

RELATIVE MATURITY 95 DAYS

SW 9595V (E-Z)

NEW FOR 2025!

Viptera®

New, 95RM hybrid with the Viptera® trait that fends off above ground insects including Corn Earworm and Western Bean Cutworm to protect yield, standability and quality. A visual knockout in the field with exceptional eye appeal supported by top shelf performance. Consistent ear development down the row with length, girth plus husks that loosen on a leafy plant with superior staygreen and fall plant intactness. Adapted to all yield environments with wide adaptation across the Northeast where maturity fits. Also available in DuracadeViptera™ and GT only versions.
