooking. Tan color makes a nice addition to mixed bins.
8622 DI400	CINDERELLA 	100	6" x 15", up to 25 lbs.	Red	Vigorous	Popular favorite. Flat fruit known for its brilliant red color.
8665	CINDERELLA'S CARRIAGE	100	25 - 35 lbs.	Pink red - orange	Vigorous	A hybrid Cinderella type. Pink-red color is immediately appealing and eye-catching. Yields both round and flat fruit on a strong vine with IR: PM. Growers can expect a strong set.
6161	FAIRYTALE	125	8" x 13", 20 - 30 lbs., Flat	Dark green to buff, very deep ribs	Full vine	A full season variety, Fairytale needs a long season to mature to an attractive butternut-like color. Full-sized, immature fruit are green and are often sold and readily marketable. Fairytale is a favorite that yields characteristically flat, deeply ribbed fruit.
4180 FI400	HOT CHOCOLATE 	100	6.5" x 8", 5 - 6 lbs.	Dark tan, medium ribs	Restricted	A true tan pumpkin with a classic pumpkin look. Hot Chocolate is pie sized and fits right in with Sunlight. Great complementary look with oranges and whites and a great handle to match.
4385 DI400	GRIZZLY BEAR 	100	6" x 9" 5.5 - 10 lbs.	Carmel - tan	Full vine	Sure to be a consumer favorite, Grizzly Bear produces uniformly warty fruit and an appealing dark caramel color. Fruit is hard shell. Warts harden as the fruit matures, resulting in less bruising and better durability. Productive! IR: PM
3740	NEW SAND GHOST	105	7 - 12 lbs.	Medium tan	Restricted	Tan color in a true pumpkin with a true pumpkin handle to match. Distinct ribbing completes the look. Fruit carries a long and sturdy 5" to 8" handle, giving an all-around refined appearance. Produces uniformly sized and shaped fruit.
3758 FI400	NEW SPICY MOCHA 	100	15 lbs., round	Medium tan, distinct/deep ribs	Full vine	A tan pumpkin that offers larger size for bins. Fruit is uniformly colored with an attractive mocha color. Handle is thick; fruit is very distinctly ribbed.
8446	JARRAHDALE	100	6" x 12", 7 - 10 lbs.	Blue with ribs	Full vine	Australian type, both ornamental and edible. Known for its attractive blue color.
5236	MARINA DI CHIOGGIA	100	6" x 10", 10 - 12 lbs., Flat	Dark blue-green	Full vine	Ornamental and edible, Marina is in the Maxima family. Uniquely thick handle and rough rind. 1-2 per plant.
4216	INDIAN DOLL	100	20 - 24 lbs., Flat	Red	Semi-bush	Indian Doll is a deep orange-red companion to Porcelain Doll and Blue Doll. Fruit shape & color is attractive for stacking pumpkins and mixed bins. Distinctive square shoulders. Both edible and ornamental, Indian Doll is actually a squash that can be used much like a buttercup or a butternut. IR: PM and Downy Mildew
7728 DI400	BLUE DOLL 	100	20 - 24 lbs.	Blue with deep sutures	Full vine	Warty popular blue with great appearance and shape, strong shoulders and deep distinctive ribbing. Easily sizes to 20 lbs. Interior is a deep yellow-orange and can be used for baking and cooking. IR: PM
4386 DI400	SUNLIGHT 	95	5" x 6 1/2", 4 - 6 lbs., Slightly tall	Yellow	Semi-bush	Sunlight matures early to yield a concentrated set of gold-yellow pumpkins; makes a perfect trio with your favorite pie size orange and white. Fruit will size and color uniformly; fruit will darken from yellow to gold with sun exposure.

Code	Variety	Days	Fruit Size/HxW	Skin Color/Texture	Vine Type	Comments
6451 DI400	MELLOW YELLOW 	105	5 - 10 lbs.	Bright yellow, light-medium ribs	Restricted vine	A truly yellow pumpkin, featuring a brighter yellow color that makes a fun trio with white and traditional orange pumpkins. Fruit are uniform in shape with a consistent round shape and smooth, blocky shoulder. IR: PM
3988	LEMONADE	110	18 lbs., round	Yellow, medium ribs	Full	Fruit is a lovely golden yellow color. Productive and uniform, fruit is very uniform and can readily bin as a stand alone item if desired. Handle quality is excellent. IR: Sf
3987	FIREBALL	110	9 lbs., round-flat	Yellow & orange	Restricted vine	Fireball has a cream-yellow background with vibrant orange stripes for plenty of color appeal. Fruit holds well in the field, with stripes starting dark green in color and maturing over time to orange. IR: Sf. ZYMV
6653	ONE TOO MANY	110	14" x 14", 20 lbs., Round/tall	White with orange-red veins	Full vine	Very unique with some variability in size and shape. Always catches the eye! Strong vine. IR: Sf
5067	PEANUT PUMPKIN	100	Flat, 15 lbs. +	Pale pink-orange, peanut shell-like skin	Full vine	Called "Peanut" pumpkin for the resemblance of crushed peanut shells on its skin.
4370	PORCELAIN PRINCESS	100	7 - 10 lbs.	Pink, deep sutures	Full vine	The little sister to Porcelain Doll, Porcelain Princess shows the same pink color and same deep sutures as Porcelain Doll. Perfectly sized as a topper for stacking pumpkins. Also edible with deep orange flesh. IR: PM, DM
9923DI400	PORCELAIN DOLL	120	8 - 20 lbs.	Pink, salmon	Full vine	Unique pink color, Australian type fruit. Best pink color requires full season and optimum plant spacing of no more than 2,000/acre.
3950	JADE KNIGHT	100	7-10 lbs., flat	Blue-green, deep ribs	Full vine	Blue is popular! Blue-green color is a fall must-have! Attractive blocky shape and distinctive shoulders make Jade Knight easy to decorate with and easy to combine with other stackers. Also edible, with bright yellow interior much like a buttercup.
3933	JESTER	110	7-10 lbs., flat	Salmon/Red/Orange, deep ribs	Semi-full	Unique appearance in a small stacking pumpkin that defies being ordinary! Fruit is salmon-red with "rough" or bumpy skin, making it a colorful standout. Edible and ornamental, with a bright yellow interior.
4000	MINT PRINCE	110	7-10 lbs., flat	Light blue, deep ribs	Full vine	A companion to Porcelain Princess in size, Mint Prince is the smaller version of Blue Doll with the same blue color, ribbing, and fruit shape. Fruit is flat and ties right into the popular specialty and stacking trade.
6887 	RED EYE	110	18 lbs.	Red, white flecks	Full vine	Red Eye carries the brilliant red color popular for fall. Shape is round to round-flat. Both ornamental and edible.
6345	RED WARTY THING	110	14" x 14", 20 lbs.	Bright orange-red, warted	Full vine	Very hard, thick rind helps shelf life, unique appearance helps sales. <i>A must try for roadside!</i> Hubbard-like shape.
5235	SPECKLED HOUND	95-100	3.5" x 7", 4 - 5 lbs.	Pale orange-pink with blue green markings, flat	Restricted vine	Everyone likes unique! Speckled Hound's color combination of pale pink-orange mixed with green-blue "splotches" isn't found anywhere else! Edible, too. IR: ZYMV
3975 	ROUGE VIF D'ETEMPES OP	115	10 -15 lbs.	Red	Restricted vine	The traditional open-pollinated version for a red pumpkin, known for its flat shape and distinctly red color. Flat shape for easy stacking. Both ornamental and edible with an orange interior and mild flavor.

Code	Variety	Days	Fruit Size/HxW	Skin Color/Texture	Vine Type	Disease Reaction	Comments
9648	BABY BOO	90	2" x 3", mini	White, ribbed	Full vine		Novelty, pure white Jack-Be-Little type.
6076 DI400	CASPERITA 	90	3 1/2" x 4 1/2", mini 1 - 1 1/2 lbs.	White, ribbed	Semi-bush	IR: Sf, WMV	A bright white mini comparable to our Bumpkin in size. Holds white color well in the field. Vine is vigorous and strong.
3739 FI400	NEW SNOW DROP 	100	Round, 1 - 2 lbs.	Bright white	Restricted		A stunning baby white pumpkin! Fruit is smaller than Snowball in size with a bright white color that holds well in the field. Prolific, generally sets 8 fruit/plant. Limited seed for 2022.
3913 FI400	NEW ICICLE 	105	2 - 3 lbs.	White, medium ribs	Restricted	IR: Sf	Icicle is eye-catching with its heavy handle and distinct ribbing. Vine is a strong restricted vine, offering an upright plant with plenty of canopy to offer protection from the sun. Fruit holds color best if picked when mature and not left in the field.
9705 DI400	SNOWBALL 	90	2 - 4 lbs.	White, slight ribs	Vine	IR: Sf	Bright white with a round shape and a super long handle, Snowball is eye-catching and fits right into the "must have" category! Harvest when mature to protect from sun.
6343 DI400	COTTON CANDY 	110	8" x 10", 5 - 12 lbs.	White, slight ribs	Full vine		A "true" white pumpkin. Harvest pumpkins promptly when mature and store inside to avoid yellowing from sun exposure.
4174	FLAT STACKER	100	6" x 15"	White, ribbed	Restricted	IR: PM, ZYMV, PRSV, CMV	White pumpkins continue to be a customer favorite, and Flat Stacker is one to try for stacking and mixed bins. We liked the bright white fruit, the scalloped-style ribbing, and the productivity. Flat Stacker is also edible.
4161	BABY MOON	100	5 - 7 lbs., round	White, light ribs	Restricted		White pumpkin with a true pumpkin shape. White color is bright white and holds well in the field; fruit is consistent & uniform in both size and shape. Plant type is a strong restricted vine, offering good canopy cover.
8420 DI400	BLANCO 	110	4 - 8 lbs.	White, scalloped	Restricted		Bright white pumpkin with an appealing round to round-flat shape. Blanco holds its white color very well in the field.
4007	MOON BEAM	100	8 lbs., round	White. medium ribs	Restricted		A smaller version of Honey Moon. Moon Beam has a bright white color as well that holds well in the field.
4006	HONEY MOON	100	10 lbs., tall-round	White. medium ribs	Restricted		Taller shape and bright white color in a larger size pumpkin. Bright white color holds well and plant is a vigorous restricted vine that also provides canopy to protect fruit from discoloration. Will work well as a stand-alone item or in mixed bins.
9879 DI400	MOONSHINE 	110	8 - 12 lbs.	White, medium ribs	Medium		True pumpkin look with a handle to match! Handle is embedded and pairs well with size of fruit. Harvest when mature and protect from the sun.
5397 DI400	FLAT WHITE BOER 	120	6" x 12", 10 - 14 lbs.	White, ribbed	Full vine		A unique, flat, white pumpkin; this is a must-have for decorating! White color holds well. Part of the Maxima family, flesh is medium orange and is edible.
5376 DI400	SPECTER 	95	9-12" high by 9-12" wide, 15 lbs.	White, lightly warted	Semi-bush	IR: Sf	White fruit has a semi-hard shell and lightly warted. Uniform in shape and size with an easy-to-carry handle and plenty of eye appeal.
9111 DI400	NEW CRYSTAL STAR 	105	11" x 12", 25 - 35 lbs.	White	Full vine	IR: Sf	Crystal Star is a favorite for its ability to maintain its white color. Popular choice to fill both mixed bins and bins of 40 count white pumpkins.
7480	NEW MOON	80 - 90	16" x 24", 35 - 45 lbs.	Bright white, smooth	Full vine		This white pumpkin is uniform in shape and size! Maintains bright white color well and resists discoloration from sun exposure. Stores for 2 - 3 weeks after harvest. Fruit is heavy for its size.

CANNON BALL^

FIELD TRIP^

Code	Variety	Days	Fruit Size/HxW	Skin Color/Texture	Vine Type	Disease Reaction	Comments
6265	MUNCHKIN	100	½ lb., mini	Medium orange, ribs	Full vine		Munchkin is as cute as the name implies! Vines are productive and yield uniform, cookie-cutter like fruit.
6269 DI400	LIL' PUMP-KE-MON 	100	1 - 2 lbs., Flat mini	White, bright orange stripes, ribs	Full vine		<i>Eye-catching!</i> Miniature fruit is "flat" in shape and boasts colorful orange stripes on a white background. Unique for fall decorating!
6337 DI400	IRON MAN 	115	4 lbs., Round	Medium-dark orange	Restricted	IR: Sf	Iron Man's hard shell and smaller size makes it an easy choice for a painting pumpkin. Iron Man has a sturdy handle that complements its look and makes it easy to carry and handle.
9556 DI400	MISCHIEF 	105	2 - 4 lbs., Tall, round	Dark orange	Semi-vine	IR: Sf	Mischief has a unique appearance and yields slightly tall fruit. Strong fruit set and uniformity. Appealing as well, with its distinct ribs and great handle.
6622 DI400	CANNONBALL 	110	5 lbs., Round	Dark orange, slight to medium ribs	Full vine	IR: Sf	Pie size fruit complements any pumpkin line-up! Fruit is round and smooth with a heavy handle for its size. Vigorous plant yields well.
9017 DI400	FIELD TRIP 	100	5 - 7 lbs., Round to round-flat	Deep orange, distinct ribs	Restricted vine	IR: Sf	Perfect for school trips to the pumpkin patch! Uniform fruit is round-flat in shape with a distinctive long handle. Plenty of ribs give jack-o-lantern type character to an easy-to-handle smaller fruit.

PUMPKINS

HARRIS MORAN

Listed By Size From Smaller To Larger - See Pricing On Page 107

All pumpkins listed below are treated with Farmore® 400 seed treatment.

PLEASE NOTE GEOGRAPHIC RESTRICTION:

Due to vendor licensing agreements, pumpkins listed under this section CANNOT be sold in New England, New York, and Pennsylvania. SEEDWAY regrets any inconvenience to our customers.

GLADIATOR^

MAGICIAN^

MAGIC WAND^

MAGIC LANTERN^

ALADDIN^

APOLLO^

Code	Variety	Days	Fruit Size/HxW	Skin Color/Texture	Vine Type	Disease Reaction	Comments
6268	MAGICIAN	110	8 - 16 lbs., Round	Dark orange, distinct ribs	Restricted vine	IR: Sf, ZYMV	A standout with dark color and distinct ribs! Fruit size varies and lends itself to variety for roadside stands. Fruit is round to slightly flattened.
9285	MAGIC LANTERN	110	15 - 25 lbs., Round	Dark orange, medium ribs	Semi-bush	IR: Sf	Classic dark orange and round fruit is easy to harvest from bush-like plants.
8481	MAGIC WAND	110	15 - 25 lbs., Round to round-flat	Dark orange, heavy ribs	Semi-bush	IR: Sf	A standout for heavy ribbing on round to slightly flat fruit. Fruit is uniform in size and shape. Handle is heavier than Magic Lantern. Vigorous bush.
6493	GLADIATOR	115	15 - 25 lbs., Round	Dark orange, distinct ribs	Restricted vine/semi-bush	IR: Sf	The perfect roadside pumpkin and the industry standard. Decorative dark orange color, distinct heavy ribs, and thick sturdy handle complete the look!
5461	APOLLO	110	18 - 32 lbs., Round to tall	Medium-dark orange, Medium ribs	Semi-vine	IR: Sf	A complement to Aladdin with improved handle size and handle attachment. Surface is slightly rough.
9354	ALADDIN	110	25 - 35 lbs., Tall	Medium-dark orange, medium ribs	Restricted vine/semi-bush	IR: Sf	Reliable and productive, fruit is similar in color and handle quality to Magic Lantern but is larger in size.

RADICCHIO

Listed By Size From Smaller To Larger - See Pricing Below

Code	Variety	Days	Comments
6793NT	INDIGO	68	Early maturing with intensely colored, round 5" heads. The compact plant is quite uniform. Indigo is the best choice for spring seeding and is widely adapted.
9840	LEONARDO	81	The large, vigorous plant produces dark red, large heads. Best for fall crops.

Code	Variety	Days	Color	Top	Comments
9738	ROXANNE	24	Dark red	Medium	Very flexible hybrid radish that is a AAS winner. Can maintain flavor even past maturity. Great choice for any home gardener who wants a great flavor radish with beautiful presentation. IR: Hb
4347	DONATO	25	Red	Medium-short	Shows great tolerance to Rhizoctonia, Aphanomyces, Downy Mildew, Fusarium and other foliar disease. It is a flexible and uniform radish that can be used for cello, slicing and bunching. Great for spring and summer growing windows.
9457	CRUNCHY ROYALE	25	Dark red	Medium-short	Great for bunching or cello packs, very uniform roots, and grows well under cooler conditions.
5023	ROVER	25	Deep red	Medium-long	Excellent heat tolerance allows for production of uniform, round radishes with deep red skin and white interior even in the heat of summer. Good for bunching and cellos. Very good field holding ability, makes larger size for jumbos.
6898	RED CASTLE	25	Deep red	Medium	Features excellent root quality with superior yields. For bunching, slicing and cello. HR: Rs IR: Pp
8582	FIREBALL	25	Dark red	Medium-tall	Performs well in warm weather, with dark red bulbs. Very uniform hybrid and has a medium-tall top at about 3.5 inches.

RED PEARL^

MINOWASE SUMMER CROSS^

RED MEAT^

Code	Variety	Days	Color	Top	Comments
7843	MELITO	26	Bright red	Medium	Melito has widespread adaptability, looking beautiful and uniform in most soil types in both warm and cool weather. It has excellent internal quality, thick skin, and is perfect for bunching. Strong and erect short tops ideal for the bunching market. IR: Downy Mildew
6111	RED PEARL	27	Red	Medium-short	Early variety with good internal quality. Excellent round shape and high resistance to downy mildew. This variety has short tops and can be used for bunching, cello or slicing. HR: Pp IR: For R: Downy Mildew and Fusarium
6897	RED SATIN	27	Glossy red	Medium	Uniform hybrid with excellent field holding. Tops are medium height and can be used for bunching, cello, or slicing. Very white interiors and thick cuticles. IR: Ar, Rs
8753	MINOWASE SUMMER CROSS	55	White		This widely grown hybrid daikon is intended for sowing in warm weather and maturing in cool. It will hold without getting weedy, pithy or bolting.
9850	RED MEAT	60	White with pink interior	Very tall	This reliable watermelon radish grows to golf ball size and has a smooth, light green, and white skin with a tasty red interior. Mostly for summer and fall season and stores well. Space like daikon or other winter radishes, 4-5" apart.

SPINACH **SPECIALTY** *Listed In Order Of Vigor - Fastest Growing First - All Work For Baby And Full Leaf Unless Noted - See Pricing On Page 112*

Code	Variety	Pucker/Savoy	Warm/Hot	Cool/Cold	Disease Resistance	Comments
5474	ASHLEY	semi savoy		X	IR: Wo HR: Pe 1-10,15	This dark green variety is widely adapted for both baby leaf and larger bagged leaves. Ashley is a favorite variety for warm weather, especially favored when growing in hot sandy soils. Field resistance to White Rust.
7848	SIoux	slight savoy	X	X	HR: Pe 1-15, 17, 19	Sioux is proving to be widely adapted, looking great everywhere we have seen it. It is dark green, with very thick, supple leaves and a medium savoy. It will grow full sized if needed, although it is mostly used for baby leaf. This is your best choice for warm and hot weather.
9669	BANJO	slight savoy	X	X	HR: Pe 1-12,14-16, 19	Banjo is an all-around reliable choice for all but the warmest seasons. Consistent leaf shape and stem length, coupled with a dark green color, makes this a very attractive variety. Longer stems are good for bunching. The leaves are backrolled, adding to volume and keeping the leaves from sticking together. It has an unusually thick leaf for a fast-growing spinach.
9679	PIANO	flat	X	X	HR: Pe 1-12	Nice, dependable, flat leaf spinach with a dark green, backrolled, round-oval leaf for extra volume. The stems are long for easy cutting. Medium vigor. Used for baby, teen, and bunched.
7702	SV2146VB	semi savoy	X	X	HR: Pe 1-13, 15, 16	This dark green and slightly savoyed variety is an excellent choice especially where leaf spot is an issue. It has a perfect oval leaf. It is good from spring to late fall, since it handles heat well. It is medium-slow growing so it has a thick leaf.
6104	FLAMINGO <i>Oriental type</i>	nearly flat		X	R: Pfs: 1-11, 13 IR: 12	This specialty type is preferred by some Asian markets. The large leaves are mostly triangular in shape and the stems are magenta "Flamingo" colored near the base.
4820	MEERKAT				HR: Pe:1-15, 17	Oval, flat leaf, vigorous, for spring, fall and fall processing.

GREEN ZUCCHINI HYBRIDS

Listed By Maturity - See Pricing On Page 117

CASH MACHINE^

EVERGLADE^

RENEGADE^

SPINELESS BEAUTY^

RESPECT^

Code	Variety	Days	Shape	Color	Plant Type	Disease Reaction	Comments
5334 DI400	CASH MACHINE 	42	Cylindrical	Medium-dark green, light flecking	Semi open, upright	IR: Px, ZYMV, WMV, PRSV	Cash Machine produces very high quality medium-dark green zucchini with light flecking and a small blossom scar. Cash Machine sets fruit prolifically on a compact to medium, upright, semi open plant, and when combined with its excellent disease package, promises to deliver high yields of uniform fruit.
6522 DI400	EVERGLADE 	43	Cylindrical	Medium-dark green, light flecking	Open	IR: CMV, WMV, ZYMV, Px	Everglade is a medium-dark green zucchini for the Eastern U.S. market with robust virus and disease resistance and strong yield capability. It features an open, upright plant and offers improved fruit quality with desirable color and flecking.
8849 DI400	SPINELESS BEAUTY 	43	Cylindrical	Medium-green, heavy flecking	Open		Easy harvest and minimal fruit scarring. A consistent performer for yield and high quality glossy fruit.
4214 DI400	RENEGADE 	44	Cylindrical	Medium-dark green, light flecking	Open, erect	R: Px, PRSV, CMV, ZYMV	High quality medium-dark green fruit with light flecking. High yielding. Early male flowers help with early yields. Open and erect plant. Minimal spines on petioles. Strong disease package helps ensure longer harvests.
4437	CARDEA	44	Cylindrical	Medium-dark green	Open	HR: ZYMV IR: Px	Cardea performs reliably with very strong vigor and medium-short internodes and tall plant for long production cycles and extended harvest period. Very high yield potential. Uniform in size and shape.
9663 DI400	GREEN ECLIPSE 	44	Cylindrical	Dark green, glossy, light flecking	Open bush, compact		Fruit twists off with few breaking, very high yield, may be earliest and most productive.
5469 DI400	SPINELESS PERFECTION 	44	Cylindrical	Medium-dark green, light flecking	Open, upright	IR: WMV, ZYMV	Comparable to Spineless Beauty in shape with more refined flecking and darker green color. Spineless plants promote less bruising at harvest time.
8779 DI400	RESPECT 	44	Cylindrical	Medium-dark green, light flecking	Open, upright	IR: PRSV, WMV, ZYMV	Plant is nearly spineless and yields smooth fruit that is lightly flecked with a refined appearance. Well adapted to growing in the East and meeting market trends for color and appearance.

PLEASE NOTE: The "GE" designation refers to varieties that have been genetically engineered. PLEASE NOTE: GE varieties are NOT available for shipment to Vermont and/or other states restricting, or considering restricting the sale of GE items; or mandating comprehensive reporting requirements. GE squash purchases require a license number.

GREEN MACHINE^

SPINELESS KING^

PAYCHECK^

Code	Variety	Days	Shape	Color	Plant Type	Disease Reaction	Comments
6172 DI400	PAYROLL 	45	Cylindrical	Medium-green, medium flecking	Open bush	IR: WMV, ZYMV	Very smooth fruit, attractive. Reduced spines and a good disease package.
9029 DI400	PAYCHECK 	45	Cylindrical	Medium-green, heavy flecking	Open bush	IR: ZYMV, WMV, CMV, Px	Attractive and uniform fruit with a glossy appearance. Upright, open plant with reduced spines. Comparable yields to Payroll, but with an earlier harvest. Minimal fruit damage during harvest helps reduce loss and maximize harvest.
5483 DI400	SPINELESS KING 	45	Cylindrical	Medium-dark green, light flecking	Open, upright	IR: WMV, ZYMV	Combines productivity with great qualities for easy harvest - strong open bush, spineless plant, and firm fruit. Shows the medium-dark color the market demands as well as a glossy, fresh appearance.
6691 DI400	LEOPARD 	45	Cylindrical	Medium-green, light flecking	Open	IR: PRSV, ZYMV	Reduced wind breakage. High quality fruit that is easy to pick! Glossy, medium green color.
8570 DI400	GREEN MACHINE 	46	Cylindrical	Medium-dark green, light flecking	Open, upright	IR: CMV, WMV, ZYMV	Early and productive, Green Machine produces smooth cylindrical fruit that are lightly flecked. An easy fit for quality and color in Eastern markets. Maintains even cylindrical shape as fruit sizes up.

SUMMER SQUASH YELLOW STRAIGHTNECK HYBRIDS *Listed By Maturity - See Pricing On Page 117*

Code	Variety	Days	Shape	Color	Plant Type	Disease Reaction	Comments
4609 DI400	SMOOTH CRIMINAL 	42	Straightneck	Yellow, Green stem	Vigorous		Upright growth habit making easier picking as the season progresses. Reduced spines will cause less scarring at harvest time.
5562 DI400	GOLDPRIZE 	42	Straightneck	Yellow, Green stem	Open	IR: ZYMV, WMV	Goldprize delivers a very productive, high-quality yield with the advantage of improved yellow color in smaller fruit that consumers demand. Higher yields for better profitability.
9801 DI400	LAZOR 	42	Straightneck	Light yellow, Green stem	Vigorous bush	IR: ZYMV	Exceptionally firm, smooth fruit alleviates some of the "roughness" typical of first picks. Thick and sturdy neck promotes easy handling. Attractive glossy skin.
6584 DI400	GRANDPRIZE 	42	Straightneck	Deep yellow, Green stem	Vigorous bush	IR: ZYMV, WMV, Px	Grandprize is a straightneck squash variety that produces high quality fruit with a glossy, deep yellow appearance and green peduncle. It boasts an enhanced disease package and vigorous plant that delivers solid yield performance over other yellow straightneck varieties.
8853 DI400	ENTERPRISE 	44	Straightneck	Yellow, Green stem	Vigorous bush		Vigorous, high yielder with green stem.
9342 DI400	LIONESS 	52	Straightneck	Light yellow, Green stem	Vigorous	IR: PRSV, WMV, ZYMV	Green stems, unique plant. Pretty smooth and glossy fruit gives a fancy look.

BUTTERNUT *Listed By Maturity - See Pricing On Page 123*

Code	Variety	Days	Shape (WxL)	Exterior Color	Plant Type	Comments
9120 DI400	AVALON (Hybrid) <small>FARMORE Expert Select</small>	88	4" x 7 - 9", 4 lbs.	Tan	Vigorous vine	Consistently produces strong yields and maintains good shape and uniformity. A standard for boxing.
3875 FI400	NEW CERES (Hybrid) <small>FARMORE Expert Select</small>	90	4" x 9 - 10", 3.5 - 4.5 lbs.	Tan	Full vine	A new early boxing type, Ceres reliably produces fruit that is consistent in size and shape for a clean harvest. Fruit is smooth with no ribbing. Intermediate resistance to Powdery Mildew.
9481	ULTRA HP (Hybrid)	90	4" x 16", 8 - 9 lbs.	Light tan	Strong vine	Originally produced to lower inbreds and off types in Ultra. Off season production in South and Mid-South. Uniform. Long neck, larger size.
6317 DI400	ATLAS (Hybrid) <small>FARMORE Expert Select</small>	100-110	5 1/2" x 13", 7 - 11 lbs.	Tan	Restricted vine	Fruit is larger than Waltham, making it perfect for peeling. Thick neck, exceptional uniformity and quality.
4645 DI400	PRISM (Hybrid) <small>FARMORE Expert Select</small>	90-95	2.5 - 3 lbs.	Tan	Restricted vine	Boxing type consistent in size and shape; boxes cleanly and is a nice fit for early season sales. Fruit are straight and produce few culls. Restricted vine lends itself to tighter plant populations

WINTER SQUASH

BUTTERNUT *Listed By Maturity - See Pricing On Page 123*

Code	Variety	Days	Shape (WxL)	Exterior Color	Plant Type	Comments
5372	LAUDA (Hybrid)	95	4" x 9", 3.5 - 4.5 lbs.	Tan	Restricted vine	Offers early main season maturity and productivity for the boxing trade.
5371	PAULA (Hybrid)	95	4" x 9", 3.5 - 4.5 lbs.	Tan	Restricted vine	Uniform and productive; boxes easily and has performed well in production areas in New England.
6780 DI400	GRANITE (Hybrid) 	95	3.5" x 10", 3 - 3.5 lbs	Tan	Restricted vine	A nice package of uniformity and productivity for the boxing trade. Fruit is smooth with little to no ribbing and carries a refined shape that boxes easily.
6440	YUKON (Hybrid)	100	4" x 11.5", 4 - 6 lbs.	Tan	Full vine	Good size and nice orange flesh. With a longer neck, it can be used as a larger fresh market type or a processing type. This variety has great uniformity and size. Yukon is suitable for short day production.
6043 DI400	POLARIS (Hybrid) 	100 - 105	4" x 9", 3 - 4 lbs.	Tan	Strong vine	Traditional shape comparable to Waltham. Fruit is uniform in size and shape and has shown good tolerance to cracking.
4320	GENESIS (Hybrid) 	100 - 110	4" x 14", 5 - 7 lbs.	Tan	Full vine	Genesis is a processing type with a uniform shape that consistently produces a long, straight neck and few culls. Fruit is largely smooth; you will see light ribbing. HR: Px
5108 DI400	QUANTUM (Hybrid) 	110	5" x 10", 3 - 5 lbs.	Light tan	Strong, vigorous vine	Fresh market boxing-type squash. Very uniform in size and shape with a very thick neck and small seed cavity. Growers will appreciate vigorous vine.
4198 FI400	NEW  WALTHAM SENECA STRAIN (Hybrid) 	110	4" x 9-10", 3 - 5 lbs.	Tan	Full vine	Waltham is a standard in the industry and a favorite among growers and home gardeners alike. Waltham is an OP variety; the strain featured here as the Seneca strain is bred in New York and is offered as a uniform version of an old favorite. Dark interior color.
8708 DI400	WALTHAM BUTTERNUT 	110	3" x 9", 3 lbs.	Tan	Full vine	A standard in the industry. Popular favorite among growers and home gardeners alike.

LOOK FOR THE BIN SYMBOL!

Use our symbol to identify varieties suited to this type of market. Roadside or wholesale, color is getting attention in fall markets.

Code	Variety	Days	Shape (WxL)	Exterior Color	Plant Type	Comments
8870	SWEET DUMPLING	100	4" x 3 1/2"	Cream, green stripes	Restricted vine	Ornamental type with delicious, sweet flavor. Heavy yields on a vigorous vine.
9701	DELICATA	100	3" x 7"	White, green	Standard vine	Fine grained, sweet and tasty, stores well, specialty.
7486	HEAVENLY HUBBARD (Hybrid)	100	14" x 18", 23 - 30 lbs.	Blue-grey	Vigorous full vine	A new introduction based on an old New England favorite! Thick, fine textured flesh with sweet flavor. Hubbard type.
6647 DI400	LA ESTRELLA (Hybrid Calabash) 	70-100	14" x 14", 6 - 10 lbs.	Mottled green and tan	Med-large vine	Also known as Calabaza, Cuban pumpkin and many other names. Size varies on growing location: 6 lbs. in Northern areas, 10 lbs. in the South.
9655 DI400	 RED OCTOBER (Hybrid) 	100	6 - 10 lbs.	Red	Full vine	Striking red color is the hallmark of this variety! This smaller hubbard type exhibits productivity and uniformity and easily finds its way into ornamental applications.
6175DI400	BUSH DELICATA 	105	3 1/2" x 7"	White, green	Bush	Bush version of the original full vining Delicata. Same sweet, delicious taste. Holds white color well. Space saver. Expect 4 to 6 fruits per plant. IR: Sf
9932	 CUSHAW GREEN STRIPE	110	10" x 17", 10 - 14 lbs.	Cream, green stripes	Vigorous full vine	Long neck with a bulbous end. <i>Excellent ornamental!</i>
9423	 CUSHAW ORANGE STRIPE	110	9" x 15", 8 - 12 lbs.	Cream, orange stripes	Vigorous full vine	<i>Ornamental!</i> Striking contrast of bright orange and creamy white striping.
8866	 GOLDEN HUBBARD	110	9" x 11", 10 - 12 lbs.	Red-orange	Vigorous	A companion to Blue Hubbard with brilliant red-orange rind. Deep orange, with dry tasty flesh.
8868	 HUBBARD BLUE	110	7" x 12", 7 - 10 lbs.	Blue	Full vine	Traditional favorite with bumpy, warted skin and known for its storability. Medium-dry with yellow- orange interior.

SPECIALTY TYPES

Listed By Maturity - See Pricing On Page 124

Code	Variety	Days	Shape (WxL)	Exterior Color	Plant Type	Comments
4185	AUTUMN FROST (Hybrid)	100 - 105	Round	Dark Tan	Medium vine	Uniquely ribbed, round fruit ripens to dark tan with a frosted overlay. Fruit is similar in taste to a butternut, with superior quality, rich flavor and a shelf life of up to 4 months after maturity, allowing for a supply of high-quality fruit throughout the winter season. IR: Pm
5367	BUTTERBABY (Hybrid)	100 - 105	3 - 4" x 4 - 6", .5 - 1.5 lbs.	Tan	Restricted vine	A true mini butternut with a traditional shape and rind color. Fruit stores for four months. We like the productivity, consistent quality, and sweet taste.
9091 DI400	BUTTERKIN (Hybrid) 	105	6" x 4"	Tan	Full vine	Specialty item ideal for discerning consumers. Very dark interior, deliciously sweet and smooth in texture. A perfect personal or family size butternut.
7717	HONEYNUT (Hybrid)	120	2.5" x 5"	Dark tan	Restricted vine	A mini or personal size butternut weighing in at about 1 lb. in size. Flesh is sweet and dark in color. This is a long season variety, and we recommend planting early.

SWISS CHARD

See Pricing Below

Code	Variety	Days	Days are to full size. For baby, most will be between 24 and 30 days.
5161	BALI	45	Glowing crimson red stems and broad veins are eye-catching in contrast to the green, glossy leaves. Vigorous for full size.
7555	FIRE FRESH	25 - 35	This magenta-stemmed chard is bred (and priced) for baby-leaf use. Grown larger it is also good in braising mixes. Fire Fresh has a very clean look, with bright contrast between the magenta stems and medium green leaves. Growth is erect with even length stems for machine harvest. HR: Cb IR: Pfb(1)
5487	CELEBRATION	58	Multi-colored chard with exotic dark orange, crimson, burgundy, and gold colors with nicely savoyed leaves. A true genetic mix, you may get two colors from each seed pod. This translates to more even germination and growth between colors.
3732NT	NEW RED WING		This new, chard has intensely dark cranberry ribs and a very dark green leaf. It is slow growing for excellent texture and shelf life. It stays clean looking, grows upright, and is slow bolting. It works great grown hydroponic.
8108NT	BRIGHT LIGHTS	55	Alternative to Celebration, Bright Lights displays bright colors of gold, pink, orange, purple, red, and white. Bright Lights is a mix, so be careful when thinning to not favor only the most vigorous plants.
4260NT	CHARSANO RZ	55	This new green and white chard shows improved resistance against Cercospora Leaf Spot. It is fast growing and uniform for baby leaf use
8356	RUBY RED/RHUBARB	55	Delicious stalks that resemble rhubarb. Excellent for fresh market, full size, and also used for baby leaf.
9546	SILVERADO	60	Dark green, heavily savoyed leaves with broad, white stems. Compact for easy packing. Slow bolting for full size.

CAMARO^

Code	Variety	Days	Size/Shape	Plant Type	Disease Reaction	Comments
7635Z	CAMARO	72	8 - 10 oz., globe	Medium, compact	HR: Fol (1,2,3), Vd1 IR: Ss	Camaro produces early maturing, extra-large, firm, red, globe shaped fruit on mid-compact determinate plants. The setting capability and size throughout the plant will increase yield potential for growers. Due to the plant habit, pruning is either unnecessary or should be light. The deep red fruit have smooth shoulders and will perform well for both vine-ripe and mature green growers.
7544Z	JOLENE	73	8 - 10 oz., globe	Medium, good cover	HR: Fol (1,2), For, Va, TYLCV	Produces attractive large to extra-large fruit with deep dark interior on a determinate plant. Early maturing, fruits are firm with a clean blossom end and uniform smooth shoulders. Jolene is an adaptable variety that works well across multiple slots and is suitable for mature green or vine ripe production.
4511	STM 2255	73	8 - 10 oz., deep oblate	Medium	HR: Fol (1,2), For, Va1, Vd1 IR: Ss, TSWV, TYLCV: Is	Versatile and adaptable variety with high yield potential and good vine-ripe flavor. Fruit is an attractive red color, firm and has a good shelf life.
3948	THUNDERBIRD	74	8 - 12 oz., oblate	Medium-tall, good cover	HR: Aal, Fol (1,2,3), For, Va:1, Vd:1 IR: Sbl, Sl, Ss, TYLCV: Is*	Thunderbird is an improved quality, high yielding determinate round variety with a strong plant and good disease resistance. The plants have a good balance of cover and ease of harvest. Fruit are extra-large in size, very firm, with good shelf-life.
6460	BHN 589 	74	8 - 10 oz., deep oblate	Tall, robust	HR: Fol (1,2), ToMV, V	Recommended for roadside and high tunnel. Smooth fruit have exceptional taste combined with firm texture!
7542	MOUNTAIN GEM	74	8 - 10 oz., deep oblate	Medium, strong	HR: Fol (1,2), ToMV, Va, Pi, TSWV	The newest late blight, TSWV resistant crimson hybrid from Dr. Randy Gardner, NCSU Professor Emeritus. Vigorous determinate plant bears high quality, deep oblate to flattened globe shaped firm fruit. High yielder with extra-large fruit and clean blossom ends. For market growers and commercial production. Excellent Flavor!
3910Z	HM 8148	74	10 - 12 oz., globe	Large, good cover	HR: Va, Vd, Fol (1,2,3), For, Ss IR: Ma, Mi, Mj, TYLCV	Consistent performing main season variety for the Southeast. Growers will be impressed by its strong plant and high yield potential, not to mention its intense red color which makes it well suited for mature green markets.

Code	Variety	Days	Size/Shape	Plant Type	Disease Reaction	Comments
6851	SWEETHEARTS	59	½ oz.	Indeterminate	R: Ff:A-E, Fol (1), ToMV: 0-2 IR: Ss	Industry leader for its combination of yield along with a sweet flavor, excellent red color and good resistance to cracking. Continuous setting with full clusters throughout the plant, excellent shelf life.
7552	RUBY CRUSH	60	½ - ¾ oz.	Vigorous, determinate	HR: Fol (1,2), For, ToMV: 0-2 IR: Ss	Ruby Crush is blazing a new trail in the tomato world! It works in a container, it shines in the field, and the sugary-acid balanced fruits resist cracking, unlike other determinate grape varieties. Plants are strong with good leaf cover preventing sun damage. The compact plants can be grown with minimal support (2 foot high fence trellising or standard tomato cage).
4367	GOLD SPARK	65	½ - ¾ oz.	Indeterminate	HR: ToMV: 0-2, Pf: A-E IR: Sbl, Sl, Ss	Blocky, yellow fruit with very good flavor. Widely adapted and outstanding yields.
3827	NEW RED CORAL	68	½ - 1 oz.	Determinate	HR: Pst, Fol:0,1 IR: Ma, Mi, Mj, TSWV:TO, TYLCV	High quality uniform sized cherry fruits. Very good disease resistance package for optimal product health. Good flavor and Brix all the way to the consumer
5454	BHN 784	68	½ oz.	Determinate	HR: Fol (1)	Comparable to BHN 785 with hot set ability.
3927Z	NEW ALEGRIA	69	½ - ¾ oz.	Determinate	HR: Fol (1)	Alegria will impress any grower who seeks a high yielding determinate grape variety with exceptional quality and flavor. This variety consistently produces high quality fruit across a wide range of growing regions. Alegria is extremely adaptable, which makes it very grower friendly. Not to mention, its ability to withstand cracking gives it an extended shelf life.
6746	SMARTY	69	½ - 1 oz.	Indeterminate, short internode	R: Fol (1), V	25% shorter plant than Santa with the same good taste. Nice, firm, glossy fruit with good flavor.
7721	MOUNTAIN VINEYARD SEEDWAY EXCLUSIVE	71	½ oz.	Indeterminate	HR: TSWV, Fol (3)	Deep red, uniform fruit. No yellow halo around the petiole. Excellent yield and disease package.
3983	OLENE	71	½ - ¾ oz.	Indeterminate	HR: Vd, Fol (1,2,3), ToMV, For, Pst IR: Mj, TSWV	Olene has intensive color, excellent flavor and high sugar. Firm fruits with attractive shape along with consistency of size and flavor. The variety has strong vigor that makes it suitable for long season.

Code	Variety	Days	Size/Shape	Plant Type	Disease Reaction	Comments
7663	BRAVEHEART	60	¾ oz.	Compact, indeterminate	HR: Ff (a-e), Fol1, ToMV 0, 1 IR: Ss	Deep red, richly flavored fruit are firm and slow to split. The medium-large sized fruit ripens in clusters, making it fast to harvest. While Braveheart is priced to work for garden plant sales, it has the productivity and firm fruit that professional growers appreciate.
5007	GOLDI (golden yellow)	63	¾ oz.	Large, indeterminate	IR: ToMV, F	Very good flavor with uniform, firm fruit. Very productive and crack resistant.
6069	SWEET TREATS (pink)	65	1 oz.	Large, indeterminate	HR: Ff (a-c), Fol 1, ToMV IR: Ss	The wonderful flavor of Sweet Treats is complemented by a lovely dark pink color. Productive and crack resistant. Firm enough for retail; unique for plant sales. The larger fruit size speeds up picking.
4365	ORANGE ZINGER	67	1.5 - 2 oz., 1 ½" - 2"	Indeterminate	HR: F1	Crack resistant variety with big yields. The high-quality tasty, dark orange tomatoes have big tomato flavor with a balance of sweet and tangy.
3923Z	NEW JUICY	68	¾ - 1 oz.	Determinate	HR: Fol (1)	High yielding determinate cherry with manageable plant. Fruit are uniform, attractive, and have improved flavor. Its field holding capabilities enables growers to leave the fruit on the plant longer than other varieties.
5181NT	CHOCOLATE CHERRY (OP)	70	1 oz., 1" - 1 ⅓"	Indeterminate		Unique cherry "heirloom" type. Sweet and delicious, Chocolate Cherry has gourmet quality and produces 8 fruit per cluster. Grower friendly-fruit are crack resistant and holds well on plant.
9716	SUPER SWEET 100	70	1 oz.	Indeterminate	HR: Fol (1), V	This home garden favorite produces large cascades of sugary sweet, small cherry tomatoes.
4366	MIDNIGHT SNACK	73	1 oz.	Indeterminate		Sure to capture attention at retail and farm stands! Productive all season, yielding fruit that are well balanced and flavorful. Great in salads or right off the plant, Midnight Snack is a guilt free treat anytime, day or night.
5473NT	MOUNTAIN MAGIC (Cocktail type)	74	2+ oz.	Compact, indeterminate	HR: Fol (1,2), Pi, V IR: As	An excellent choice not only for its one-of-a-kind disease package, but also for its remarkably sweet flavor and long shelf life. Expect uniform fruit that is crack resistance. Early and Late Blight resistant! Just large enough to slice for a sandwich , or if left unpruned, can be used as a large cherry.
7743	CHOCOLATE SPRINKLES	75	1.5 - 2 oz.	Indeterminate		Unique dark red with green stripe exterior and purple flesh color. Produces more fruit with better flavor than similar O.P. varieties.

Code	Variety	Days	Size/Shape	Comments
9377	CHEROKEE PURPLE	72	12 - 16 oz., oblate	Cherokee is one of the earliest large-fruited heirlooms to mature. The fruit are colored with a combination of purple, black, brown, red, and green both inside and out. Compact plant.
8423OR	GREEN ZEBRA	75	4 - 8 oz., oval to round	An easy heirloom to grow because the fruit are smaller and smoother than most. Dark green stripes on yellow-green background with a tangy flavor.
9635NT	"RIVIERA" CUORE DI BUE 	75	4 - 6 oz., fig shape with deep pleats	From Italy, this is an improved strain of oxheart tomato. It is very fleshy with deep lobes but a relatively small blossom scar. It is an exceptionally heavy yielder in high tunnels. There is very little gel, so Riviera is good for stuffed tomatoes or for sauce. In the tunnel you can expect few to no culls.
9375	BRANDYWINE PINK 	78	1 lb. or more, oblate	Considered by many to set the standard for rich tomato flavor in heirloom tomatoes, Brandywine has an attractive "potato leaf" plant.
7893	PINEAPPLE PREMIER 	80	12 oz. and up, oblate	Our variety of Pineapple has a wonderful citrus, fruity flavor and meaty texture. The flesh has large streaks of rose and lemon-yellow colors. It keeps producing longer than many other heirloom varieties.

TOMATO GREENHOUSE-TUNNEL-ROOTSTOCK INDETERMINATE VINE *See Pricing On Page 139*

Code	Variety	Size/Shape	Disease Reaction	Comments
5537NT	BIGDENA 	8 - 10 oz.	IR: Fol (1,2), Ff (1-5), For, ToMV (0-2), V, TMV: 0	73 days to maturity. Most tomatoes bred specifically for greenhouse culture have the smaller type fruit popular in Europe. Bigdena combines large fruit with a fancy greenhouse look, unlike other greenhouse varieties which are mostly smaller fruited varieties. Mostly smooth with a small stem scar. The fruit are firm with very good flavor. In tunnels, it is a week later than the earliest varieties but is an overall heavy yielder.
9557X	ARNOLD rootstock 		HR: Ff: 1-5, Fol: (1, 2), For, V, ToMV: 0-2 IR: PI / M	Arnold has the disease resistance you are looking for in rootstock with an easy-to-grow seedling. The seed germinates well, evenly and quickly. Arnold is vigorous when it comes to fruit set and seedling growth but produces a manageable, open plant that is not overly vegetative. It works well with heirlooms in high tunnels.
6412	MAXIFORT rootstock 		IR: Ma, Mi, Mj	Gives growers maximum production and crop performance potential until the end of the crop, providing extra power for long seasons.

BIGDENA^

RIVIERA^

ARNOLD^

TOMATO

TOMATILLO *See Pricing On Page 139*

Code	Variety	Comments
7791	TAMAYO	65 days from transplant. Very uniform in size and quality with high yield potential. Intense green fruit color and vigorous indeterminate plant. Fruit holds very well following harvest with excellent shelf life. Compared to HPG 20, Tamayo has smaller fruit, but a more concentrated early set.
6681	SIQUEIROS	55 - 60 days from transplant. Early compact set that achieves top yields in just a few picks. Large, dark green fruit on large vigorous vine.
4194	CLEMENTE	49 days from transplant. Easy de-husking capabilities - unique mechanical harvesting potential. Extremely early maturity. Concentrated fruit setting. High yield with quality fruits. Excellent plant vigor and cover.

TOMATO VARIETIES ARE AVAILABLE COATED ON A CUSTOM BASIS. MINIMUM PER LOT CHARGE WILL BE APPLIED. PLEASE INQUIRE ON CHARGES AND MINIMUMS.

TURNIP HYBRIDS

See Price List Below For Featured Varieties and Open Pollinated Varieties

Code	Variety	Days	Comments
8938	ALAMO	33	Used for greens, Alamo is excellent for processing. Vigorous regrowth promotes strong yields.
8756	TOPPER	35	Cut leaf, Seven Top-type for tops. Upright dark green leaves; tolerates aphids and mildew.
4828NT	HAKUREI	38	Hakurei is a very early, sweet and tender Japanese turnip. It is so sweet it is often eaten raw. The tops are on the short side, so nice for bunching, and smooth (not hairy). Most frequently Hakurei is harvested with the tops when roots are 2" around.
9580	BELLA LUNA	40	This white Japanese turnip is sweet and mild with excellent earliness, uniformity and a refined appearance. The medium-sized tops are a shiny dark green. With good heat and bolting tolerance, it can be grown from early spring through late fall. Has Club Root resistance.
8752	ROYAL CROWN	40	Improved Purple Top White Globe hybrid, suitable for both roots and tops (which are a cut-leaf type). Good bolt tolerance. Roots retain fine interior quality into larger size.
5182	PURPLE PRINCE	45	Vigorous hybrid suitable for root or top harvest. Uniform flat-round roots are smooth with dense white flesh. Tops are vigorous, dark green, nearly hairless and resemble strap leaf type. Multiple cuttings are possible if used for tops.

CRIMSON SWEET RINDS *Light green rind with mottled, dark, wide green stripes. This is the standard seedless "look".*

X = Primed Seed

Code	Variety	Days	Weight & Bin Count	Shape	Rind	Flesh	Disease Reaction	Comments
4329	SHORELINE	70	16 - 18 lbs.	Oblong	Mottled stripe	Red	IR: Co1, Fon:1	45/36 count watermelon. Suitable for both the cut and traditional watermelon markets. Fruit are oblong and uniform with an attractive mottled stripe rind pattern. Excellent internal characteristics including red flesh, great rind and flesh definition.
7951X	SWEET DAWN	74	16 - 20 lbs.	Blocky oval	Light green rind with medium dark stripes	Dark red	IR: Co1 Fon:1	Dark red, firm flesh with very smooth skin. Produces consistently high yields. Early maturing for first-to-market advantages.
3729X 	JETSKI	78	17-20 lbs.	Oblong	Mottle stripe	Dark red	IR: Fon:1	Jetski is an early, 45 count, mottle stripe with high average degrees brix and has shown excellent quality with deep red interior.
3900X	VALOR	79	14-17 lbs.	Blocky oval	Medium dark green with dark stripe	Dark red	IR: Co1 Fon:1	Valor is a blocky shaped fruit with a medium dark stripe similar to Melody. Fruit size is mostly 35 and 45 count fruit. Excellent deep red flesh quality with dark red color. Fruit have good field holding ability during harvest.
5160	TROUBADOUR	82	13 - 18 lbs.	Oval	Medium dark green rind with dark green stripes	Dark red	HR: Co 1	Troubadour features a fresh dark rind, and a uniform oval shape. It sets reliably with stress and has extra-firm, sweet flesh. Seedlings are typically vigorous.
7646X	EXCURSION	83	17 - 24 lbs.	Blocky	Light green rind with medium dark stripes	Deep red	IR: Co1, Fon:1	Excellent fruit size potential. Attractive, deep red, firm flesh with small pips. Strong vine growth. Large, oval shaped fruit with crimson striped appearance.
5761	RED OPAL	84	15 - 19 lbs.	Oval	Light green rind with medium dark stripes	Bright red	IR: Co1, Fon:1	Red Opal has shown itself to be a very prolific seedless watermelon with a concentrated set of fruit. The light green background with a medium dark green stripe contrasts well with the bright red internal flesh color.
3870 F400 	RIO GRANDE	84	16 - 20 lbs.	Oval	Dark green, mottled stripe	Bright red	IR: Fon:1	Rio Grande is a high yielding, dark green mottled striped, seedless watermelon with an oval shape. It has a large leaf and a strong aggressive vine. Intense red colored interior, high sugar content with small pips. It's good fruit setting ability and plant strength make this hybrid very grower friendly.
3720 XF1400 	VIRTUE	85	16 - 20 lbs.	Blocky	Light green with hazy, broad, medium-dark green stripes	Bright red	IR: Co: 1, Fon: 1, Px 1	Virtue offers a unique combination of large fruit size, improved disease resistance and early maturity. The medium strong plant offers adequate fruit coverage throughout the growing season and has performed best in early season cool conditions, similar to Sweet Dawn and Excursion. This variety has produced mostly 36 to 45 count fruit sizes and has been slightly smaller than Excursion in trials. The flesh has a striking bright red color and a sweet, robust flavor!
3980X 	EL CAPITAN	85-90	17 - 21 lbs.	Blocky, oval	Medium green with dark green stripes	Deep red	HR: Fon:1	A triploid with excellent yield potential, extended shipping, and field holding ability. Small pip and excellent flavor.
3981X 	SIERRA MADRE	85-90	15 - 24 lbs.	Blocky	Crimson	Deep red	HR: Fon:1	Blocky fruit on vigorous vines. Excellent yield and fresh market potential. Deep red firm flesh with small pips.
3982X 	SIERRA NEVADA	85-90	17 - 21 lbs.	Blocky, oval	Medium green with dark green stripes	Deep red	HR: Fon:1	Features an attractive, darker crimson rind pattern with vigorous vines. Excellent yield potential, extended shipping and firm flesh.
5400X	FASCINATION	85	16 - 20 lbs.	Oval	Medium green with hazy stripes	Red	IR: Co1, Fon:1	Delivers excellent, reliable yields along with the best flavor and internal quality. Exceptional crisp, dense, sweet flesh coupled with excellent field holding ability.

Code	Variety	Days	Weight & Bin Count	Shape	Rind	Flesh	Disease Reaction	Comments
7894	JOY RIDE	86	18 - 24 lbs.	Oval	Medium dark green with dark stripe	Dark red	IR: Fon:1	With a powerhouse vine, Joy Ride has the potential for excellent yields of very uniform fruit. It has wonderful flavor and interior quality. Offers a sturdy rind and consistent setting ability. GR:SE
6853	TAILGATE	87	17 - 18 lbs.	Oblong	Dark green with light bands	Red		Triploid Hybrid Watermelon that is super sweet, has high yield potential and excellent pulp quality. It has shown great adaptability across different production areas. GR:SE
7618X	EMBASY SuperSeedless®	88	15 - 20 lbs.	Oval	Dark green rind with medium green stripe	Red	IR: Co:1, Fon:1	Mid season maturity with strong plant vigor. Uniform fruit with an attractive, striped, dark green rind pattern.
8852X	CAPTIVATION	89	14 - 17 lbs.	Blocky	Medium green crimson, darker stripe	Bright red	IR: Co:1, Fon:1	Attractive darker rind fades just a bit to signal full maturity. Sound flesh has incredible crunch without being fibrous.
3869 F400	NEW DESTINATION	89	15 - 19 lbs.	Oval	Dark green rind with medium green stripe	Red	IR: Fon:1	A medium dark green, high yielding, oval shaped crimson stripe seedless watermelon. High percentage of 45 ct watermelons. Very strong vine with consistent uniformity in shape and size. Very firm flesh hybrid with small pips.
5762	RED AMBER	89	18 - 20 lbs.	Oval	Medium green, darker stripes	Dark red	IR: Co:1, Fon:1	Red Amber has a strong, vigorous plant that produces a uniform set of high quality, oval fruit. The very dark red interior has a crisp texture and contrasts well with the medium green background and medium dark green stripe.
9305	EXCLAMATION	90	17 - 22 lbs.	Blocky, oval	Medium green, distinct darker stripes	Red	IR: Co:1, Fon:1	Excellent choice for growers wanting a very large seedless triploid with excellent firmness and interior quality. The vine is quite vigorous. Very good quality later in the season.
6893	CRUNCHY RED	90	16 - 22 lbs.	Oval	Light green, medium stripes	Light red	IR: Co:1	Crunchy Red has earned a reputation for size and yield along with ease of shipping. As the name indicates, flesh is very firm.

Introducing New Seedless Watermelon – Valor

- Higher fruit sets
- Excellent watermelon flavor for great consumer appeal
- Early maturity with firm flesh
- Produces mostly 36- to 45-count fruit
- Ideal for retail either whole or fresh-cut
- Intermediate resistance to Fusarium Wilt race 1 and Anthracnose race 1

New Syngenta Watermelon Variety Sales Will Benefit Veterans' Organizations

Introduced in the 2022 growing season, for every new **Valor** seed and plant sold through the Syngenta Full Count Plant Program, a portion of the proceeds will be donated to American veterans' organizations through the National Watermelon Association (NWA).

YELLOW / RED FLESH

X = Primed Seed

Code	Variety	Days	Weight	Shape	Rind	Flesh	Comments
3908	TROPICAL SUNSHINE	78-80	12 - 15 lbs.	Blocky, round	Jubilee	Deep Yellow	Nice, deep yellow flesh with very high sugar level. 13% brix. Good definition between rind and flesh. Dark tiger stripe with good plant and excellent fruit setting. Blocky, round shape with strong yield and good uniformity.
3735 NEW	TROPICAL HONEY	78-80	8 - 14 lbs.	Blocky, round	Canary jubilee	Deep red	Deep red flesh and great rind definition. Flesh has great flavor and is very sweet, crunchy, with high brix. Tiger stripe with vigorous plant and excellent fruit setting. Strong yielder.
9238	BUTTERCUP	82	12 - 14 lbs.	Round	Jubilee	Bright Yellow	High yields, an ideal smaller size, refined appearance and very clean, sweet taste. Compared to other yellow varieties, the rind is not as "faded" looking and the flesh is more solid.
9341X	AMARILLO	84	13 - 15 lbs.	Round	Jubilee	Deep Yellow	Broad adaptability, producing fruit with bright, deep yellow flesh and a distinctive rind pattern.
4067	AMARELA	85	11- 13 lbs.	Round, to slightly oval	Jubilee	Lemon Yellow	Outstanding flavor for a yellow flesh. High brix and very crisp. Excellent producer of uniform fruit.

IN-ROW POLLINATORS FOR TRIPLOIDS See Pricing On Page 154

Code	Variety	Comments
5312	CO-PILOT	Sprawling vine with heavy flowering. Early and extended flowering duration. Pollen in the flowers is very fertile over a wide range of growing conditions. Fruit weighs 3-6 lbs. with light red flesh, and solid light green rind. IR: Fon:1, Co1
7640	ACE PLUS	Ace Plus offers a very early flowering date that makes pollen available for the first female flowers produced by the triploid. Plus, it continues to flower well beyond the hybrid. IR: Fon:1, Co1
8528	WILD CARD	With extra long vines and an extra wallop of pollen, everyone who uses an in-row pollinator should give Wild Card a try. It flowers very late into the season. Fruit has bland, yellow flesh and a tiger-striped rind.
7639	WILD CARD PLUS	Small, brittle fruit allows for easy triploid harvest. Tiger-striped rind pattern. Excellent pollen quality for maximum yield. IR: Fon:1, Co1
7822	WINGMAN	Provides very early flowers and an extended flowering. Strong, compact vine structure that allows it to climb up triploids. Produces very small, gray, crushable fruit. GR:SE

/// *Vegetables*
by Bayer

Here for those who trust in tradition.

For more than 150 years, the Seminis® legacy has been breeding to improve vegetable seeds for better harvests. And while we're proud of our products, our main focus has always been giving growers the confidence that the Seminis heritage brings into the next 150 years.

Grow better together

// *Grow better together at www.vegetables.bayer.com/us/en-us/products/seminis.html*

***X5R® technology provides intermediate resistance to bacterial leaf spot races 0-5. **X10R® technology provides intermediate resistance to bacterial leaf spot races 0-10.**

HR = High Resistance, IR = Intermediate Resistance. To find out more about disease resistance and the applicable levels of disease resistance, visit www.worldseed.org, and view the "Definition of the Terms Describing the Reaction of Plants to Pests for the Vegetable Industry" paper in the Vegetable Resources section.

Performance may vary, from location to location and from year to year, as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on the grower's fields.

HELP RESTORE NUTRIENTS AND INCREASE YIELD POTENTIAL

COVER CROPS

SINGLE TYPES

ANNUAL RYEGRASS

→ **CENTURION** diploid annual ryegrass was developed for quick establishment, excellent Crown Rust resistance, frost tolerance and high forage yield. CENTURION exhibits excellent seedling vigor, and medium maturity, allowing consistency in forage yield throughout the season with good transition back into warm-season forage grasses. **FRIA** is a late maturing, widely adapted annual ryegrass with excellent cold tolerance. Other benefits include improved disease resistance to Crown Rust, Gray Leaf Spot and Helminthosporium Leaf Spot.

HAIRY VETCH

→ **Purple Bounty** is a new winter hardy, early maturing hairy vetch variety developed for high nitrogen fixation (up to ½ of a subsequent crop's nitrogen), increased biomass for a thicker mulch and earlier flowering for more flexibility in planting succeeding crops. Vetch forms ground cover slowly in the fall, but root development continues through the winter with substantial growth in the spring. For maximum results, Purple Bounty should be in full bloom to allow for peak nitrogen contribution and to mow, roll or spray for maximum vetch kill. Spring oats or winter grains can also be planted with Purple Bounty to act as a protective cover for improved winter survival and increased erosion control. Purple Bounty is an excellent cover crop for nitrogen fixation, erosion control, bio mass, and weed suppression.

PHACELIA

→ Phacelia is a plant that is native to the United States, but was adopted and improved by Europeans for use as a cover crop. Phacelia is quick to establish and will winter kill at 18° F. Phacelia is an excellent source of high quality nectar and pollen and as a result is excellent at increasing the population and diversity of beneficial insects. Phacelia will begin flowering 6-8 weeks after emergence and will continue to flower for 4-6 weeks. Phacelia is comparable to buckwheat in many ways, but is more tolerant to cold and drought. Phacelia can also be used for forage, as a green manure crop, nematode control, and a nitrogen trap crop.

OATS

→ Oats are very versatile as they can be planted at various times of the season and used as an excellent cover and forage crop. Oats work well alone, but especially well in mixes with radishes, turnips, berseem clover, crimson clover and Austrian winter peas. Oats perform well for erosion control and are very good nutrient scavengers. Oats (and mixes with radishes or turnips) work very well for manure nutrient management.

TRITICALE

→ Triticale is a hybrid small grain produced by crossing wheat with rye. The name "triticale" is derived from the combined scientific names of the two crop species wheat and rye. The versatility that triticale offers as a grain, a forage, for straw and as a cover crop adds to the economic viability that sustains the interest in the crop.

BUCKWHEAT

→ Buckwheat, when used as a cover crop, can reduce both the emergence and growth of weeds, thereby presenting an easy and economical alternative to herbicides. Buckwheat, a short-duration broadleaved, annual species, provides very effective weed suppression due to its rapid early growth that establishes a canopy faster than many weeds.

CRIMSON CLOVER

→ Crimson Clover has erect stems, grows quickly and has larger seeds than the more commonly used red clover. Crimson Clover's primary advantages are rapid growth during cool weather, shade tolerance and good reseeding potential. Crimson Clover can be planted in early spring or fall for weed control. Because of its shade tolerance and reseeding potential, crimson clover is also effective as a living ground cover in orchards. Crimson Clover has been used effectively to suppress weeds when planted in the early fall following a short-season crop such as potatoes, snap beans, vegetables or following winter wheat. Planting with a grass such as oats, which is also fast-growing, gives additional weed control in these situations.

AUSTRIAN WINTER PEAS

→ Austrian Winter Peas are a cool-season, annual legume with good nitrogen-fixing capabilities. Austrian winter pea is a low-growing, viney legume and has been shown to fix over 200 lbs. of nitrogen per acre per year under good conditions. It has hollow, slender and succulent stems, 2 to 4 feet long. The foliage is pale green and the flowers are colored, usually purple, pink or reddish. The leaf consists of one to three pairs of leaflets and terminal branched tendrils. Pods are 1.5 to 2.5 inches long with three to five round, dark-colored seeds. Seed color is commonly gray with purple or brown mottles.

CEREAL RYE

→ Cereal Rye is a fall planted, winterhardy species with deep root penetration. The extensive root system enables cereal rye to capture high levels of nitrogen and other nutrients from the soil and reduces soil compaction issues. Cereal Rye has the added benefit of late fall and early spring grazing as well as spring silage or hay.

CALIENTE 199 Mustard Blend

→ Mustard blend used as a green manure crop and biofumigant. Produces excellent biomass with good management. Caliente 199 glucosinolate production among mustards in its class, and as part of an integrated program, can reduce nematode populations and suppress weeds and diseases including Verticillium Wilt, Silver Scurf, and Sclerotinia. Best results require good management including flail chopping, tillage and rotation. For the biofumigant to work, irrigation or light rain is needed directly after chopping and incorporating into the soil.

SUNN HEMP

→ Sunn Hemp is an excellent cover crop variety which produces large amounts of biomass through warmer conditions. Sunn Hemp will scavenge available nitrogen and will fix nitrogen when nitrogen is lost. Sunn Hemp will hold and produce sufficient nitrogen to provide nitrogen credit for the following crop.

To purchase these seeds (that do not ship free unless you are near a warehouse), you can order by phoning our Elizabethtown office at (800) 952-7333, or by phoning one of the SEEDWAY Sales Representatives.

SW-PR - 25 lbs. per acre**80% Survivor Winter Pea 20% Eco-Till™ Radish**

- Rapid establishment to prevent wind and water erosion.
- Fixes atmospheric nitrogen to increase soil nitrogen levels.
- Improves soil permeability for increased air and water penetration, reduces soil compaction, and increases root development potential.
- Recycles nutrients that would have been lost to leaching or runoff.
- Potential forage for fall grazing.

SW-RyR - 25 lbs. per acre**80% Fria Annual Ryegrass 20% Eco-Till™ Radish**

- Improves soil permeability for increased air and water penetration, reduces soil compaction, and increases root development potential.
- Recycles nutrients that would have been lost to leaching or runoff.
- Holds surface soil in place.
- Improves soil tilth which can benefit any crop that follows.
- Potential forage production for fall grazing.

SW-RyC - 25 lbs. per acre**60% Fria Annual Ryegrass 40% Crimson Clover**

- Rapid establishment to prevent wind and water erosion.
- Improves soil permeability for increased air and water penetration, reduces soil compaction and increases root development potential.
- Fixes atmospheric nitrogen to increase soil nitrogen levels.
- Potential forage for fall and spring grazing, spring silage or hay.

SW-TCR - 50 lbs. per acre**80% Triticale 10% Crimson Clover 10% Eco-Till™ Radish**

- Rapid establishment to prevent wind and water erosion.
- Recycles nutrients that would have been lost to leaching or runoff.
- Fixes atmospheric nitrogen to increase soil nitrogen levels.
- Improves soil permeability for increased air and water penetration, reduces soil compaction and increases root development potential.
- Best used prior to corn, wheat or other crops requiring significant nitrogen inputs.
- Potential forage for fall and spring grazing, spring silage or hay.

SW-POR - 50 lbs. per acre**50% Survivor Winter Peas 40% Jerry Oats 10% Eco-Till™ Radish**

- Rapid establishment to prevent wind and water erosion.
- Improves soil permeability for increased air and water penetration, reduces soil compaction, and increases root development potential.
- Recycles nutrients that would have been lost to leaching or runoff.
- Fixes atmospheric nitrogen to increase soil nitrogen levels.
- Potential forage for fall and spring grazing, spring silage or hay.

SW-TRy - 100 lbs. per acre**80% Triticale 20% Fria Annual Ryegrass**

- All grass mix.
- Excellent forage for fall and spring grazing.
- Improves soil tilth which can benefit any crop that follows.
- Rapid establishment to prevent wind and water erosion.

SUNFLOWERS

See Pricing At Right

Code	Variety	Days	Comments
6130NT	FLORISTAN	46 - 55	A lovely and early flowering variety on a 3.5' to 4.5 foot branched plant. While flowers won't last long when cut, the stems are strong and the flowers a pretty dusty dark rose and cream color.
3911NT	PROCUT® HORIZON	50 - 60	ProCut Horizon is a traditional yellow sunflower hybrid with heads that face up on a single sturdy stem. It is pollenless for cut-flowers. It is day length neutral meaning it can be grown over winter in frost free areas and for late fall crops in the north. It is very uniform with a slightly smaller flower than ProCut Orange. 4 to 6 feet
5946NT	BLACK OIL SEED	53-63	Makes a nice addition to sunflower mazes and also used for microgreens. Multibranched with flowers sized 4"-9". Gold flowers with brown center. Height 4 to 6 feet.
4159NT	SUNRICH GOLD	60 - 70	Early blooming and stunning with medium-large heads held upright on sturdy single stems. Golden Yellow with a yellow center. Pollenless flowers have great shelf life (and bloom a long time in the field). Grows 4.5 to 5.5 feet.
5421NT	SUNBRIGHT SUPREME	64 - 70	Sunbright Supreme is a proven variety for single stem cut flowers. The flowers are quite uniform in maturity and size.
4421NT	FULL SUN IMPROVED	65 - 70	Full Sun is used for cut flowers in cooler weather in the South, where it matures predictably with low light. Pollenless. 47" to 78" tall. When grown in winter, stems are shorter but always long enough for a perfect, pollenless flower.
4158OR	GOLDY DOUBLE	75 - 80	Goldy Double produces fully double "powder puff" flowers on "spray" type branched stems. It makes some of the nicest cut flowers of any branched variety in that the stems are long, strong and straight. The medium-tall plant, 6' to 7', is topped with an explosive jolt of gold in full bloom. Nearly pollenless flower start blooming with a greenish center.
6646NT	TEDDY BEAR	75 - 80	Fantastic for potted plant sales or as a border, Teddy Bear has shaggy golden flowers on compact, 3' to 4' plants with dense large leaves. Despite the small size, it is late maturing at 75 - 80 days.

WILDFLOWER MIX

Great For Pollinators! See Pricing At Right

Code	Variety	Comments
8471NT	WILDFLOWER BEE POLLINATOR MIXTURE	Wildflower Bee Pollinator Mix is exclusively formulated to provide food and shelter for bees and other beneficial pollinators. Colony collapse disorder is threatening the bee population that we depend on to pollinate crops. One of the contributing causes to this serious problem is the reduction of available native plants that bees depend on for nectar and cover. Expect 3 to 4 years of blooms, after which weed competition may require additional sowing. Seeding Rate: 1 lb./2000 square feet.

PACKED FULL OF FLAVOR!

STM2255 IS THE TOMATO THAT BRINGS THE FLAVOR!

This extremely adaptable variety can be grown virtually anywhere in the Eastern US in a wide range of slots. Benefits of STM2255 include highly marketable yield, excellent flavor and vine-ripe quality while requiring lower than average inputs, making it an ideal, cost effective addition to your program.

Our seed, unless specified by the customer, will be treated with our standard seed treatment. Our standard treatment can be one or multiple fungicides depending on the variety; some treatments have insecticides included with fungicides for added protection. Encrustments, pelleting and priming treatments are also available in addition to the standard treatment options. Although SEEDWAY will not guarantee in stock inventory of a variety with a specific seed treatment, treatment & pelleting can often be arranged if adequate lead time is allowed prior to delivery. Minimum order amounts will apply.

Crop	Standard	Special Request	Crop	Standard	Special Request
Bush Beans	Cruiser + Basic fungicides	Basic fungicides	Lettuce	Not Treated or Thiram	Pelleting, Organic Pelleting
Other beans: shell, pole, lima, Southern peas and runners	Basic fungicides	Cruiser	Onion	Filmcoat Thiram	FI500, Trigard, Progro, Pellet, Priming, Encrustment
Cabbage	Filmcoat, Thiram, hot water treated (HWT)	Priming	Parsnip	Priming and Basic Fungicide	Pelleting
Carrots	Filmcoat + Apron, Thiram, Rovral	Pelleting, priming, encrustment, F300	Peppers	Not Treated or Thiram, raw or pellet	
Celery	Not Treated or Filmcoat Thiram	Pelleting	Pumpkins	Filmcoat Thiram or Farmore 400	FI400
Corn	Sweet - Cruiser + Basic fungicides; Popcorn and Ornamental - Basic fungicides		Radicchio	Not Treated	Pelleting
Cucumber	Filmcoat Thiram or Farmore 400	FI400	Squash	FI400	Thiram or F300
Eggplant	Thiram or Not Treated	Pelleting	Tomato	Raw or Pellet	
Leek	Thiram, Priming on hybrids	Priming on OPs and/or pelleting	Watermelon	Priming or Thiram	Priming

Please check catalog listings & price list for more complete outline of cabbage varieties generally stocked as HWT; lettuce, pepper and tomato varieties generally stocked as pelleted, watermelon varieties generally offered as primed, and corn varieties generally offered with Cruiser or Poncho as the standard treatment.

Pelleting - A coating on the seed to help increase seed size for mechanical planting. With uniform seed shape and size, planting placement is greatly improved. Within the pelleting material, seed treatments such as insecticides and/or fungicides are often added for protection against pathogens.

Encrustments - A coating that minimally increases seed size & makes irregular or disfigured seed uniform. This helps to aid with mechanical seed sowing. There is no seed treatment added to the encrustment material.

Filmcoating - A thin polymer that binds treatment to the seed; this helps reduce the removal of treatment while the seed is being handled. Filmcoat is standard on most seed. The treatment is usually a bright color that also helps to see the seed after it has been sown.

Farmore - Name brand given to a group of seed treatments that provide either fungicidal or a combination of fungicidal and insecticidal properties. Farmore treatment packages are listed below.

Farmore F300 - A fungicide seed treatment added to vegetable crops such as carrots, lettuce, melons, onions, peppers, tomatoes & squash. Protects against the following: *Alternaria, Aspergillus, Botrytis sp., Damping-off, Fusarium, Penicillium, Pythium, Rhizoctonia, Sclerotinia*.

Farmore FI400 - A combination fungicide & insecticide seed treatment applied to vegetable crops such as cucumber, pumpkin and squash, among others.

Protects against the following diseases: *Alternaria, Aspergillus, Botrytis sp., Damping-off, Fusarium, Penicillium, Pythium, Rhizoctonia, Sclerotinia* **and the following insects:** *Aphids, cucumber & flea beetles, leaf miners, seed corn maggots, thrips, white flies & wire worms*.

Farmore FI500 - A combination fungicide and insecticide seed treatment used specifically on onion seed. Spinosad insecticide is added to the FI400 formulation for control of onion pests. **Protects against the following diseases:** *Fusarium, Damping-off, Pythium, Rhizoctonia* **and the following insects:** *early season thrips, onion maggot, onion thrips & seed corn maggots*. **Due to Canadian regulations this treatment is NOT permitted in Canada.**

Trigard - Insecticide that controls onion maggots. This is added during the pelleting & encrustment process in onions.

Pro-Gro - Combination of Carboxin and Thiram added to pelleted onions to control onion smut.

Cruiser/Poncho - Systemic insecticides used on beans and corn to prevent injury from flea beetles & soil insects such as wire worms, seed corn maggots, white grubs.

Priming - A technique used to jump start the germination process. This reduces the time it takes seed to germinate & also increases plant uniformity. Priming can be used on cabbage, carrots, leeks, onions, parsnips & watermelons.

From the world market to the farmer's market, we work with our customers to design innovative solutions to the agricultural problems of today, in order to produce the high quality seeds needed to ensure the successes of tomorrow.

Learn more!

BARTRAM

An adaptable bean that works well in warmer planting slots. Produces consistent yields on an open plant with caps and stems for freshness.

SUMMER CELEBRATION

An SH2 with a beautiful uniform bright yellow ear, great husk package, sturdy plant, excellent eating quality, and extended shelf life.

CAPTAIN

XL to L green pepper with an adaptable plant for open field. Protected by BLS 1-10 resistance and phytophthora tolerance.

RED MORNING

A high quality tomato with smooth uniform fruit, mid-early vine, and a nice disease package including intermediate resistance to TSWV.

TRIBUTE

Tribute is our very high yielding, medium-green zucchini with straight cylindrical fruit on a medium, open, upright plant.

RED CORAL

Determinate grape with high yield potential and comprehensive disease package, all while maintaining a traditional tomato taste.

Technical data and disease resistance ratings shown are averages of results from observations at various locations, under different conditions, and laboratory tests. It is not a prediction of future performance but a summary of past results. Seed performance, yield, and crop results will vary depending on geographic areas, environment conditions and pressure, field growing and management practices, and the presence of pests or pathogens. New, unknown, and/or atypical pathogen strains may overcome the resistance of the seed. Acceptance of the HM.CLAUSE Limitation of Warranty and Liability and Use Restriction, included with our seed packages or available at www.hmclause.com, is a condition of use of all our products.

/// Vegetables
by Bayer

Family Traditions Have Never Been Sweeter.

Performance Series® sweet corn contains the same great Roundup Ready® technology and protection from select above- and below-ground insect pests that row crop farmers are already familiar with. Most importantly, come harvest, you can expect full, quality ears that deliver great taste that you and your family will love.

Key Management Practices to Maximize Quality and Yield

- Scouting for Corn Earworm should begin prior to first silk and continue through harvest
- Use traps to monitor and count adult moths in the area
- Spray programs will be needed to maximize marketable yield

Bayer is a member of Excellence Through Stewardship® (ETS). Bayer products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Bayer's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Commercialized products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Performance may vary, from location to location and from year to year, as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on the grower's fields.

Roundup Ready® Technology contains genes that confer tolerance to glyphosate. Glyphosate will kill crops that are not tolerant to glyphosate. Bayer, Performance Series®, Roundup Ready® and Seminis® are registered trademarks of Bayer Group. ©2022 Bayer Group. All rights reserved.

At the Forefront of Innovation

for sweet corn grower-leaders

In partnership with growers, we're transforming how crops are grown, harvested, processed and consumed across the world. Through our investment in research and development we deliver new varieties that are resistant to disease, require fewer inputs and have improved shelf life. We also help maximize seed effectiveness to ensure that they can better adapt to environmental stresses and provide improved post-harvest yield.

Syngenta has a range of new standout product offerings for the upcoming planting season.
